

This form is to be used for the purposes of sections 74 and 77 of the Building Regulation 2021 (appointed competent person statement that an aspect of work has been completed and complies with the building development approval).

Information about how to complete this form is in the Appendix at the end of the form.

1. Indicate the aspect of the building work

Examples of aspects of the stage of building work (and not limited to the examples provided below):

waterproofing, tiling, glazing, energy efficiency, emergency lights, exit signs, smoke detection, air-conditioning.

Aspect of building work (indicate the aspect)

Smoke alarm/s installation & commission/testing

The installation methods and equipment selection are compliant to the following Regulations and Standards. AS/NZS 3000, The Queensland Electrical Safety Regulation 2013, AS 3786:2014

Where required, manufacturers installation instructions have been met

2. Property description

The description must identify all land the subject of the application.

The lot and plan details (e.g. SP/RP) are shown on title documents or a rates notice.

If the plan is not registered by title, provide previous lot and plan details.

Street address	5 Spring Street		
	Suburb/locality	Sippy Downs	
State	QLD	Postcode	4556

Lot and plan details (*attach list if necessary*)

Lot 3 SP 308411

Local government area the land is situated in

Sunshine Coast Regional Council

3. Building/structure description

Building/structure description

Multi-Unit Development

Carpark

Class of building/structure

Class 2

Class 7a

4. Description of the extent of aspect/s certified

Clearly describe the extent of work covered by this certificate, i.e. all structural aspects of the steel roof beams and location i.e. what floors the work was on, the parts of a room.

All smoke alarm equipment supplied and installed:

Meets the requirement of a photoelectric type sensor only

Has a date of manufacturer of 15 / 01 / 2022

Is manufactured to AS 3786:2014

Where required, Interconnected as per NCC 3.7.5.2(d)

Connected to mains power

5. Basis of certification

Detail the basis for giving the certificate and the extent to which tests, specifications, rules, standards, codes of practice and other publications were relied upon.

All smoke alarms and auxiliary equipment are installed and tested to the Wiring Rules, The Queensland Electrical Safety Regulation 2013, the manufacturer's installations instructions, and to the extent it is affected by the electrical work, is electrically safe.

6. Reference documentation

Clearly identify any relevant documentation, e.g. numbered structural engineering plans.

Fire and Emergency Services Act 1990, Building Regulation 2006, Building Fire Safety Regulation 2008

If supplied, the location and wiring interconnections are detailed on the supplied plans accompanying this document

Plan / Diagram No: ___0837___ containing ___E300, E301, E302, E303, E304, E305, E306, E307___ pages

7. Building certifier reference number and building development approval number

Building certifier's name (in full)	Stuart McGill		
Building certifier reference number	20279289	Development approval number	20219289

8. Details of appointed competent person

Name (in full)	Nicholas Main		
Company name (if applicable)	CVSG Electrical Construction Pty Ltd		
Contact person	Nicholas Main		
Business phone number	07 3622 4300	Mobile	

Email address	Nick.main@cvservices.com.au		
Postal address	PO Box 3260		
		Suburb/locality	Hendra
State	QLD	Postcode	4011
Licence class or registration type (if applicable)	Electrical		
Licence class or registration number (if applicable)	68271		
Date request to inspect received from building certifier	Click or tap to enter a date.		

9. Signature of appointed competent person

Signature		Date	20/09/2022
-----------	---	------	------------

LOCAL GOVERNMENT USE ONLY

Date received	Click or tap to enter a date.	Reference number/s	
---------------	-------------------------------	--------------------	--

Appendix – explanatory information

IMPORTANT NOTE: a competent person who knowingly or reasonably suspects the information they are giving to the building certifier is false or misleading, including the information contained in this certificate (Form 12), commits an offence and is liable to a maximum penalty of 100 penalty units.

When is this certificate needed? (sections 10 of the *Building Act 1975* (Building Act) and 75 of Building Regulation 2021 (BR 2021))

When performing a building certification function, a building certifier may accept and rely on **an aspect inspection certificate** from an appointed competent person to satisfy themselves that an aspect of work has been completed and complies with the building development approval.

For a single detached class 1a building a building certifier can only accept this form for an aspect of work that is for

- boundary clearance if the appointed competent person is a cadastral surveyor, and,
- the reinforcement of footing systems if the appointed competent person is the appropriate registered professional engineer.

For further information about inspections for detached class 1a and 10 buildings or structures, refer to **Guideline for inspections of class 1 and 10 buildings and structures**.

Who can sign this certificate (Form 12)? (Part 9, Division 2, Section 74 of the BR 2021)

A person assessed and appointed as a competent person (inspections) must complete the approved form (Form 12) and give it to the building certifier after they (1) inspect the aspect of work; and (2) are satisfied the aspect of work has been completed and complies with the building development approval.

Competent person (section 10 Part 6 of the BR 2021)

A building certifier must assess and decide to appoint an individual as a competent person before they can, as a competent person, give inspection help or design-specification help. The building certifier is required to keep detailed records about what was considered when appointing a competent person.

A competent person cannot give inspection help to a building certifier until they have been appointed by the building certifier. For further information about assessment of someone as a competent person refer to the **Guideline for the assessment of competent persons**.

Inspection help (section 34 of the BR 2021)

A building certifier must be satisfied that an individual is competent to give the type of inspection help having regard to the individual's experience, qualifications and skills and if required by law to hold a licence or registration, that the individual is appropriately registered or licensed.

For further information about conducting inspections for class 2 to 9 buildings, refer to the **Guideline for inspection of class 2 to 9 buildings**.

How to complete this form

Section 1 – Aspect of building work

An aspect of building work means a component of a stage of the building work, for example water proofing. A stage of assessable building work (requires a building development approval) is a stage of the work, prescribed by regulation, that may be inspected, or stated in a building development approval by the relevant building certifier.

Section 2 – Property description

The property description must identify all the land the subject of the application. The lot and plan details (e.g. SP/RP) can be found on title documents or a rates notice. If the plan is not registered by title, provide previous lot and plan details.

Section 3 – Building / structure description

Describe the type of building or structures and provide the classification determined under the National Construction Code (NCC). The NCC can be accessed at the Australian Building Codes Board's website.

Section 4 – Describe the extent or location of the aspect work inspected.

Clearly describe the extent of work covered by this certificate, i.e. all structural aspects of the steel roof beams and location i.e. what floors the work was on, the parts of a room.

Sections 5 – Basis for the certification and section 6 Reference documentation (section 77 of BR 2021)

The appointed competent person (inspections) must state the basis for giving the certificate (Form 12) including the extent to which the competent person has relied on tests, specifications, rules, standards, codes of practice or other publications to make their decision that the aspect of work has been completed and complies with the building development approval.

Under the regulation (section 76) the appointed competent person (inspections) may accept and rely on a certificate (Form 12) from another appointed competent person (inspections) without inspecting the work. Although this can only be done if the inspection was carried out in accordance with best industry practice.

Other relevant inspection / aspect forms

Aspect work – assessable building work: Form 43 – Aspect certificate (completed by a QBCC licensee) for aspect work for a single detached class 1a building and class 10 buildings and structures.

Aspect work not subject to a building development approval - accepted development (self-assessable): Form 30 – (completed by a QBCC licensee) given to either the builder or building owner of the building, stating the subject aspect work complies with the relevant provisions, standards and codes.

Stages of work: Form 16 – Inspection certificate (completed by a building certifier or competent person) for a stage of work.

Building design – specification: Form 15 – Compliance certificate for building design or specification (completed by the appointed competent person (design – specification)) - for an aspect of stating a building design – specification will, if installed or carried out to the detail under this Form will comply with the building assessment provisions.

For all other building forms and guidelines visit the [Business Queensland website](#).
