# **Form 12**

# Aspect Inspection Certificate (Appointed Competent Person)

This form is to be used for the purposes of sections 74 and 77 of the Building Regulation 2021 (appointed competent person statement that an aspect of work has been completed and complies with the building development approval).

Information about how to complete this form is in the Appendix at the end of the form.

## 1. Indicate the aspect of the building work

Examples of aspects of the stage of building work (and not limited to the examples provided below): waterproofing, tiling, glazing, energy efficiency, emergency lights, exit signs, smoke detection, air-conditioning.

Aspect of building work (indicate the aspect)

# Smoke alarm/s installation & commission/testing

The installation methods and equipment selection are compliant to the following Regulations and Standards. AS/NZS 3000, The Queensland Electrical Safety Regulation 2013, AS 3786:2014

Where required, manufacturers installation instructions have been met

# 2. Property description

The description must identify all land the subject of the application.

The lot and plan details (e.g. SP/RP) are shown on title documents or a rates notice.

If the plan is not registered by title, provide previous lot and plan details.

Street address	treet address Noble Street				
			Suburb/locality	Burpengary East	
State	Queensland		Postcode	4505	
Lot and plan det	ails (attach list if neces	sary)			
Lot 77 SP25589	95				
Local governme	nt area the land is situa	ated in			
Moreton Bay Re	gional Council				
. Building/stru	ıcture description				
Building/structur	e description				
	ı/structure				
Class of building	rotiaotaio				

# 4. Description of the extent of aspect/s certified

Clearly describe the extent of work covered by this certificate, i.e. all structural aspects of the steel roof beams and location i.e. what floors the work was on, the parts of a room.

All smoke alarm equipment supplied and installed:

Meets the requirement of a photoelectric type sensor only Has a date of manufacturer of  $\phantom{0}$  01 / 04 / 22 or 11/04/22 Is manufactured to AS 3786:2014 Where required, Interconnected as per NCC 3.7.5.2(d) Connected to mains power

# 5. Basis of certification

Detail the basis for giving the certificate and the extent to which tests, specifications, rules, standards, codes of practice and other publications were relied upon.

All smoke alarms and auxiliary equipment are installed and tested to the Wiring Rules, The Queensland Electrical Safety Regulation 2013, the manufacturer's installations instructions, and to the extent it is affected by the electrical work, is electrically safe.

## 6. Reference documentation

Clearly identify any relevant documentation, e.g. numbered structural engineering plans.

Fire and Emergency Services Act 1990, Building Regulation 2006, Building Fire Safety Regulation 2008
If supplied, the location and wiring interconnections are detailed on the supplied plans accompanying this document

Plan / Diagram No: \_\_\_\_\_ containing \_\_\_\_\_ pages

# 7. Building certifier reference number and building development approval number

Building certifier's name (in full)		
Building certifier reference number	Development approval number	

## 8. Details of appointed competent person

Name (in full)	Ian John Reid				
Company name (if applicable)	Metrilec Pty Ltd ATF I & S Reid Family Trust				
Contact person	Ian John Reid				
Business phone number	0419 677 965	Mobile	0419 677 965		

Email address	admin@metrilec.com.au			
Postal address	246 Whiteside Road			
			Suburb/locality	Samsonvale
State	Queensland		Postcode	4520
Licence class or registration type (if applicable)	Electrical Contractor's License			
Licence class or registration number (if applicable)	77204			
Date request to inspect received from building certifier				

## 9. Signature of appointed competent person

Signature	Jan	Red	Date	07.09.22	
-----------	-----	-----	------	----------	--

#### LOCAL GOVERNMENT USE ONLY

Date received		Reference number/s	
---------------	--	--------------------	--

## Appendix - explanatory information

**IMPORTANT NOTE**: a competent person who knowingly or reasonably suspects the information they are giving to the building certifier is false or misleading, including the information contained in this certificate (Form 12), commits an offence and is liable to a maximum penalty of 100 penalty units.

When is this certificate needed? (sections 10 of the *Building Act 1975* (Building Act) and 75 of Building Regulation 2021 (BR 2021))

When performing a building certification function, a building certifier may accept and rely on **an aspect inspection certificate** from an appointed competent person to satisfy themselves that an aspect of work has been completed and complies with the building development approval.

For a single detached class 1a building a building certifier can only accept this form for an aspect of work that is for

- <u>boundary clearance</u> if the appointed competent person is a <u>cadastral surveyor</u>, and,
- the <u>reinforcement of footing systems</u> if the appointed competent person is the appropriate <u>registered professional engineer</u>. For further information about <u>inspections for detached class 1a and 10 buildings or structures</u>, refer to **Guideline for inspections of class 1 and 10 buildings and structures**.

Who can sign this certificate (Form 12)? (Part 9, Division 2, Section 74 of the BR 2021)

A person assessed and appointed as a competent person (inspections) must complete the approved form (Form 12) and give it to the building certifier after they (1) inspect the aspect of work; and (2) are satisfied the aspect of work has been completed and complies with the building development approval.

Competent person (section 10 Part 6 of the BR 2021)

A building certifier must assess and decide to appoint an individual as a competent person before they can, as a competent person, give inspection help or design-specification help. The building certifier is required to keep detailed records about what was considered when appointing a competent person.

A competent person cannot give inspection help to a building certifier until they have been appointed by the building certifier. For further information about assessment of someone as a competent person refer to the **Guideline for the assessment of competent persons**.

Inspection help (section 34 of the BR 2021)

A building certifier must be satisfied that an individual is competent to give the type of inspection help having regard to the individual's experience, qualifications and skills and if required by law to hold a licence or registration, that the individual is appropriately registered or licensed.

For further information about <u>conducting inspections for class 2 to 9 buildings</u>, refer to the **Guideline for inspection of class 2** to 9 buildings.

#### How to complete this form

## Section 1 - Aspect of building work

An aspect of building work means a component of a stage of the building work, for example water proofing. A stage of assessable building work (requires a building development approval) is a stage of the work, prescribed by regulation, that may be inspected, or stated in a building development approval by the relevant building certifier.

## Section 2 - Property description

The property description must identify all the land the subject of the application. The lot and plan details (e.g. SP/RP) can be found on title documents or a rates notice. If the plan is not registered by title, provide previous lot and plan details.

## Section 3 - Building / structure description

Describe the type of building or structures and provide the classification determined under the National Construction Code (NCC). The NCC can be accessed at the Australian Building Codes Board's website.

#### Section 4 - Describe the extent or location of the aspect work inspected.

Clearly describe the extent of work covered by this certificate, i.e. all structural aspects of the steel roof beams and location i.e. what floors the work was on, the parts of a room.

## Sections 5 - Basis for the certification and section 6 Reference documentation (section 77 of BR 2021)

The appointed competent person (inspections) must state the basis for giving the certificate (Form 12) including the extent to which the competent person has relied on tests, specifications, rules, standards, codes of practice or other publications to make their decision that the aspect of work has been completed and complies with the building development approval.

Under the regulation (section 76) the appointed competent person (inspections) may accept and rely on a certificate (Form 12) from another appointed competent person (inspections) without inspecting the work. Although this can only be done if the inspection was carried out in accordance with best industry practice.

# Other relevant inspection / aspect forms

Aspect work – assessable building work: Form 43 – Aspect certificate (completed by a QBCC licensee) for aspect work for a single detached class 1a building and class 10 buildings and structures.

Aspect work not subject to a building development approval - accepted development (self-assessable): Form 30 – (completed by a QBCC licensee) given to either the builder or building owner of the building, stating the subject aspect work complies with the relevant provisions, standards and codes.

Stages of work: Form 16 – Inspection certificate (completed by a building certifier or competent person) for a stage of work.

Building design – specification: Form 15 – Compliance certificate for building design or specification (completed by the appointed competent person (design – specification)) - for an aspect of stating a building design – specification will, if installed or carried out to the detail under this Form will comply with the building assessment provisions.

For all other building forms and guidelines visit the **Business Queensland website**.
