Schedule	Schedule 6 - Notes and Disclaimers
Strata Company Name	The Strata Company for Strata Plan 75504
Property Address	5-7 Cattalini Lane NORTH FREMANTLE
Inspection Date	1/06/2021
1	Terms and Conditions
	This document is an Appendix to the Houspect WA Building Inspection report. It must be read in conjunction with that report. The Scope, Terms and Conditions that are detailed in that report extend to this document.
2	Estimated Building Costs to Owners
	The indicative costs are a high level estimates provided by a Houspect Building Inspector who is a Registered Builder in WA. These estimate costs are simply an indicative estimate based on the Builders industry knowledge. The costs are intended to be used for high level planning purposes only. To improve the costs estimate (and hence reduce the risk that the costs may differ from that estimated), Strata Company's should consider either engaging a Quantity Surveyor or obtain 3 quotes from reputable firms capable of undertaking the required work. Indicative costs exclude call out fees.
3	Time of Action
	The time for action is a high level indicative estimate only as to when the likely expenditure may required to be incurred and is an estimate by a Houspect Inspector. The estimate is simply an indicative estimate based on the Builders experience of how long the current item will last before remedial maintenance or replacement will be required.
4	Indexation of Costs and Contributions
	The costs shown have been indicated by the stated indexation rate. Strata Company's have the discretion to apply any rate that they so choose. The rates used were communicated to the Strata Manager/Strata Company prior to finalisation.
5	Strata Company Data
	The funding section of this document has been based on data provided by the Strata Company/Strata Manager and includes Reserve Fund Balance, Reserve Fund Contributions and the indexation rate which has been applied to the various calculations.
6	Common Property Inspected by Other Parties
	The Maintenance Plan requires input of forward costs estimates for various common property (see exclusions which include items such as plant, equipment, plumbing and electrical) that Houspect cannot inspect as Building Inspectors. This is beyond the scope of the Houspect work. Where Houspect has been provided these forward plant and equipment estimates by either the Strata Company, Strata Manager or existing Strata Company Contractor for incorporation into the 10 year plan, Houspect cannot accept any liability for this data. Where estimates have not been provided the 10 year maintenance plan may be underestimated by the amounts required to maintain, repair, renew or replace (other than of a routine nature) these items in the period covered by the plan.
7	Strata Personal Property
	The maintenance plans requires input of forward costs estimates for strata personal property that Houspect cannot inspect as Building Inspectors. This is beyond the scope of the Houspect work. If projections have been provided these will have been provided by either the Strata Company or Strata Manager for incorporation into he 10 year plan, Houspect cannot accept any liability for this data. Where estimates have not been provided the 10 year maintenance plan may be underestimated by the amounts required to maintain, repair, renew or replace (other than of a routine nature) these items in the period covered by the plan.
8	Income Forecast
	The Strata Company has been asked to provide the current reserve fund balance, annual contributions and the expected annual indexation rate of these contributions. The data has been input as supplied.
9	Legislation Limit The Legislation requires 10 year maintenance plans to be updated every 5 years.
10	Funding Recommendation
	Regulations at the time this plan was prepared indicated a requirement for the plan to provide a recommendation for the funding of the estimated costs for the maintenance, repairs, renewal or replacement of the covered items. Where any component of the strata common property has been excluded from the scope or data for schedule 3 and 4 has not been provided, any recommendation in relation to funding will not include funding related to these items or schedules.
