SETTLEMENT

SETTLEMENT DATE: 30 DAYS FROM CONTRACT DATE

- or any later date for settlement in accordance with clause 6.2, 6.3 or 11.6(1) or a special condition of this contract or under s79, s80 or s81 of the Property Law Act 2023.

WARNING: The Settlement Date as stated may change. If you require settlement on a particular date, seek legal advice prior to signing.

GST

[Select one. For sale of house or residential land or residential unit between parties who are not registered or required to be registered for GST, select first option]

Completing the GST items may have significant consequences for the Seller and Buyer. The Seller and Buyer should seek professional advice about completion of the GST item and should not rely on the Agent to complete.

- ☒ No GST is payable or Purchase Price includes GST (if any) [clause 10.2 applies]
- ☐ Buyer must pay GST in addition to the Purchase Price [clause 10.3 applies]
- ☐ Margin Scheme [clause 10.4 applies]
- ☐ Going concern [clause 10.5 applies]
- ☐ Farm Land [clause 10.6 applies]

[If not completed, clause 10.2 No GST is payable or Purchase Price includes GST applies]

GST WITHHOLDING OBLIGATIONS

Is the Buyer registered for GST and acquiring the Property for a creditable purpose?

- ☒ No
☐ Yes

← **WARNING:** the Buyer warrants in clause 3.3(5) that this information is true and correct.

[Note: An example of an acquisition for a creditable purpose would be the purchase of the Property by a building contractor, who is registered for GST, for the purposes of building a house on the Lot and selling it in the ordinary course of its business.]

The Seller gives notice to the Buyer in accordance with section 14-255(1)(a) of the Withholding Law that:

(select whichever is applicable)

- ☒ the Buyer is not required to make a payment under section 14-250 of the Withholding Law in relation to the supply of the Property
- ☐ the Buyer is required to make a payment under section 14-250 of the Withholding Law in relation to the supply of the Property. Under section 14-255(1) of the Withholding Law, the Seller is required to give further details prior to settlement.

← **WARNING:** All sellers of residential premises or potential residential land are required to complete this notice. Section 14-250 of the Withholding Law applies to the sale of 'new residential premises' or 'potential residential land' (subject to some exceptions) and requires an amount to be withheld from the Purchase Price and paid to the ATO. The Seller should seek legal advice if unsure about completing this section.

LAND TAX

NOTE: This item **must be completed if:**

- the Property is **not** the Seller's principal place of residence (their home); and
- the Seller is not otherwise exempt from paying land tax in connection with the Property.

[select one]

- ☒ No adjustment is to be made for land tax
- ☐ Land tax is to be adjusted on a single holding basis
- ☐ Land tax is to be adjusted on the Seller's actual land tax liability

[If not completed, no adjustment is to be made for land tax]

CONDITIONS

FINANCE

Finance Amount: \$

Financier:

Finance Date:

- Unless all of "Finance Amount", "Financier" and "Finance Date" are completed, this contract is not subject to finance and clause 4.1 does not apply.

BUILDING AND/OR PEST INSPECTION DATE

Inspection Date:

- If "Inspection Date" is not completed, the contract is not subject to an inspection report and clause 4.2 does not apply.

INITIALS (Note: initials not required if signed with Electronic Signature)

000039954451

MATTERS AFFECTING PROPERTY

TITLE ENCUMBRANCES:

The Encumbrances listed below **will remain after** settlement under clause 7.2:

☐ **Seller Disclosure Statement was given to the Buyer**

- a. the **registered interests and encumbrances** listed on the title search included in the Seller Disclosure Statement other than any mortgage, caveat or charge; and
- b. the **Unregistered Encumbrances** (note this includes statutory encumbrances affecting the land) disclosed in the Seller Disclosure Statement, unless this contract requires them to be discharged at or before settlement (for example clause 3.5).

☐ **Seller Disclosure Statement was NOT given to the Buyer**

List all Encumbrances that **will remain after** settlement under clause 7.2:

(You need to include specific description of all registered interests, unregistered interests and statutory encumbrances (see definition of Encumbrances)).

Any encumbrance relating to water, sewage, drainage, electricity or any other service which in any way affects the land whether such encumbrance is registered, unregistered or resulting from any other statute

TENANCIES:

Is the Property sold subject to a Residential Tenancy Agreement or Rooming Accommodation Agreement?

☐ No

☒ Yes, details are contained in the attached Tenancies Schedule

OTHER MATTERS:

Residential Tenancy Agreements or Rooming Accommodation Agreements:

Has the Property been subject to a Residential Tenancy Agreement or Rooming Accommodation Agreement at any time within the period of 12 months before the Contract Date?

☐ No

☒ Yes

If Yes, the day of the last rent increase for each residential premises comprising the Property is: _____

← **WARNING TO SELLER:** If the Property or any part has been let at any time in the last 12 months the Seller is required under clause 5.5(1)(e) to provide evidence of the last rent increase. Failure to provide evidence by settlement may entitle the Buyer to terminate the contract.

TREE ORDERS AND APPLICATIONS:

Neighbourhood Disputes (Dividing Fences and Trees) Act 2011, section 83:

Is the Lot affected by an application to, or an order made by, the Queensland Civil and Administrative Tribunal (QCAT) in relation to a tree on the Lot?

☒ No

☐ Yes

If yes, a copy of the application or order is given with this contract.

← **WARNING:** Failure to comply with s83 Neighbourhood Disputes (Dividing Fences and Trees Act) 2011 by giving a copy of an order or application to the Buyer (where applicable) prior to Buyer signing the contract will entitle the Buyer to terminate the contract prior to Settlement.

POOL SAFETY

Q1. Is there a pool on the Lot or on adjacent land used in association with the Lot?

☒ No

☐ Yes

Q2. If the answer to Q1 is Yes, is there a Pool Compliance Certificate for the pool at the time of contract?

☐ No

☐ Yes

← **WARNING TO SELLER:** If there is a regulated pool on the Lot, under clause 5.5(1)(f) the Seller must provide a Pool Compliance Certificate at settlement. If there is no Pool Compliance Certificate at the Contract Date you must give a Notice of No Pool Safety Certificate to the Buyer prior to entering into this contract

ELECTRICAL SAFETY SWITCH AND SMOKE ALARM

■ **NOTE:** This section must be completed if there is a domestic dwelling on or comprising the Lot

The Seller gives notice to the Buyer that an Approved Safety Switch for the General Purpose Socket Outlets is:

☒ Installed in the residence

☐ Not installed in the residence

The Seller gives notice to the Buyer that smoke alarms complying with the Smoke Alarm Requirement Provision are:

☒ Installed in the residence

☐ Not installed in the residence

← **WARNING:** By giving false or misleading information in this section, the Seller may incur a penalty. The Seller should seek expert and qualified advice about completing this section and not rely on the Seller's Agent to complete this section.

← **WARNING:** Under clause 7.9 the Seller must install smoke alarms complying with the Smoke Alarm Requirement Provision in any domestic dwelling on the Lot. Failure to do so is an offence under the Fire Services Act 1990.

INITIALS (Note: initials not required if signed with Electronic Signature)

000039954451

LOTS IN A COMMUNITY TITLES SCHEME**(COMPLETE IF APPLICABLE)****STATUTORY WARRANTIES AND CONTRACTUAL RIGHTS**

If the Lot is a lot in a community titles scheme, the Seller gives notice to the Buyer of the following matters:

← **WARNING TO SELLER:** The Body Corporate and Community Management Act 1997 and the Contract include warranties by the Seller about the Body Corporate and the Scheme land. Breach of a warranty may result in a damages claim or termination by the Buyer. Sellers should consider whether to carry out an inspection of the Body Corporate records to complete this section.

(a) Latent or Patent Defects in Common Property or Body Corporate Assets (s 223(2)(a)(b))*

(b) Actual or Contingent or Expected Liabilities of Body Corporate (s 223(2)(c)(d))*

(c) Circumstances in Relation to Affairs of Body Corporate (s 223(3))*

(d) Proposal to Record a New Community Management Statement (clause 12.9(1)(a))

(e) Unapproved improvements on common property benefitting the Lot (clause 12.9(1)(b))*

(f) Outstanding by-law contravention notices (clause 12.9(1)(c))*

(g) Proposed Body Corporate resolutions (clause 12.10)*

**Include in attachment if insufficient space*

INSPECTION OF BODY CORPORATE RECORDS

Records Inspection Date: _____

← If "Records Inspection Date" is not completed, the contract is not subject to a satisfactory inspection of records and clause 12.3 does not apply.

LOTS IN A BUILDING UNIT AND GROUP TITLE PARCEL**(COMPLETE IF APPLICABLE)****WARRANTIES AND CONTRACTUAL RIGHTS**

If the Lot is a lot in a Parcel to which the *Building Units and Group Titles Act 1980* applies, the Seller gives notice to the Buyer of the following matters:

← **WARNING TO SELLER:** The Contract includes warranties by the Seller about the Body Corporate and the Parcel. Breach of a warranty may result in a damages claim or termination by the Buyer. Sellers should consider whether to carry out an inspection of the Body Corporate records to complete this section.

(a) Proposal to add to, alter or repeal by-laws (clause 13.9(1)(a))

(b) Unapproved improvements on common property benefitting the Lot (clause 13.9(1)(b))*

(c) Outstanding by-law contravention notices (clause 13.9(1)(c))*

(d) Proposed Body Corporate resolutions (clause 13.10)*

**Include in attachment if insufficient space*

INSPECTION OF BODY CORPORATE RECORDS

Records Inspection Date: _____

← If "Records Inspection Date" is not completed, the contract is not subject to a satisfactory inspection of records and clause 13.3 does not apply.

INITIALS (Note: initials not required if signed with Electronic Signature)

SPECIAL CONDITIONS

- 1.1 It is agreed by all parties that any notice of execution of the Contract of sale may be sent by email. This special condition shall be conclusive proof that each of the parties consented to receiving notice of execution of the Contract by email prior to the notice being sent.
- 1.2 If no email address is listed on the Contract for a party or their solicitor then the other party may use the email address on any correspondence sent to them.
- 1.3 The email will be deemed to be received 15 minutes after it was sent. The sender's copy of the email with the time noted is sufficient evidence.
2. The Seller acknowledges that if the Deposit held by the Deposit Holder is insufficient to cover the Agent's commission and/or outstanding marketing and hereby irrevocably authorises and directs the Buyer's solicitor to draw a separate cheque at settlement to cover the Agent's commission less any Deposit held by the Deposit Holder.
3. Counterpart
This Contract may be executed in any number of counterparts each of which when executed and delivered shall constitute a duplicate original, but such counterparts together will constitute one and the same instrument.

SIGNATURES

The contract may be subject to a 5 business day statutory cooling-off period. A termination penalty of 0.25% of the purchase price applies if the Buyer terminates the contract during the statutory cooling-off period. It is recommended the Buyer obtain an independent property valuation and independent legal advice about the contract and his or her cooling-off rights, before signing.

TERMS OF CONTRACT
FOR THE SALE AND PURCHASE OF RESIDENTIAL REAL ESTATE

1. DEFINITIONS

1.1 In this contract, terms in **bold** in the Reference Schedule have the meanings shown under or opposite them and unless the context otherwise requires:

- (a) **"Approved Safety Switch"** means a residual current device as defined in the *Electrical Safety Regulation 2013*;
- (b) **"ATO"** means the Australian Taxation Office;
- (c) **"ATO Clearance Certificate"** means a certificate issued under s14-220(1) of the Withholding Law which is current on the date it is given to the Buyer;
- (d) **"Balance Purchase Price"** means the Purchase Price, less the Deposit paid by the Buyer;
- (e) **"Bank"** means an authorised deposit-taking institution within the meaning of the *Banking Act 1959* (Cth);
- (f) **"Bank Cheque"**:
 - (i) includes a cheque drawn by a building society or credit union on itself; and
 - (ii) does not include a cheque drawn by a building society or credit union on a Bank;
- (g) **"Bond"** means a bond under the *Residential Tenancies and Rooming Accommodation Act 2008*;
- (h) **"Building Inspector"** means a person licensed to carry out completed residential building inspections under the *Queensland Building and Construction Commission Regulation 2018*;
- (i) **"Business Day"** means a day other than:
 - (i) a Saturday or Sunday;
 - (ii) a public holiday or special holiday in the Place for Settlement; and
 - (iii) a day in the period 27 to 31 December (inclusive);
- (j) **"CGT Withholding Amount"** means the amount determined under section 14-200(3)(a) of the Withholding Law or, if a copy is provided to the Buyer prior to settlement, a lesser amount specified in a variation notice under section 14-235;
- (k) **"Contract Date"** or **"Date of Contract"** means:
 - (i) the date inserted in the Reference Schedule as the Contract Date; or
 - (ii) if no date is inserted, the date on which the last party signs this contract;
- (l) **"Court"** includes any tribunal established under statute;
- (m) **"Digitally Sign"** and **"Digital Signature"** have the meaning in the ECNL;
- (n) **"ECNL"** means the Electronic Conveyancing National Law (Queensland);
- (o) **"Electronic Conveyancing Documents"** has the meaning in the *Land Title Act 1994*;
- (p) **"Electronic Lodgement"** means lodgement of a document in the Land Registry in accordance with the ECNL;
- (q) **"Electronic Settlement"** means settlement facilitated by an ELNO System;
- (r) **"Electronic Signature"** means an electronic method of signing that identifies the person and indicates their intention to sign the contract;
- (s) **"Electronic Workspace"** means a shared electronic workspace within the ELNO System nominated by the Seller that allows the Buyer and Seller to effect Electronic Lodgement and Financial Settlement;
- (t) **"ELNO"** has the meaning in the ECNL;
- (u) **"ELNO System"** means a system provided by an ELNO capable of facilitating Financial Settlement and Electronic Lodgement in Queensland;
- (v) **"Encumbrances"** includes:
 - (i) registered encumbrances;
 - (ii) Unregistered Encumbrances; and
 - (iii) Security Interests;
- (w) **"Enforcement Notice"** means any valid notice or order by any competent authority or Court requiring work to be done or money spent in relation to the Property;
- (x) **"Essential Term"** includes, in the case of breach by:
 - (i) the Buyer: clauses 2.1, 3.1, 3.2, 3.3, 5.1 and 6.1; and
 - (ii) the Seller: clauses 3.2, 3.3, 5.5(1) and 6.1; but nothing in this definition precludes a Court from finding other terms to be essential;
- (y) **"Extension Notice"** means a notice under clause 6.2(1);
- (z) **"Financial Institution"** means a Bank, building society or credit union;
- (aa) **"Financial Settlement"** means the exchange of value between Financial Institutions facilitated by an ELNO System in accordance with the Financial Settlement Schedule;
- (bb) **"Financial Settlement Schedule"** means the electronic settlement schedule within the Electronic Workspace listing the source accounts and destination accounts;
- (cc) **"General Purpose Socket Outlet"** means an electrical socket outlet as defined in the *Electrical Safety Regulation 2013*;
- (dd) **"GST"** means the goods and services tax under the GST Act;
- (ee) **"GST Act"** means *A New Tax System (Goods and Services Tax) Act 1999* (Cth) and includes other GST related legislation;
- (ff) **"GST Withholding Amount"** means the amount (if any) determined under section 14-250 of the Withholding Law required to be paid to the Commissioner of Taxation;
- (gg) **"Improvements"** means all fixed structures on the Lot and includes all items fixed to them (such as stoves, hot water systems, fixed carpets, curtains, blinds and their fittings, clothes lines, fixed satellite dishes and television antennae, in-ground plants) but does not include the Reserved Items;
- (hh) **"Keys"** means keys, codes or devices in the Seller's possession or control for all locks or security systems on the Property or necessary to access the Property;
- (ii) **"Outgoings"** means rates or charges on the Lot by any competent authority (for example, council rates, water rates, fire service levies) but excludes land tax if the Reference Schedule provides that *No adjustment is to be made for land tax*;
[Note: the definition of Outgoings is modified by clauses 12.2(2)(a), 13.2(2)(a) where applicable]
- (jj) **"Pest Inspector"** means a person licensed to undertake termite inspections on completed buildings under the *Queensland Building and Construction Commission Regulation 2018*;

- (kk) **"Place for Settlement"** means:
- (i) where the Seller is represented by a solicitor who has an office in Queensland, the city or town in Queensland in which the office of the Seller's Solicitor is located;
 - (ii) otherwise, within the Brisbane Central Business District;
- (ll) **"Pool Compliance Certificate"** means:
- (i) a Pool Safety Certificate under section 231C(a) of the *Building Act 1975*; or
 - (ii) a building certificate that may be used instead of a Pool Safety Certificate under section 246AN(2) of the *Building Act 1975*; or
 - (iii) an exemption from compliance on the grounds of impracticality under section 245B of the *Building Act 1975*;
- (mm) **"PPSR"** means the Personal Property Securities Register established under *Personal Property Securities Act 2009* (Cth);
- (nn) **"Property"** means:
- (i) the Lot;
 - (ii) the Improvements; and
 - (iii) the Included Chattels;
- [Note: the definition of Property is modified by clause 12.2(2)(b) or 13.2(2)(b) where applicable]
- (oo) **"Rent"** means any periodic amount payable under the Tenancies;
- (pp) **"Reserved Items"** means the Excluded Fixtures and all chattels on the Lot other than the Included Chattels;
- (qq) **"Residential Tenancy Agreement"** has the meaning in the RTRA Act;
- (rr) **"Rooming Accommodation Agreement"** has the meaning in the RTRA Act;
- (ss) **"RTRA Act"** means the *Residential Tenancies and Rooming Accommodation Act 2008*;
- (tt) **"Security Interests"** means all security interests registered on the PPSR over Included Chattels and Improvements;
- (uu) **"Seller Disclosure Statement"** means the disclosure statement and prescribed certificates given by the Seller to the Buyer under section 99(1) of the *Property Law Act 2023* (if applicable) before the Buyer signed this contract;
- (vv) **"Services"** means infrastructure for the provision of services including water, gas, electricity, telecommunications, sewerage or drainage;
- (ww) **"Site Value"** means:
- (i) in the case of non-rural land, the site value under the *Land Valuation Act 2010*; or
 - (ii) in the case of rural land, the unimproved value under the *Land Valuation Act 2010*;
- (xx) **"Smoke Alarm Requirement Provision"** has the meaning in section 147W of the *Fire Services Act 1990*;
- (yy) **"Transfer Documents"** means:
- (i) the form of transfer under the *Land Title Act 1994* required to transfer title in the Lot to the Buyer; and
 - (ii) any other document to be signed by the Seller necessary for stamping or registering the transfer;
- (zz) **"Transport Infrastructure"** has the meaning defined in the *Transport Infrastructure Act 1994*;
- (aaa) **"Unregistered Encumbrance"** has the meaning in the *Property Law Regulation 2024*; and
- (bbb) **"Withholding Law"** means Schedule 1 to the *Taxation Administration Act 1953* (Cth).

2. DEPOSIT

2.1 Payment of Deposit

- (1) The Buyer must pay the Deposit to the Deposit Holder at the times shown in the Reference Schedule. The Deposit Holder will hold the Deposit until a party becomes entitled to it.
- (2) The Buyer will be in default if it:
 - (a) does not pay the Deposit when required;
 - (b) pays the Deposit by a post-dated cheque; or
 - (c) pays the Deposit by cheque which is dishonoured on presentation.
- (3) Subject to clause 2.1(4), if the Buyer:
 - (a) effects an electronic transaction to pay all or part of the Deposit to the account of Deposit Holder on a day;
 - (b) provides written evidence to the Deposit Holder that the electronic transaction has occurred; and
 - (c) does not take any action to defer the payment to the Deposit Holder to a later day,
 the payment is taken to be received by the Deposit Holder on the day the Buyer effects the electronic transaction even if, because of circumstances beyond the Buyer's control, the payment to the Deposit Holder's account happens on a later day.
- (4) If the Buyer has complied with clause 2.1(3) but the Deposit Holder has not received the payment by the due date:
 - (a) the Seller may give the Buyer notice that the payment has not been received by the Deposit Holder; and
 - (b) if the payment has not been paid into the account of the Deposit Holder by 5pm on the date 2 Business Days after the Seller's notice under clause 2.1(4)(a) is given to the Buyer then clause 2.1(3) will not apply and the Buyer will be in default.
- (5) The Seller may recover from the Buyer as a liquidated debt any part of the Deposit which is not paid when required.

2.2 Investment of Deposit

If:

- (1) the Deposit Holder is instructed by either the Seller or the Buyer; and
 - (2) it is lawful to do so;
- the Deposit Holder must:
- (3) invest as much of the Deposit as has been paid with any Financial Institution in an interest-bearing account in the names of the parties;
 - (4) provide the parties' tax file numbers to the Financial Institution (if they have been supplied); and
 - (5) provide the parties with an account statement in respect of the account in which the Deposit is held:
 - (a) at 30 June of each year; and
 - (b) when the Deposit Holder pays the Deposit to the party entitled to it.

2.3 Entitlement to Deposit and Interest

- (1) The party entitled to receive the Deposit is:
 - (a) if this contract settles, the Seller;
 - (b) if this contract is terminated without default by the Buyer, the Buyer; and
 - (c) if this contract is terminated owing to the Buyer's default, the Seller.
- (2) The interest on the Deposit must be paid to the person who is entitled to the Deposit.
- (3) The person who is entitled to the Deposit is presently entitled to the interest on the Deposit. Until settlement or termination of this contract, the Seller is presently entitled to the interest on the Deposit.
- (4) If this contract is terminated, and the Buyer is entitled to the Deposit:

- (a) the Buyer must reimburse the Seller for any tax paid by the Seller as a result of an earlier present entitlement to interest on the Deposit; and
 - (b) the Buyer has no further claim once it receives the Deposit and any interest on the Deposit, unless the termination is due to the Seller's default or breach of warranty.
- (5) The Deposit is invested at the risk of the party who is ultimately entitled to it.

3. PURCHASE PRICE

3.1 Payment of Balance Purchase Price

On the Settlement Date, the Buyer must pay the Balance Purchase Price:

- (a) for an Electronic Settlement, by electronic funds transfer as directed by the Seller's Solicitor and/or the Seller's mortgagee in the Financial Settlement Schedule; or
- (b) otherwise, by Bank Cheque as the Seller or the Seller's Solicitor directs.

3.2 Foreign Residents Capital Gains Tax Withholding

- (1) Clause 3.2 applies if both the following apply:
 - (a) the sale is not an excluded transaction under s14-215 of the Withholding Law; and
 - (b) the Seller has not given the Buyer on or before settlement for each person comprising the Seller either:
 - (i) an ATO Clearance Certificate; or
 - (ii) a variation notice under s14-235 of the Withholding Law, which remains current at the Settlement Date, varying the CGT Withholding Amount to nil.
- (2) The Buyer must lodge a Foreign Resident Capital Gains Withholding Purchaser Notification Form with the ATO for each person comprising the Buyer and give copies to the Seller with the payment reference numbers (PRN) on or before settlement.
- (3) If settlement is to be effected by Electronic Settlement, at settlement the Financial Settlement Schedule must specify payment of the CGT Withholding Amount to the account nominated by the Commissioner of Taxation.
- (4) If settlement is not an Electronic Settlement:
 - (a) for clause 3.1(b), the Seller irrevocably directs the Buyer to draw a Bank Cheque for the CGT Withholding Amount in favour of the Commissioner of Taxation or, if the Buyer's Solicitor requests, the Buyer's Solicitor's Trust Account;
 - (b) the Seller must return the Bank Cheque in paragraph (a) to the Buyer's Solicitor (or if there is no Buyer's Solicitor, the Buyer) at settlement; and
 - (c) the Buyer must pay the CGT Withholding Amount to the ATO in accordance with section 14-200 of the Withholding Law and give the Seller evidence that it has done so within 2 Business Days of settlement occurring.
- (5) For clause 3.2(1) and section 14-215 of the Withholding Law, the market value of the CGT asset is taken to be the Purchase Price less any GST included in the Purchase Price for which the Buyer is entitled to an input tax credit unless:
 - (a) the Property includes items in addition to the Lot and Improvements; and
 - (b) no later than 2 Business Days before the Settlement Date, the Seller gives the Buyer a valuation of the Lot and Improvements prepared by a registered valuer,
 in which case the market value of the Lot and Improvements will be as stated in the valuation.

3.3 GST Withholding

- (1) If the Buyer is required to pay the GST Withholding Amount to the Commissioner of Taxation at settlement pursuant to section 14-250 of the Withholding Law:
 - (a) the Seller must give the Buyer a notice in accordance with section 14-255(1) of the Withholding Law;
 - (b) prior to settlement the Buyer must lodge with the ATO:
 - (i) a *GST Property Settlement Withholding Notification* form ("Form 1"); and
 - (ii) a *GST Property Settlement Date Confirmation* form ("Form 2");
 - (c) on or before settlement, the Buyer must give the Seller copies of:
 - (i) the Form 1;
 - (ii) confirmation from the ATO that the Form 1 has been lodged specifying the Buyer's lodgement reference number and payment reference number;
 - (iii) confirmation from the ATO that the Form 2 has been lodged; and
 - (iv) a completed ATO payment slip for the Withholding Amount.
- (2) The Buyer is taken to have complied with clause 3.3(1)(b) and 3.3(1)(c) if the Form 1 is lodged through the Electronic Workspace and the Form 2 is shown as pending settlement (however described).
- (3) If settlement is to be effected by Electronic Settlement, at settlement the Financial Settlement Schedule must specify payment of the GST Withholding Amount to the account nominated by the Commissioner of Taxation.
- (4) If settlement is not an Electronic Settlement:
 - (a) the Seller irrevocably directs the Buyer to draw a Bank Cheque for the GST Withholding Amount in favour of the Commissioner of Taxation and deliver it to the Seller at settlement; and
 - (b) the Seller must pay the GST Withholding Amount to the ATO in compliance with section 14-250 of the Withholding Law promptly after settlement.
- (5) The Buyer warrants that the statements made by the Buyer in the Reference Schedule under GST Withholding Obligations are true and correct.

3.4 Adjustments

- (1) Rent and Outgoings must be apportioned between the parties in accordance with clauses 3.4, 3.5 and 3.6 and any adjustments paid and received on settlement so that:
 - (a) the Seller is liable for Outgoings and is entitled to Rent up to and including the Settlement Date; and
 - (b) the Buyer is liable for Outgoings and is entitled to Rent after the Settlement Date.
- (2) Upon written request by the Buyer, the Seller will, before settlement, give the Buyer a written statement, supported by reasonable evidence, of:
 - (a) all Outgoings and all Rent for the Property to the extent they are not capable of discovery by search or enquiry at any office of public record or pursuant to the provisions of any statute; and
 - (b) any other information which the Buyer may reasonably require for the purpose of calculating or apportioning any Outgoings or Rent under this clause 3.4.

If the Seller becomes aware of a change to the information provided the Seller will as soon as practicable provide the updated information to the Buyer.

3.5 Outgoings

- (1) Subject to clauses 3.5(2), 3.5(4), 3.5(5) and 3.5(6), Outgoings for periods including the Settlement Date must be adjusted:
 - (a) for those paid, on the amount paid;
 - (b) for those assessed but unpaid, on the amount payable (excluding any discount); and
 - (c) for those not assessed:
 - (i) on the amount the relevant authority advises will be assessed (excluding any discount); or
 - (ii) if no advice on the assessment to be made is available, on the amount of the latest separate assessment (excluding any discount).
- (2) If there is no separate assessment of rates for the Lot at the Settlement Date and the Local Government informs the Buyer that it will not apportion rates between the Buyer and the Seller, then:
 - (a) the amount of rates to be adjusted is that proportion of the assessment equal to the ratio of the area of the Lot to the area of the parcel in the assessment; and
 - (b) if an assessment of rates includes charges imposed on a "per lot" basis, then the portion of those charges to be adjusted is the amount assessed divided by the number of lots in that assessment.
- (3) The Seller is liable for land tax assessed on the Lot for the financial year current at the Settlement Date. If land tax is unpaid at the Settlement Date and the Queensland Revenue Office advises that it will issue a final clearance for the Lot on payment of a specified amount, then:
 - (a) if settlement is to be effected by Electronic Settlement, at settlement the Financial Settlement Schedule must specify payment of the specified amount to the account nominated by the Commissioner of State Revenue;
 - (b) otherwise, the Seller irrevocably directs the Buyer to draw a Bank Cheque for the specified amount from the Balance Purchase Price at settlement and the Buyer must pay it promptly to the Queensland Revenue Office.
- (4) If the Reference Schedule states that:
 - (a) *Land tax is to be adjusted on a single holding basis*, land tax must be adjusted on the assessment that the Queensland Revenue Office would issue to the Seller for the land tax year current at the Settlement Date if the Lot was the Seller's only land; or
 - (b) *Land tax is to be adjusted on the Seller's actual land tax liability*, land tax must be adjusted on the actual assessment that the Queensland Revenue Office has issued or will issue to the Seller for the land tax year current at the Settlement Date.
- (5) For clause 3.5(4), if there is no separate Site Value for the Lot, the land tax for the Lot shall be calculated on a notional Site Value equal to:

$$SV \times \frac{LA}{PA}$$

where:

SV means the Site Value of the land which includes the Lot and has a separate Site Value (the "**Parent Lot**")

LA means the area of the Lot

PA means the area of the Parent Lot.

[Note: this clause is modified by clauses 12.4 and 13.4 where applicable]

- (6) Any Outgoings assessable on the amount of water used must be adjusted on the charges that would be assessed on the total water usage for the assessment period, determined by assuming that the actual rate of usage shown by the meter reading made before settlement continues throughout the assessment period. The Buyer must obtain and pay for the meter reading.
- (7) If any Outgoings are assessed but unpaid at the Settlement Date, then:
 - (a) if settlement is to be effected by Electronic Settlement, at settlement the Financial Settlement Schedule must specify payment of the amount payable to the relevant authority;
 - (b) otherwise, the Seller irrevocably directs the Buyer to draw a Bank Cheque for the amount payable from the Balance Purchase Price at settlement and pay it promptly to the relevant authority.

If an amount is deducted under this clause, the relevant Outgoing will be treated as paid at the Settlement Date for the purposes of clause 3.5(1).

3.6 Rent

- (1) Rent for any rental period ending on or before the Settlement Date belongs to the Seller and is not adjusted at settlement.
- (2) Unpaid Rent for the rental period including both the Settlement Date and the following day ("**Current Period**") is not adjusted until it is paid.
- (3) Rent already paid for the Current Period or beyond must be adjusted at settlement.
- (4) If Rent payments are reassessed after the Settlement Date for periods including the Settlement Date, any additional Rent payment from a Tenant or refund due to a Tenant must be apportioned under clauses 3.6(1), 3.6(2) and 3.6(3).
- (5) Payments under clause 3.6(4) must be made within 14 days after notification by one party to the other but only after any additional payment from a Tenant has been received.

3.7 Cost of Bank Cheques

If settlement is not an Electronic Settlement:

- (a) the cost of Bank Cheques payable at settlement:
 - (i) to the Seller or its mortgagee are the responsibility of the Buyer; and
 - (ii) to parties other than the Seller or its mortgagee are the responsibility of the Seller and the Seller will reimburse this cost to the Buyer as an adjustment at settlement; and
- (b) the Seller is not entitled to require payment of the Balance Purchase Price by means other than Bank Cheque without the consent of the Buyer.

4. CONDITIONS

4.1 Finance

- (1) This contract is conditional on the Buyer obtaining approval of a loan for the Finance Amount from the Financier by the Finance Date on terms satisfactory to the Buyer. The Buyer must take all reasonable steps to obtain approval.
- (2) The Buyer must give notice to the Seller that:
 - (a) approval has not been obtained by the Finance Date and the Buyer terminates this contract; or
 - (b) the finance condition has been either satisfied or waived by the Buyer.
- (3) The Seller may terminate this contract by notice to the Buyer if notice is not given under clause 4.1(2) by 5pm on the Finance Date. This is the Seller's only remedy for the Buyer's failure to give notice.

- (4) The Seller's right under clause 4.1(3) is subject to the Buyer's continuing right to give written notice to the Seller of satisfaction, termination or waiver pursuant to clause 4.1(2).

4.2 Building and Pest Inspection

- (1) This contract is conditional upon the Buyer obtaining a written building report from a Building Inspector and a written pest report from a Pest Inspector (which may be a single report) on the Property by the Inspection Date on terms satisfactory to the Buyer. The Buyer must take all reasonable steps to obtain the reports (subject to the right of the Buyer to elect to obtain only one of the reports).
- (2) The Buyer must give notice to the Seller that:
 - (a) a satisfactory Inspector's report under clause 4.2(1) has not been obtained by the Inspection Date and the Buyer terminates this contract. The Buyer must act reasonably; or
 - (b) clause 4.2(1) has been either satisfied or waived by the Buyer.
- (3) If the Buyer terminates this contract and the Seller asks the Buyer for a copy of the building and pest reports, the Buyer must give a copy of each report to the Seller without delay.
- (4) The Seller may terminate this contract by notice to the Buyer if notice is not given under clause 4.2(2) by 5pm on the Inspection Date. This is the Seller's only remedy for the Buyer's failure to give notice.
- (5) The Seller's right under clause 4.2(4) is subject to the Buyer's continuing right to give written notice to the Seller of satisfaction, termination or waiver pursuant to clause 4.2(2).

4.3 Consent to Transfer of State Lease

- (1) If the Lot sold is leasehold, this contract is conditional on the Seller obtaining any necessary consent to the transfer of the lease to the Buyer by the Settlement Date.
- (2) The Seller must apply for the consent required as soon as possible.
- (3) The Buyer must do everything reasonably required to help obtain this consent.

[Note: If clause 12.3 or 13.3 applies, the contract is also conditional on the Buyer's satisfaction with the Body Corporate's records]

5. SETTLEMENT

5.1 Time and Date

Settlement must occur by 4pm AEST on the Settlement Date.

5.2 Electronic Settlement

- (1) Settlement must be effected by Electronic Settlement unless the form of transfer under the *Land Title Act 1994* required to transfer title in the Lot to the Buyer is not a required instrument to which section 5(1) of the *Land Title Regulation 2022* applies other than as a result of section 5(2)(a)(ii).
- (2) If settlement is to be effected by Electronic Settlement:
 - (a) the Seller must nominate the ELNO System to be used for the Electronic Settlement. Despite clause 11.3(9), the Seller may nominate the ELNO System by sending or accepting an invitation to an Electronic Workspace in an ELNO System;
 - (b) clause 5.2(2)(a) does not prevent the Buyer using an ELNO System which is interoperable with the ELNO System nominated by the Seller;
 - (c) the parties must:
 - (i) ensure that the Electronic Workspace is completed and all Electronic Conveyancing Documents and the Financial Settlement Schedule are Digitally Signed prior to settlement; and

- (ii) do everything else required in the Electronic Workspace or otherwise to enable settlement to occur on the Settlement Date;
- (d) if the parties cannot agree on a time for settlement, the time to be nominated in the Electronic Workspace is 4pm AEST;
- (e) if any part of the Purchase Price is to be paid to discharge an Outgoing:
 - (i) the Buyer may, by notice in writing to the Seller, require that the amount is paid to the Buyer's Solicitor's trust account and the Buyer is responsible for paying the amount to the relevant authority;
 - (ii) for amounts to be paid to destination accounts other than the Buyer's Solicitor's trust account, the Seller must give the Buyer a copy of the current account for the Outgoing to enable the Buyer to verify the destination account details in the Financial Settlement Schedule;
- (f) if the Deposit is required to discharge any Encumbrance or pay an Outgoing at settlement:
 - (i) the Deposit Holder must, if directed by the Seller at least 2 Business Days before settlement, pay the Deposit (and any interest accrued on investment of the Deposit) less commission as clear funds to the Seller's Solicitor;
 - (ii) the Buyer and the Seller authorise the Deposit Holder to make the payment in clause 5.2(2)(f)(i);
 - (iii) the Seller's Solicitor will hold the money as Deposit Holder under the Contract;
 - (iv) the Seller and Buyer authorise the Seller's Solicitor to pay the money as directed by the Seller in accordance with the Financial Settlement Schedule;
- (g) each party must pay its own fees and charges of using the relevant ELNO System for Electronic Settlement;
- (h) a party is not in default to the extent it is prevented from complying with an obligation because the other party or the other party's Financial Institution has done or not done something in the Electronic Workspace (for example, failing to complete details necessary to enable the other party to complete or sign the Electronic Workspace);
- (i) any rights under the contract or at law to terminate the contract may not be exercised during the time the Electronic Workspace is locked for Electronic Settlement; and
- (j) Electronic Settlement is taken to occur when Financial Settlement is effected, whether or not Electronic Lodgement has occurred.

5.3 Place for Settlement

- (1) An Electronic Settlement will be deemed to take place in the Place for Settlement.
- (2) If the settlement is not an Electronic Settlement, subject to clause 5.3(3), settlement must be effected in the Place for Settlement at the office of a solicitor, Financial Institution or settlement agent nominated by the Seller.
- (3) If the Seller has not nominated an office under clause 5.3(2) or the parties have not otherwise agreed where settlement is to occur by 5pm on the date 2 Business Days before the Settlement Date, section 76(2)(b) of the *Property Law Act 2023* applies.

5.4 Transfer Documents

If the settlement is not an Electronic Settlement:

- (a) the Transfer Documents must be prepared by the Buyer and delivered to the Seller a reasonable time before the Settlement Date; and
- (b) if the Buyer pays the Seller's reasonable expenses, it may require the Seller to produce the Transfer Documents at the Queensland Revenue Office nearest the Place for Settlement for stamping before settlement.

5.5 Documents and Keys at Settlement

- (1) In exchange for payment of the Balance Purchase Price and the documents to be provided by the Buyer under clause 12.6 or 13.6 (if applicable), the Seller must deliver to the Buyer at settlement:
 - (a) unstamped Transfer Documents capable of immediate registration after stamping; and
 - (b) any instrument necessary to release any Encumbrance over the Property in compliance with the Seller's obligation in clause 7.2; and
 - (c) if requested by the Buyer not less than 2 Business Days before the Settlement Date, the Keys; and
 - (d) if there are Tenancies:
 - (i) the Seller's copy of any Tenancy agreements;
 - (ii) a notice to each Tenant advising of the sale in the form required by law; and
 - (iii) any notice required by law to transfer to the Buyer the Seller's interest in any Bond; and
 - (e) if the Property has been subject to a Residential Tenancy Agreement or Rooming Accommodation Agreement at any time within the period of 12 months before the Contract Date:
 - (i) for any Tenancies, evidence of the day of the last rent increase for each part of the Property before those Tenancies were entered into; and
 - (ii) for any part of the Property not subject to a Tenancy at settlement, evidence of the day of the last rent increase for that part of the Property, sufficient to satisfy section 93A or 105C of the RTRA Act; and
 - (f) a copy of a current Pool Compliance Certificate for each regulated pool on the Lot unless:
 - (i) the Seller has given the Buyer a current (at the time it was given) Pool Compliance Certificate before settlement; or
 - (ii) the Seller has given the Buyer a notice under section 28 of the *Building Regulation 2021* (Notice of No Pool Safety Certificate) before entry into this contract; and
 - (g) if clause 10.8 applies, a Tax Invoice.
- (2) If the Keys are not required to be delivered at Settlement under clause 5.5(1)(c), the Seller must deliver the Keys to the Buyer on or before settlement. The Seller may discharge its obligation under this provision by authorising the Seller's Agent to release the Keys to the Buyer.
- (3) For an Electronic Settlement, the Seller will be taken to have complied with clause 5.5(1) if:
 - (a) in relation to documents which are suitable for Electronic Lodgement in the Land Registry at settlement, the documents are Digitally Signed within the Electronic Workspace; and

- (b) in relation to any other document or thing, the Seller's Solicitor:
 - (i) confirms in writing prior to settlement that it holds all relevant documents which are not suitable for Electronic Lodgement and all Keys (if requested under clause 5.5(1)(c)) in escrow on the terms contained in the QLS E-Conveyancing Guidelines; and
 - (ii) gives a written undertaking to send the documents and Keys (if applicable) to the Buyer or Buyer's Solicitor no later than 2 Business Days after settlement; and
 - (iii) if requested by the Buyer, provides copies of documents in the Seller's Solicitor's possession.

5.6 Assignment of Covenants and Warranties

At settlement, the Seller assigns to the Buyer the benefit of all:

- (1) covenants by the Tenants under the Tenancies;
- (2) guarantees and Bonds (subject to the requirements of the RTRA Act) supporting the Tenancies;
- (3) manufacturer's warranties regarding the Included Chattels; and
- (4) builders' warranties on the Improvements, to the extent they are assignable. However, the right to recover arrears of Rent is not assigned to the Buyer and section 140 of the *Property Law Act 2023* does not apply.

5.7 Possession of Property

On the Settlement Date, in exchange for the Balance Purchase Price, the Seller must give the Buyer vacant possession of the Lot and the Improvements except for the Tenancies.

5.8 Title to Included Chattels

Title to the Included Chattels passes at settlement.

5.9 Removal of Reserved Items

- (1) The Seller must remove the Reserved Items from the Property before settlement.
- (2) The Seller must repair at its expense any damage done to the Property in removing the Reserved Items. If the Seller fails to do so, the Buyer may repair that damage.
- (3) Any Reserved Items not removed before settlement will be considered abandoned and the Buyer may, without limiting its other rights, complete this contract and appropriate those Reserved Items or dispose of them in any way.
- (4) The Seller indemnifies the Buyer against any damages and expenses resulting from the Buyer's actions under clauses 5.9(2) or 5.9(3).

6. TIME

6.1 Time of the Essence

Time is of the essence of this contract, except regarding any agreement between the parties on a time of day for settlement before 4pm.

6.2 Extension of Settlement Date

- (1) Despite clause 6.1, either party may, at any time up to 4pm on the Settlement Date, extend the Settlement Date by giving a notice under this clause (an "**Extension Notice**") nominating a new date for settlement which must be no later than 5 Business Days after the Scheduled Settlement Date.
- (2) The Settlement Date will be the date specified in the Extension Notice and time is of the essence in respect of this date.

- (3) More than one Extension Notice may be given under clause 6.2(1) but the new date for settlement nominated in an Extension Notice may not be a date later than 5 Business Days after the Scheduled Settlement Date.
- (4) In this clause 6.2, "**Scheduled Settlement Date**" means the Settlement Date specified in the Reference Schedule as extended:
 - (a) under section 79, 80 or 81 of the *Property Law Act 2023*;
 - (b) under clause 6.3; or
 - (c) by agreement of the parties,
 but excluding any extension of the Settlement Date as a result of the operation of this clause 6.2.

6.3 Extension of Settlement Date – Late Unsigning

- If:
- (a) the Settlement is an Electronic Settlement;
 - (b) the unsigning of a party to the Electronic Workspace occurs between 3pm and 4pm on the Settlement Date due to a change made to the Electronic Workspace by another party to the Electronic Workspace;
 - (c) any party to the Electronic Workspace has not re-signed the Workspace by 4pm; and
 - (d) the Settlement Date has not previously been extended under this clause 6.3,

the Settlement Date will be automatically extended to the following Business Day, unless otherwise agreed by the Buyer and Seller and time is of the essence in respect of this date.

7. MATTERS AFFECTING THE PROPERTY

7.1 Title

The Lot is sold subject to:

- (a) any reservations or conditions on the title or the original Deed of Grant (if freehold); or
- (b) the Conditions of the State Lease (if leasehold).

7.2 Encumbrances

The Property is sold free of all Encumbrances other than the Title Encumbrances and Tenancies.

7.3 Requisitions

The Buyer may not deliver any requisitions or enquiries on title.

7.4 Seller's Warranties

- (1) Subject to clause 7.8, the Seller warrants that, at the Contract Date:
 - (a) there is no outstanding enforcement notice under section 248 of the *Building Act 1975* or section 168 of the *Planning Act 2016* that affects the Property;
 - (b) there is no outstanding show cause notice under section 246AG(1) or 247 of the *Building Act 1975* or section 167 of the *Planning Act 2016* that affects the Property;
 - (c) the Seller has not received any other communication from a competent authority that may lead to the issue of a notice referred to in clause 7.4(1)(a), 7.4(1)(b) or an Enforcement Notice;
 - (d) there are no current or threatened claims or proceedings which may lead to a Court order or writ of execution affecting the Property;
 - (e) there is no outstanding obligation on the Seller to give notice to the administering authority under the *Environmental Protection Act 1994* of a notifiable activity being conducted on the Lot; and

- (f) the Seller is not aware of any facts or circumstances that may lead to the Lot being classified as contaminated land within the meaning of the *Environmental Protection Act 1994*.

- (2) Subject to clause 7.8, the Seller warrants that, at settlement:

- (a) if the Lot is freehold: it will be the registered owner of an estate in fee simple in the Lot and will own the rest of the Property;
- (b) if the Lot is leasehold: it will be the registered lessee, the lease is not liable to forfeiture because of default under the lease, and it will own the rest of the Property;
- (c) it will be capable of completing this contract (unless the Seller dies or becomes mentally incapable after the Contract Date); and
- (d) there will be no unsatisfied Court order or writ of execution affecting the Property.

- (3) Subject to clause 7.8, if the Seller breaches a warranty in clause 7.4(1) or 7.4(2), without limiting any other remedy, the Buyer may terminate this contract by notice to the Seller given before settlement.

- (4) The Seller warrants that:

- (a) the statements made by the Seller in the Reference Schedule under Residential Tenancy Agreements and Rooming Accommodation Agreements are true and correct; and
- (b) if there are Tenancies, the current rent complies with the requirements of sections 91 and 93 of the RTRA Act, as those sections applied on the date of each Tenancy.

- (5) If the Seller's warranty in clause 7.4(4) is incorrect, the Buyer's only remedy against the Seller is for compensation. The Buyer may not delay settlement or withhold any part of the Balance Purchase Price because of any compensation claim under clause 7.4(5).

- (6) The Seller does not warrant that the Present Use is lawful.

7.5 Survey and Mistake

- (1) The Buyer may survey the Lot.

- (2) If:
 - (a) there is an error in the boundaries or area of the Lot;
 - (b) there is an encroachment by structures onto or from the Lot;
 - (c) there are Services that pass through the Lot which do not service the Lot and are not protected by any Encumbrance to which this sale is subject; or
 - (d) there is a mistake or omission in this contract in describing the Property or the Seller's title to it, which is material, the Buyer may terminate this contract by notice to the Seller given before settlement.

- (3) If a matter referred to in clause 7.5(2) is:

- (a) immaterial; or
- (b) material, but the Buyer elects to complete this contract,

the Buyer's only remedy against the Seller is for compensation, but only if claimed by the Buyer in writing on or before settlement.

- (4) The Buyer may not delay settlement or withhold any part of the Balance Purchase Price because of any compensation claim under clause 7.5(3).

7.6 Requirements of Authorities

- (1) Any Enforcement Notice issued before the Contract Date must be fully complied with by the Seller before the Settlement Date unless details of the Enforcement Notice were disclosed to the Buyer in accordance with clause 7.8.
- (2) If the Seller fails to comply with clause 7.6(1), the Buyer is entitled to claim the reasonable cost of complying with the Enforcement Notice from the Seller after settlement as a debt.
- (3) The Buyer must comply with any Enforcement Notice:
 - (a) issued on or after the Contract Date; or
 - (b) issued before the Contract Date if details of the Enforcement Notice were disclosed to the Buyer in accordance with clause 7.8.
- (4) However, if any Enforcement Notice referred to in clause 7.6(3) is required to be complied with before the Settlement Date:
 - (a) the Seller must comply with the Enforcement Notice; and
 - (b) at settlement, the Buyer must pay the reasonable costs incurred by the Seller in doing so,unless the Buyer directs the Seller not to and indemnifies the Seller against any liability incurred for failure to comply with the Enforcement Notice.
- (5) Nothing in this clause 7.6 limits any claim for a breach of the Seller's warranties in clauses 7.4(1)(a), (b) and (c).

7.7 Property Adversely Affected

- (1) Subject to clause 7.8, if at the Contract Date:
 - (a) the Present Use is not lawful under the relevant planning scheme;
 - (b) the Lot is affected by a proposal of any competent authority to alter the dimensions of any Transport Infrastructure or locate Transport Infrastructure on the Lot;
 - (c) access to the Lot passes unlawfully through other land;
 - (d) any Services to the Lot which pass through other land are not protected by a registered easement, building management statement or by statutory authority;
 - (e) any competent authority has issued a current notice of intention to resume, regarding any part of the Lot;
 - (f) there is an outstanding condition of a development approval attaching to the Lot under section 73 of the *Planning Act 2016* or section 96 of the *Economic Development Queensland Act 2012* which, if complied with, would constitute a material mistake or omission in the Seller's title under clause 7.5(2)(d);
 - (g) the Property is affected by the *Queensland Heritage Act 1992* or is included in the World Heritage List; or
 - (h) the Property is declared acquisition land under the *Queensland Reconstruction Authority Act 2011*,the Buyer may terminate this contract by notice to the Seller given before settlement.
- (2) If the Buyer settles this contract, the Buyer will be treated as having accepted the Property subject to all of the matters referred to in clause 7.7(1).

7.8 Effect of Pre-Contract Disclosure

- (1) Clauses 7.4(1), 7.4(2), 7.5, 7.6(1) and 7.7 do not apply to the extent that any relevant fact or circumstance has been disclosed by the Seller to the Buyer:
 - (a) in this contract; or
 - (b) in the Seller Disclosure Statement; or
 - (c) otherwise in writing before the Buyer signed this contract.
- (2) If the Seller is required to comply with section 99 of the *Property Law Act 2023* in relation to this contract:
 - (a) the Buyer may not terminate the contract under clause 7.4(3) for a breach of the Seller's warranties in clauses 7.4(1)(a) and 7.4(1)(b); and
 - (b) clauses 7.7(1)(e) and (g) do not apply.

[Note in this case the Buyer's rights are governed by section 104 of the Property Law Act 2023]

7.9 Compliant Smoke Alarms

- (1) The Seller must install smoke alarms in any domestic dwelling on or comprising the Lot in accordance with the Smoke Alarm Requirement Provision by the Settlement Date.
- (2) If the Seller fails to comply with clause 7.9(1), the Buyer is entitled to an adjustment at settlement equal to 0.15% of the Purchase Price but only if claimed by the Buyer in writing on or before settlement. This is the Buyers only remedy for non-compliance with clause 7.9(1).
- (3) Nothing in this clause requires the Seller to provide evidence of compliance with clause 7.9(1).

7.10 Dividing Fences

Notwithstanding any provision in the *Neighbourhood Disputes (Dividing Fences and Trees) Act 2011*, the Seller need not contribute to the cost of building any dividing fence between the Lot and any adjoining land owned by it. The Buyer waives any right to claim contribution from the Seller.

7.11 Authority for Buyer's Searches

The Seller authorises the Buyer to inspect records held by any authority, including Security Interests on the PPSR, relating to the Property.

8. RIGHTS AND OBLIGATIONS UNTIL SETTLEMENT

8.1 Risk

The Property is at the Buyer's risk from 5pm on the first Business Day after the Contract Date.

8.2 Access

After reasonable notice to the Seller, the Buyer and its consultants may enter the Property:

- (1) once to read any meter;
- (2) for inspections under clause 4.2;
- (3) once to value the Property;
- (4) once to carry out an inspection for smoke alarms installed in any domestic dwelling on or comprising the Lot; and
- (5) once to inspect the Property before settlement.

8.3 Seller's Obligations After Contract Date

- (1) The Seller must use the Property reasonably until settlement. The Seller must not do anything regarding the Property or Tenancies that may significantly alter them or result in later expense for the Buyer.
- (2) The Seller must promptly upon receiving any notice, proceeding or order that affects the Property or requires work or expenditure on the Property, give a copy to the Buyer.

- (3) Without limiting clause 8.3(1), the Seller must not without the prior written consent of the Buyer, give any notice or seek or consent to any order that affects the Property or make any agreement affecting the Property that binds the Buyer.

8.4 Information Regarding the Property

Upon written request of the Buyer but in any event before settlement, the Seller must give the Buyer:

- (1) copies of all documents relating to any unregistered interests in the Property;
- (2) full details of the Tenancies to allow the Buyer to properly manage the Property after settlement, including the following documents if requested by the Buyer at least 7 days before settlement and provided the documents are in the Seller's possession:
 - (a) the entry condition report;
 - (b) the most recent routine inspection report;
 - (c) the RTA Form 2 Bond Lodgement form; and
 - (d) the current Tenant's tenancy application;
- (3) sufficient details (including the date of birth of each Seller who is an individual) to enable the Buyer to undertake a search of the PPSR;
- (4) the Local Government rate account number for the Lot; and
- (5) further copies or details if those previously given cease to be complete and accurate.

8.5 Possession Before Settlement

If possession is given before settlement:

- (1) the Buyer must maintain the Property in substantially its condition at the date of possession, fair wear and tear excepted;
- (2) entry into possession is under a licence personal to the Buyer revocable at any time and does not:
 - (a) create a relationship of landlord and tenant; or
 - (b) waive the Buyer's rights under this contract;
- (3) the Buyer must insure the Property to the Seller's satisfaction; and
- (4) the Buyer indemnifies the Seller against any expense or damages incurred by the Seller as a result of the Buyer's possession of the Property.

9. PARTIES' DEFAULT

9.1 Seller and Buyer May Affirm or Terminate

- (1) If the Seller or Buyer, as the case may be, fails to comply with an Essential Term, or makes a fundamental breach of an intermediate term, the Seller (in the case of the Buyer's default) or the Buyer (in the case of the Seller's default) may affirm or terminate this contract under this clause.
- (2) Clause 9.1 does not limit any other right or remedy of the parties including those under this Contract or any right at law or in equity.

9.2 If Seller Affirms

If the Seller affirms this contract under clause 9.1, it may sue the Buyer for:

- (1) damages;
- (2) specific performance; or
- (3) damages and specific performance.

9.3 If Buyer Affirms

If the Buyer affirms this contract under clause 9.1, it may sue the Seller for:

- (1) damages;
- (2) specific performance; or
- (3) damages and specific performance.

9.4 If Seller Terminates

If the Seller terminates this contract under clause 9.1, it may do all or any of the following:

- (1) resume possession of the Property;
- (2) forfeit the Deposit and any interest earned;
- (3) sue the Buyer for damages;
- (4) resell the Property.

9.5 If Buyer Terminates

If the Buyer terminates this contract under clause 9.1, it may do all or any of the following:

- (1) recover the Deposit and any interest earned;
- (2) sue the Seller for damages.

9.6 Seller's Resale

- (1) If the Seller terminates this contract and resells the Property, the Seller may recover from the Buyer as liquidated damages:
 - (a) any deficiency in price on a resale; and
 - (b) its expenses connected with any repossession, any failed attempt to resell, and the resale, provided the resale settles within 2 years of termination of this contract.
- (2) Any profit on a resale belongs to the Seller.

9.7 Seller's Damages

The Seller may claim damages for any loss it suffers as a result of the Buyer's default, including its legal costs on an indemnity basis.

9.8 Buyer's Damages

The Buyer may claim damages for any loss it suffers as a result of the Seller's default, including its legal costs on an indemnity basis.

9.9 Interest on Late Payments

- (1) The Buyer must pay interest at the Default Interest Rate:
 - (a) on any amount payable under this contract which is not paid when due; and
 - (b) on any judgement for money payable under this contract.
- (2) Interest continues to accrue:
 - (a) under clause 9.9(1)(a), from the date it is due until paid; and
 - (b) under clause 9.9(1)(b), from the date of judgement until paid.
- (3) Any amount payable under clause 9.9(1)(a) in respect of a period prior to settlement must be paid by the Buyer at settlement. If this contract is terminated or if any amount remains unpaid after settlement, interest continues to accrue.
- (4) Nothing in this clause affects any other rights of the Seller under this contract or at law.

10. GST

10.1 Definitions

- (1) Words and phrases defined in the GST Act have the same meaning in this contract unless the context indicates otherwise.
- (2) A reference to a party paying an amount of GST, or receiving an Input Tax Credit, includes that amount being paid or received by its Representative Member, Joint Venture Operator or other similar person.

10.2 No GST is payable or Purchase Price includes GST

If the GST section of the Reference Schedule specifies that *No GST is payable or Purchase Price includes GST* or is not completed, this clause 10.2 applies and the Buyer is not obliged to pay any additional amount to the Seller on account of GST on the Supply of the Property.

10.3 Purchase Price Does Not Include GST

If the GST section of the Reference Schedule specifies that *the Buyer must pay GST in addition to the Purchase Price*, this clause 10.3 applies and the Buyer must on the Settlement Date pay to the Seller in addition to the Purchase Price an amount equivalent to the amount payable by the Seller as GST on the Supply of the Property.

10.4 Margin Scheme

If the GST section of the Reference Schedule specifies *Margin Scheme* this clause 10.4 applies and:

- (1) the Purchase Price includes the Seller's liability for GST on the Supply of the Property. The Buyer is not obliged to pay any additional amount to the Seller on account of GST on the Supply of the Property.
- (2) the Seller:
 - (a) must apply the Margin Scheme to the Supply of the Property; and
 - (b) warrants that the Margin Scheme is able to be applied;
- (3) if the Seller breaches clause 10.4(2)(a) or its warranty under clause 10.4(2)(b) then:
 - (a) the Buyer may terminate this contract if it becomes aware of the breach prior to the Settlement Date;
 - (b) if the Buyer does not terminate this contract under clause 10.4(3)(a) or does not become aware of the breach until after the Settlement Date, it must pay to the Seller an amount equal to the Input Tax Credit which the Buyer will receive for GST payable for the Supply of the Property. Payment must be made when the Buyer receives the benefit of the Input Tax Credit;
 - (c) the Buyer is entitled to compensation from the Seller for any loss incurred as a result of the breach of clause 10.4(2).

10.5 Going Concern

If the GST section of the Reference Schedule specifies *Going Concern* this clause 10.5 applies and:

- (1) the Purchase Price does not include any amount for GST;
- (2) the parties agree the Supply of the Property is a Supply (or part of a Supply) of a Going Concern;
- (3) the Seller warrants that:
 - (a) between the Contract Date and the Settlement Date the Seller will carry on the Enterprise; and
 - (b) the Property (together with any other things that must be provided by the Seller to the Buyer at the Settlement Date under a related agreement for the same Supply) is all of the things necessary for the continued operation of the Enterprise;
- (4) the Buyer warrants that at the Settlement Date it is Registered or Required to be Registered under the GST Act;
- (5) if either of the warranties in clause 10.5(3) is breached:
 - (a) the Buyer may terminate this contract if it becomes aware of the breach prior to the Settlement Date;
 - (b) if the Buyer does not terminate this contract then, at the Settlement Date, the Buyer must pay to the Seller the amount payable by the Seller as GST on the Supply of the Property;

- (c) if the Buyer does not become aware of the breach until after the Settlement Date, it must pay to the Seller an amount equal to the Input Tax Credit which the Buyer will receive for GST payable in respect of the Supply of the Property. Payment must be made when the Buyer receives the benefit of the Input Tax Credit;
 - (d) the Buyer is entitled to compensation from the Seller for any loss incurred as a result of the breach of the warranty;
- (6) if the warranty in clause 10.5(4) is not correct the Buyer must pay to the Seller an amount equal to the GST payable in respect of the Supply of the Property, including any interest and penalties payable by the Seller in respect of this Supply. Payment must be made at the Settlement Date or, if settlement has occurred, immediately upon receipt of a Tax Invoice in accordance with clause 10.8;
- (7) if for any reason other than a breach of a warranty by the Seller or the Buyer this transaction is not a Supply of a Going Concern, the Buyer must pay to the Seller the amount payable by the Seller as GST on the Supply of the Property. Payment must be made at the Settlement Date or, if settlement has occurred, immediately upon receipt of a Tax Invoice in accordance with clause 10.8.

10.6 Farm Land

If the GST section of the Reference Schedule specifies *Farm Land* this clause 10.6 applies and:

- (1) the Purchase Price does not include any amount for GST;
- (2) the parties agree the Supply of the Property is a Supply (or part of a Supply) of farm land for farming;
- (3) the Seller warrants that:
 - (a) a Farming Business has been carried on the Property for at least five years preceding the day of the Supply; and
 - (b) the Farming Business will continue until the day of the Supply.
- (4) the Buyer warrants that it intends to carry on a Farming Business on the Property;
- (5) if either of the warranties in clause 10.6(3) is breached:
 - (a) the Buyer may terminate this contract if it becomes aware of the breach prior to the Settlement Date;
 - (b) if the Buyer does not terminate this contract then, at the Settlement Date, the Buyer must pay to the Seller the amount payable by the Seller as GST on the Supply of the Property;
 - (c) if the Buyer does not become aware of the breach until after the Settlement Date, it must pay to the Seller an amount equal to the Input Tax Credit which the Buyer will receive for GST payable in respect of the Supply of the Property. Payment must be made when the Buyer receives the benefit of the Input Tax Credit;
 - (d) the Buyer is entitled to compensation from the Seller for any loss incurred as a result of the breach of the warranty;
- (6) if the warranty in clause 10.6(4) is not correct the Buyer must pay to the Seller an amount equal to the GST payable in respect of the Supply of the Property, including any interest and payables payable by the Seller in respect of this Supply. Payment must be made at the Settlement Date or, if settlement has occurred, immediately upon receipt of a Tax Invoice in accordance with clause 10.8;

- (7) if for any reason other than a breach of a warranty by the Seller or the Buyer this transaction is not a Supply of farm land for farming, the Buyer must pay to the Seller the amount payable by the Seller as GST on the Supply of the Property. Payment must be made at the Settlement Date or, if settlement has occurred, immediately upon receipt of a Tax Invoice in accordance with clause 10.8.

10.7 Adjustments

- (1) Where this contract requires an adjustment or apportionment of Outgoings or Rent, that adjustment or apportionment must be made to:
 - (a) the amount of the Outgoing, exclusive of any GST for which an Input Tax Credit may be claimed; and
 - (b) the amount of Rent or profit excluding an amount of GST which must be paid to the Australian Taxation Office.
- (2) The GST payable under clause 10.3 is correspondingly increased or decreased by any subsequent adjustment to the amount of GST for the Supply for which the Supplier is liable, however caused.

10.8 Tax Invoice

Where GST is payable on the Supply of the Property, the Seller must give to the Buyer a Tax Invoice at the Settlement Date or on any later date on which the Buyer is required to pay GST under clause 10.5 or 10.6.

10.9 Remedies

The remedies provided in clauses 10.4(3), 10.5(5), 10.5(6), 10.6(5) and 10.6(6) are in addition to any other remedies available to the aggrieved party.

11. GENERAL

11.1 Foreign Buyer Approval

The Buyer warrants that either:

- (a) the Buyer's purchase of the Property is not a notifiable action; or
- (b) the Buyer has received a no objection notification, under the *Foreign Acquisitions and Takeovers Act 1975*.

11.2 Duty

The Buyer must pay all duty on this contract.

11.3 Notices

- (1) Notices under this contract must be in writing.
- (2) Notices under this contract or notices required to be given by law may be given and received by the party's solicitor.
- (3) Notices under this contract or notices required to be given by law may be given by:
 - (a) delivering or posting to the other party or its solicitor; or
 - (b) sending it to the email address of the other party or its solicitor stated in the Reference Schedule (or another email address notified by the recipient to the sender).
- (4) Subject to clause 11.3(5), a notice given after this contract is entered into in accordance with clause 11.3(3) will be treated as given:
 - (a) 5 Business Days after posting; or
 - (b) if sent by email, at the time it is sent.
- (5) Notices given by personal delivery or by email between 5pm on a Business Day (the "first Business Day") and 9am on the next Business Day (the "second Business Day") will be treated as given or delivered at 9am on the second Business Day.
- (6) If two or more notices are treated as given at the same time under clause 11.3(5), they will be treated as given in the order in which they were sent or delivered.

- (7) Notices or other written communications by a party's solicitor (for example, varying the Inspection Date, Finance Date or Settlement Date) will be treated as given with that party's authority.
- (8) Subject to the requirements of any law, for the purposes of clause 11.3(3)(b) and clause 11.5 the notice or information may be contained within an email, as an attachment to an email or located in an electronic repository accessible by the recipient by clicking a link in an email.
- (9) A communication given using a messaging system in an ELNO System is not a notice for the purpose of this contract.

11.4 Electronic Signing

If this contract is signed by any person using an Electronic Signature, the Buyer and the Seller:

- (a) agree to enter into this contract in electronic form; and
- (b) consent to either or both parties signing the contract using an Electronic Signature.

11.5 Pre-contract Disclosure

The Buyer consents to the Seller's use of electronic communication to give any notice or information required by law to be given to the Buyer (including a Seller Disclosure Statement) which was given before the Buyer signed this contract.

11.6 Business Days

- (1) If the Settlement Date, Finance Date or Inspection Date fall on a day that is not a Business Day, then it falls on the next Business Day.
- (2) If anything else (other than payment of all or part of the Deposit) is required to be done on a day that is not a Business Day, it must be done instead on the next Business Day.

11.7 Rights After Settlement

Despite settlement and registration of the transfer, any term of this contract that can take effect after settlement or registration remains in force.

11.8 Further Acts

If requested by the other party, each party must, at its own expense, do everything reasonably necessary to give effect to this contract.

11.9 Severance

If any term or part of a term of this contract is or becomes legally ineffective, invalid or unenforceable in any jurisdiction it will be severed and the effectiveness, validity or enforceability of the remainder will not be affected.

11.10 Interpretation

(1) Plurals and Genders

Reference to:

- (a) the singular includes the plural and the plural includes the singular;
- (b) one gender includes each other gender;
- (c) a person includes a body corporate; and
- (d) a party includes the party's executors, administrators, successors and permitted assigns.

(2) Parties

- (a) If a party consists of more than one person, this contract binds them jointly and each of them individually.
- (b) A party that is a trustee is bound both personally and in its capacity as a trustee.

(3) Acts and Regulations

Reference to an Act, regulation or statutory form includes all amendments, consolidations or replacements of them.

(4) **Inconsistencies**

If there is any inconsistency between any provision added to this contract and the printed provisions, the added provision prevails.

(5) **Headings**

Headings are for convenience only and do not form part of this contract or affect its interpretation.

(6) **Calculating Time**

If anything is permitted or required to be done:

- (a) a number of days or Business Days before a specified date, the date by which that thing may or must be done is to be calculated excluding the specified date;

Example: if the Settlement Date falls on a Friday, 2 days before the Settlement Date is Wednesday.

- (b) "at least" a number of days or Business Days before a specified date or a clear number of days or Business Days before a specified date, the date by which that thing may or must be done is to be calculated excluding the specified date and excluding the day on which the thing may or must be done;

Example: if the Settlement Date falls on a Friday, at least 2 days before the Settlement Date or 2 clear days before the Settlement Date is Tuesday.

- (c) a number of days or Business Days after a specified date, the date by which that thing may or must be done is to be calculated excluding the specified date.

Example: if the Contract Date falls on a Monday, 2 days after the Contract Date is Wednesday.

11.11 Counterparts

- (1) This contract may be executed in two or more counterparts, all of which will together be deemed to constitute one and the same contract.
- (2) A counterpart may be electronic and signed using an Electronic Signature.

12. ADDITIONAL PROVISIONS FOR COMMUNITY TITLE LOTS

12.1 When clause applies

This clause 12 applies if the Lot is a lot in a community titles scheme under the *Body Corporate and Community Management Act 1997*.

12.2 Additional Definitions

- (1) The following additional definitions apply:
- (a) "**Body Corporate**" means the body corporate of the Scheme.
- (b) "**Body Corporate Debt**" has the meaning in the Regulation Module but excludes the Body Corporate Levies for the period which includes the Settlement Date;
- (c) "**Body Corporate Levies**" means regular periodic contributions levied on the owner of the Lot (including, if applicable, levied under an exclusive use by-law) excluding any Special Contribution;
- (d) "**Exclusive Use Area**" means part of the common property for the Scheme allocated to the Lot under an exclusive use by-law;
- (e) "**Principal Body Corporate**" means, where the Scheme is a subsidiary scheme in a layered arrangement of community titles schemes, the body corporate for each higher scheme;
- (f) "**Scheme**" means the community titles scheme containing the Lot;
- (g) "**Scheme Land**" means the scheme land (as defined in the *Body Corporate and Community Management Act 1997*) for the Scheme;

- (h) "**Special Contribution**" means an amount levied by the Body Corporate on the owner of the Lot under the Regulation Module for a liability for which no provision or inadequate provision has been made in the budget of the Body Corporate;

- (i) "**Regulation Module**" means the regulation module for the Scheme.

- (2) The following definitions in clause 1.1 are modified as stated:

- (a) "**Outgoings**" also includes Body Corporate Levies;
- (b) "**Property**" also includes the right to any Exclusive Use Areas except in clause 7.4(2)(a);
- (c) "**Reserved Items**" also includes all chattels in the Exclusive Use Areas which are not Included Chattels.

- (3) For clauses 3.5(1)(c)(i) and 3.5(7) the references to "authority" include the Body Corporate.

- (4) Words and phrases defined in the *Body Corporate and Community Management Act 1997* have the same meaning in clause 12 unless the context indicates otherwise.

12.3 Body Corporate Records Inspection

- (1) This contract is conditional upon the Buyer being satisfied that it will not be materially prejudiced by any circumstances discovered on an inspection of the Body Corporate's records by the Records Inspection Date. The Buyer must take all reasonable steps to inspect the records.
- (2) The Buyer must give notice to the Seller that:
- (a) the Buyer:
- (i) despite taking all reasonable steps has been unable to inspect the Body Corporate's records by the Records Inspection Date; or
- (ii) is not satisfied with its inspection in accordance with 12.3(1), and the Buyer terminates this contract; or
- (b) clause 12.3(1) has been either satisfied or waived by the Buyer.
- (3) If the Buyer terminates this contract and the Seller asks the Buyer for further details the Buyer must give written reasons to the Seller without delay.
- (4) The Seller may terminate this contract by notice to the Buyer if notice is not given under clause 12.3(2) by 5pm on the Records Inspection Date. This is the Seller's only remedy for the Buyer's failure to give notice.
- (5) The Seller's right under clause 12.3(4) is subject to the Buyer's continuing right to give written notice to the Seller of satisfaction, termination or waiver pursuant to clause 12.3(2).

12.4 Adjustment of Land Tax

- (1) For clause 3.5(4), the Site Value of the Lot will be calculated in accordance with section 29 of the *Land Tax Act 2010*.
- (2) If there is no separate Site Value for the Scheme Land, clause 3.5(5) applies as if each reference to the Lot was a reference to the Scheme Land.

12.5 Body Corporate Debts

- (1) The Seller is liable for:
- (a) any Special Contribution for which a levy notice has been issued on or before the Contract Date; and
- (b) any other Body Corporate Debt (including any penalty or recovery cost resulting from non-payment of a Body Corporate Debt) owing in respect of the Lot at settlement.

- (2) The Buyer is liable for any Special Contribution levied after the Contract Date.
- (3) If an amount payable by the Seller under clause 12.5(1) is unpaid at the Settlement Date:
 - (a) for an Electronic Settlement, at settlement the Financial Settlement Schedule must specify payment of the relevant amount to the Body Corporate;
 - (b) otherwise, the Buyer may deduct the relevant amount from the Balance Purchase Price at settlement and must pay it promptly to the Body Corporate.
- (4) For the purposes of clause 12.5(1), an amount payable under an exclusive use by-law will be treated as levied on the date it is due.

12.6 Notice of purchase to Body Corporate

- (1) The Buyer must:
 - (a) complete and sign a *BCCM Form 8 Information for body corporate roll ("Form 8")* and provide a copy to the Seller on or before settlement; and
 - (b) provide the Form 8 to the Body Corporate promptly after settlement.
- (2) If the Buyer fails to comply with clause 12.6(1)(b), the Buyer authorises the Seller to provide the copy of the Form 8 to the Body Corporate.

12.7 Title

For clause 7.1, the Lot is also sold subject to the *Body Corporate and Community Management Act 1997*, the by-laws of the Body Corporate and, if the Scheme is a subsidiary scheme, the by-laws of each body corporate which apply to the Scheme.

12.8 Encumbrances

For clause 7.2, the Property is also sold subject to the statutory easements implied by Part 6A of the *Land Title Act 1994* and interests registered on the common property for the Scheme.

12.9 Seller's Additional Warranties

- (1) The Seller warrants that at the Contract Date, except as disclosed in this contract or the Seller Disclosure Statement:
 - (a) the Seller:
 - (i) has not received notice of a meeting of the Body Corporate to consider; and
 - (ii) is not aware of a resolution of the Body Corporate,
 consenting to the recording of a new community management statement for the Scheme differing from the community management statement recorded for the Scheme at the Contract Date; and
 - (b) all necessary Body Corporate consents to improvements made to common property and which benefit the Lot or the registered owner of the Lot are in force; and
 - (c) the Seller has not received notice of a by-law contravention relating to the Lot from the Body Corporate or a Principal Body Corporate which has not been fully complied with or otherwise remains in effect.
- (2) If the Seller breaches a warranty in clause 12.9(1) and, as a result, the Buyer is materially prejudiced, the Buyer may terminate this contract by notice to the Seller given before settlement but may not claim damages or compensation.
- (3) Clauses 12.9(1) and 12.9(2) do not restrict any statutory rights the Buyer may have which cannot be excluded by this contract.

12.10 Body Corporate Meetings

- (1) The Seller must promptly give the Buyer a copy of:
 - (a) any notice it receives of a proposed meeting of the Body Corporate and any Principal Body Corporate to be held after the Contract Date; and
 - (b) resolutions passed at that meeting and prior to settlement.
- (2) The Buyer may terminate this contract by notice in writing to the Seller given before settlement if it is materially prejudiced by any resolution of the Body Corporate or a Principal Body Corporate passed after the Contract Date other than a resolution, details of which are disclosed to the Buyer in this contract or in the Seller Disclosure Statement.
- (3) In clause 12.10(2) a resolution includes a decision of the Body Corporate Committee to consent to recording a new community management statement.
- (4) If the Buyer is not given a copy of the resolutions before settlement, it may sue the Seller for damages.

12.11 Property Adversely Affected

For clause 7.7(1)(b), (c), (d) and (e), references to the Lot are taken to include any part of the Scheme Land.

13. ADDITIONAL PROVISIONS FOR BUGTA LOTS

13.1 When clause applies

This clause 13 applies if the Lot is a lot in a Parcel to which the *Building Units and Group Titles Act 1980* applies.

13.2 Additional Definitions

- (1) The following additional definitions apply:
 - (a) "**Body Corporate**" means the body corporate under the *Building Units and Group Titles Act 1980* for the Parcel;
 - (b) "**Body Corporate Debt**" has the same meaning as 'relevant body corporate debt' in section 41A of the *Building Units and Group Titles Act 1980* but excludes the Body Corporate Levies for the period which includes the Settlement Date;
 - (c) "**Body Corporate Levies**" means regular periodic contributions levied on the owner of the Lot (including, if applicable, levied under an exclusive use by-law) excluding any Special Contribution;
 - (d) "**Exclusive Use Area**" means part of the common property of the Parcel allocated to the Lot under an exclusive use by-law;
 - (e) "**Parcel**" has the meaning in the *Building Units and Group Titles Act 1980*;
 - (f) "**Principal Body Corporate**" means:
 - (i) a body corporate under the Relevant Specified Act of which the Body Corporate is a member; and
 - (ii) a body corporate under the Relevant Specified Act of which a body corporate in paragraph (i) is a member;
 - (g) "**Relevant Specified Act**" means whichever of the following applies to the Lot and the Parcel:
 - (i) the *Integrated Resort Development Act 1987*; or
 - (ii) the *Mixed Use Development Act 1993*; or
 - (iii) the *Registration of Plans (H.S.P. (Nominees) Pty. Limited) Enabling Act 1980*; or
 - (iv) the *Registration of Plans (Stage 2) (H.S.P. (Nominees) Pty. Limited) Enabling Act 1984*; or
 - (v) the *Sanctuary Cove Resort Act 1985*;

- (h) “**Section 53 Notice**” means the form of notice of transfer of the Lot under section 53(2)(a) of the *Building Units and Group Titles Act 1980*;
 - (i) “**Special Contribution**” means an amount levied by the Body Corporate on the owner of the Lot under section 32(1) of the *Building Units and Group Titles Act 1980* which is not a regular periodic contribution.
- (2) The following definitions in clause 1.1 are modified as stated:
- (a) “**Outgoings**” also includes Body Corporate Levies;
 - (b) “**Property**” also includes the right to any Exclusive Use Areas except in clause 7.4(2)(a);
 - (c) “**Reserved Items**” also includes all chattels in the Exclusive Use Areas which are not Included Chattels.
- (3) For clauses 3.5(1)(c)(i) and 3.5(7) the references to “authority” include the Body Corporate.
- (4) Words and phrases defined in the *Building Units and Group Titles Act 1980* have the same meaning in this contract unless the context indicates otherwise.

13.3 Body Corporate Records Inspection

- (1) This contract is conditional upon the Buyer being satisfied that it will not be materially prejudiced by any circumstances discovered on an inspection of the Body Corporate’s records by the Records Inspection Date. The Buyer must take all reasonable steps to inspect the records.
- (2) The Buyer must give notice to the Seller that:
 - (a) the Buyer:
 - (i) despite taking all reasonable steps has been unable to inspect the Body Corporate’s records by the Records Inspection Date; or
 - (ii) is not satisfied with its inspection in accordance with clause 13.3(1), and the Buyer terminates this contract; or
 - (b) clause 13.3(1) has been either satisfied or waived by the Buyer.
- (3) If the Buyer terminates this contract and the Seller asks the Buyer for further details the Buyer must give written reasons to the Seller without delay.
- (4) The Seller may terminate this contract by notice to the Buyer if notice is not given under clause 13.3(2) by 5pm on the Records Inspection Date. This is the Seller’s only remedy for the Buyer’s failure to give notice.
- (5) The Seller’s right under clause 13.3(4) is subject to the Buyer’s continuing right to give written notice to the Seller of satisfaction, termination or waiver pursuant to clause 13.3(2).

13.4 Adjustment of Land Tax

- (1) For clause 3.5(4), the Site Value of the Lot will be calculated in accordance with section 29 of the *Land Tax Act 2010*.
- (2) If there is no separate Site Value for the Parcel, clause 3.5(5) applies as if each reference to the Lot was a reference to the Parcel.

13.5 Body Corporate Debts

- (1) The Seller is liable for:
 - (a) any Special Contribution for which a levy notice has been issued on or before the Contract Date; and
 - (b) any other Body Corporate Debt (including any penalty or recovery cost resulting from non-payment of a Body Corporate Debt) owing in respect of the Lot at settlement.
- (2) The Buyer is liable for any Special Contribution levied after the Contract Date.

- (3) If an amount payable by the Seller under clause 13.5(1) is unpaid at the Settlement Date,
 - (a) for an Electronic Settlement, at settlement the Financial Settlement Schedule must specify payment of the relevant amount to the Body Corporate;
 - (b) otherwise, the Buyer may deduct the specified amount from the Balance Purchase Price at settlement and must pay it promptly to the Body Corporate.
- (4) For the purposes of clause 13.5(1), an amount payable under an exclusive use by-law will be treated as levied on the date it is due.

13.6 Section 53 Notices

- (1) The Buyer must:
 - (a) complete and sign Section 53 Notice and provide a copy to the Seller on or before settlement; and
 - (b) provide the Section 53 Notice to the Body Corporate promptly after settlement.
- (2) If the Buyer fails to comply with clause 13.6(1)(b), the Buyer authorises the Seller to provide the copy of the Section 53 Notice to the Body Corporate.

13.7 Title

For clause 7.1, the Lot is also sold subject to the *Building Units and Group Titles Act 1980*, the Relevant Specified Act, the by-laws of the Body Corporate and any other by-laws under the Relevant Specified Act which apply to the Parcel.

13.8 Encumbrances

- For clause 7.2, the Property is also sold subject to:
- (a) the easements implied or created by sections 15 to 17 of the *Building Units and Group Titles Act 1980*;
 - (b) the easements implied or created by the Relevant Specified Act; and
 - (c) interests registered on the common property for the Parcel.

13.9 Seller’s Additional Warranties

- (1) The Seller warrants that at the Contract Date, except as disclosed in this contract or the Seller Disclosure Statement:
 - (a) the Seller:
 - (i) has not received notice of a meeting of the Body Corporate to consider; and
 - (ii) is not aware of a resolution of the Body Corporate, to amend, add to or repeal the by-laws for the Parcel as recorded on the plan for the Parcel at the Contract Date;
 - (b) all Body Corporate consents to improvements made to common property and which benefit the Lot or the registered owner of the Lot are in force; and
 - (c) the Seller has not received notice of a by-law contravention relating to the Lot from the Body Corporate or a Principal Body Corporate which has not been fully complied with or otherwise remains in effect.
- (2) If the Seller breaches a warranty in clause 13.9(1), and, as a result, the Buyer is materially prejudiced, the Buyer may terminate this contract by notice to the Seller given before settlement but may not claim damages or compensation.
- (3) Clauses 13.9(1) and 13.9(2) do not restrict any statutory rights the Buyer may have which cannot be excluded by this contract.

13.10 Body Corporate Meetings

- (1) The Seller must promptly give the Buyer a copy of:
 - (a) any notice it receives of a proposed meeting of the Body Corporate or a Principal Body Corporate to be held after the Contract Date; and
 - (b) resolutions passed at that meeting and prior to settlement.
- (2) The Buyer may terminate this contract by notice in writing to the Seller given before settlement if:
 - (a) a resolution of the Body Corporate or a Principal Body Corporate is passed after the Contract Date; and
 - (b) the Buyer would be materially prejudiced if required to settle this contract,unless details of the resolution were disclosed to the Buyer in this contract or the Seller Disclosure Statement.

13.11 Property Adversely Affected

For clause 7.7(1)(b), (c), (d) and (e), references to the Lot are taken to include any part of the Parcel.

Seller disclosure statement

Queensland
Government

Property Law Act 2023 section 99
Form 2, Version 1 | Effective from: 1 August 2025

WARNING TO BUYER – This statement contains important legal and other information about the property offered for sale. You should read and satisfy yourself of the information in this statement before signing a contract. You are advised to seek legal advice before signing this form. You should not assume you can terminate the contract after signing if you are not satisfied with the information in this statement.

WARNING – You must be given this statement before you sign the contract for the sale of the property.

This statement does not include information about:

- » flooding or other natural hazard history
- » structural soundness of the building or pest infestation
- » current or historical use of the property
- » current or past building or development approvals for the property
- » limits imposed by planning laws on the use of the land
- » services that are or may be connected to the property
- » the presence of asbestos within buildings or improvements on the property.

You are encouraged to make your own inquiries about these matters before signing a contract. You may not be able to terminate the contract if these matters are discovered after you sign.

Part 1 – Seller and property details

Seller	Nicolas Zahi Tannous
Property address (referred to as the "property" in this statement)	34 Bird Street Bundamba QLD 4304
Lot on plan description	Lot 40 / RP22399

Community titles scheme or BUGTA scheme:	Is the property part of a community titles scheme or a BUGTA scheme: ☐ Yes <i>If Yes, refer to Part 6 of this statement for additional information</i>	☒ No <i>If No, please disregard Part 6 of this statement as it does not need to be completed</i>
--	---	---

Part 2 – Title details, encumbrances and residential tenancy or rooming accommodation agreement

Title details	The seller gives or has given the buyer the following— A title search for the property issued under the <i>Land Title Act 1994</i> showing interests registered under that Act for the property. A copy of the plan of survey registered for the property.	☒ Yes ☒ Yes
----------------------	---	--

Registered encumbrances	Registered encumbrances, if any, are recorded on the title search, and may affect your use of the property. Examples include easements, statutory covenants, leases and mortgages. You should seek legal advice about your rights and obligations before signing the contract.
Unregistered encumbrances (excluding statutory encumbrances)	There are encumbrances not registered on the title that will continue ☐ Yes ☒ No to affect the property after settlement. Note—If the property is part of a community titles scheme or a BUGTA scheme it may be subject to and have the benefit of statutory easements that are NOT required to be disclosed. Unregistered lease (if applicable) If the unregistered encumbrance is an unregistered lease, the details of the agreement are as follows: » the start and end day of the term of the lease: 15.05.23 - present (periodical agreement) » the amount of rent and bond payable: Rent = \$200 p/w Bond = \$800 » whether the lease has an option to renew: Current periodical agreement Other unregistered agreement in writing (if applicable) If the unregistered encumbrance is created by an agreement in writing, and is not an unregistered lease, a copy of the agreement is given, together with relevant plans, if any. ☒ Yes Unregistered oral agreement (if applicable) If the unregistered encumbrance is created by an oral agreement, and is not an unregistered lease, the details of the agreement are as follows: Insert names of parties to the agreement, term of the agreement and any amounts payable by the owner of the property
Statutory encumbrances	There are statutory encumbrances that affect the property. ☒ Yes ☐ No <i>If Yes, the details of any statutory encumbrances are as follows:</i> See attached Utility Plan Search dated 26.08.25
Residential tenancy or rooming accommodation agreement	The property has been subject to a residential tenancy agreement or a rooming accommodation agreement under the <i>Residential Tenancies and Rooming Accommodation Act 2008</i> during the last 12 months. ☐ Yes ☒ No If Yes, when was the rent for the premises or each of the residents' rooms last increased? <i>(Insert date of the most recent rent increase for the premises or rooms)</i> Note—Under the <i>Residential Tenancies and Rooming Accommodation Act 2008</i> the rent for a residential premises may not be increased earlier than 12 months after the last rent increase for the premises. As the owner of the property, you may need to provide evidence of the day of the last rent increase. You should ask the seller to provide this evidence to you prior to settlement.

Part 3 – Land use, planning and environment

WARNING TO BUYER – You may not have any rights if the current or proposed use of the property is not lawful under the local planning scheme. You can obtain further information about any planning and development restrictions applicable to the lot, including in relation to short-term letting, from the relevant local government.

Zoning	The zoning of the property is <i>(Insert zoning under the planning scheme, the Economic Development Act 2012; the Integrated Resort Development Act 1987; the Mixed Use Development Act 1993; the State Development and Public Works Organisation Act 1971 or the Sanctuary Cove Resort Act 1985, as applicable)</i>: Low Density Residential		
Transport proposals and resumptions	The lot is affected by a notice issued by a Commonwealth, State or local government entity and given to the seller about a transport infrastructure proposal* to: locate transport infrastructure on the property; or alter the dimensions of the property. ☐ Yes ☒ No The lot is affected by a notice of intention to resume the property or any part of the property. ☐ Yes ☒ No <i>If Yes, a copy of the notice, order, proposal or correspondence must be given by the seller.</i>		
Contamination and environmental protection	The property is recorded on the Environmental Management Register or the Contaminated Land Register under the <i>Environmental Protection Act 1994</i>. ☐ Yes ☒ No The following notices are, or have been, given: A notice under section 408(2) of the <i>Environmental Protection Act 1994</i> (for example, land is contaminated, show cause notice, requirement for site investigation, clean up notice or site management plan). ☐ Yes ☒ No A notice under section 369C(2) of the <i>Environmental Protection Act 1994</i> (the property is a place or business to which an environmental enforcement order applies). ☐ Yes ☒ No A notice under section 347(2) of the <i>Environmental Protection Act 1994</i> (the property is a place or business to which a prescribed transitional environmental program applies). ☐ Yes ☒ No		
Trees	There is a tree order or application under the <i>Neighbourhood Disputes (Dividing Fences and Trees) Act 2011</i> affecting the property. ☐ Yes ☒ No <i>If Yes, a copy of the order or application must be given by the seller.</i>		
Heritage	The property is affected by the <i>Queensland Heritage Act 1992</i> or is included in the World Heritage List under the <i>Environment Protection and Biodiversity Conservation Act 1999</i> (Cwlth). ☐ Yes ☒ No		
Flooding	Information about whether the property is affected by flooding or another natural hazard or within a natural hazard overlay can be obtained from the relevant local government and you should make your own enquires. Flood information for the property may also be available at the FloodCheck Queensland portal or the Australian Flood Risk Information portal.		
Vegetation, habitats and protected plants	Information about vegetation clearing, koala habitats and other restrictions on development of the land that may apply can be obtained from the relevant State government agency.		

Part 4 – Buildings and structures

WARNING TO BUYER – The seller does not warrant the structural soundness of the buildings or improvements on the property, or that the buildings on the property have the required approval, or that there is no pest infestation affecting the property. You should engage a licensed building inspector or an appropriately qualified engineer, builder or pest inspector to inspect the property and provide a report and also undertake searches to determine whether buildings and improvements on the property have the required approvals.

Swimming pool	There is a relevant pool for the property.	☐ Yes	☒ No
	If a community titles scheme or a BUGTA scheme – a shared pool is located in the scheme.	☐ Yes	☐ No
	Pool compliance certificate is given.	☐ Yes	☐ No
	OR		
	Notice of no pool safety certificate is given.	☐ Yes	☐ No
Unlicensed building work under owner builder permit	Building work was carried out on the property under an owner builder permit in the last 6 years.	☐ Yes	☒ No
	<i>A notice under section 47 of the Queensland Building and Construction Commission Act 1991 must be given by the seller and you may be required to sign the notice and return it to the seller prior to signing the contract.</i>		
Notices and orders	There is an unsatisfied show cause notice or enforcement notice under the <i>Building Act 1975</i> , section 246AG, 247 or 248 or under the <i>Planning Act 2016</i> , section 167 or 168.	☐ Yes	☒ No
	The seller has been given a notice or order, that remains in effect, from a local, State or Commonwealth government, a court or tribunal, or other competent authority, requiring work to be done or money to be spent in relation to the property.	☐ Yes	☒ No
	<i>If Yes, a copy of the notice or order must be given by the seller.</i>		
Building Energy Efficiency Certificate	If the property is a commercial office building of more than 1,000m ² , a Building Energy Efficiency Certificate is available on the Building Energy Efficiency Register.		
Asbestos	The seller does not warrant whether asbestos is present within buildings or improvements on the property. Buildings or improvements built before 1990 may contain asbestos. Asbestos containing materials (ACM) may have been used up until the early 2000s. Asbestos or ACM may become dangerous when damaged, disturbed, or deteriorating. Information about asbestos is available at the Queensland Government Asbestos Website (asbestos.qld.gov.au) including common locations of asbestos and other practical guidance for homeowners.		

Part 5 – Rates and services

WARNING TO BUYER – The amount of charges imposed on you may be different to the amount imposed on the seller.

Rates	Whichever of the following applies—
	The total amount payable* for all rates and charges (without any discount) for the property as stated in the most recent rate notice is:
	Amount: \$665.25 Date Range: 01.07.25 - 30.09.25
	OR
	The property is currently a rates exempt lot.** ☐
	OR
	The property is not rates exempt but no separate assessment of rates is issued by a local government for the property. ☐

*Concessions: A local government may grant a concession for rates. The concession will not pass to you as buyer unless you meet the criteria in section 120 of the *Local Government Regulation 2012* or section 112 of the *City of Brisbane Regulation 2012*.

** An exemption for rates applies to particular entities. The exemption will not pass to you as buyer unless you meet the criteria in section 93 of the *Local Government Act 2009* or section 95 of the *City of Brisbane Act 2010*.

Water	Whichever of the following applies—
	The total amount payable as charges for water services for the property as indicated in the most recent water services notice* is:
	Amount: \$54.43 Date Range: 31.01.25 - 21.04.25
	OR
	There is no separate water services notice issued for the lot; however, an estimate of the total amount payable for water services is:
	Amount: Insert estimated amount Date Range: Insert date range

* A water services notices means a notice of water charges issued by a water service provider under the *Water Supply (Safety and Reliability) Act 2008*.

Part 6 – Community titles schemes and BUGTA schemes

(If the property is part of a community titles scheme or a BUGTA scheme this Part must be completed)

WARNING TO BUYER – If the property is part of a community titles scheme or a BUGTA scheme and you purchase the property, you will become a member of the body corporate for the scheme with the right to participate in significant decisions about the scheme and you will be required to pay contributions towards the body corporate’s expenses in managing the scheme. You will also be required to comply with the by-laws. By-laws will regulate your use of common property and the lot.

For more information about living in a body corporate and your rights and obligations, contact the Office of the Commissioner for Body Corporate and Community Management.

Body Corporate and Community Management Act 1997	The property is included in a community titles scheme. (If Yes, complete the information below)	☐ Yes	☒ No
Community Management Statement	A copy of the most recent community management statement for the scheme as recorded under the <i>Land Title Act 1994</i> or another Act is given to the buyer. Note —If the property is part of a community titles scheme, the community management statement for the scheme contains important information about the rights and obligations of owners of lots in the scheme including matters such as lot entitlements, by-laws and exclusive use areas.	☐ Yes	
Body Corporate Certificate	A copy of a body corporate certificate for the lot under the <i>Body Corporate and Community Management Act 1997</i> , section 205(4) is given to the buyer. If No — An explanatory statement is given to the buyer that states: » a copy of a body corporate certificate for the lot is not attached; and » the reasons under section 6 of the <i>Property Law Regulation 2024</i> why the seller has not been able to obtain a copy of the body corporate certificate for the lot.	☐ Yes	☐ No
Statutory Warranties	Statutory Warranties —If you enter into a contract, you will have implied warranties under the <i>Body Corporate and Community Management Act 1997</i> relating to matters such as latent or patent defects in common property or body corporate assets; any actual, expected or contingent financial liabilities that are not part of the normal operating costs; and any circumstances in relation to the affairs of the body corporate that will materially prejudice you as owner of the property. There will be further disclosure about warranties in the contract.		

Building Units and Group Titles Act 1980	The property is included in a BUGTA scheme (If Yes, complete the information below)	☐ Yes	☒ No
Body Corporate Certificate	A copy of a body corporate certificate for the lot under the <i>Building Units and Group Titles Act 1980</i> , section 40AA(1) is given to the buyer. If No — An explanatory statement is given to the buyer that states: » a copy of a body corporate certificate for the lot is not attached; and » the reasons under section 7 of the <i>Property Law Regulation 2024</i> why the seller has not been able to obtain a copy of the body corporate certificate for the lot. Note —If the property is part of a BUGTA scheme, you will be subject to by-laws approved by the body corporate and other by-laws that regulate your use of the property and common property.	☐ Yes	☐ No

260110965	National Fire Ant Eradication Program	

General Information

Care will be needed to be undertaken if you/your client carry out any excavation works inside or outside the property boundary.

Utility Plans, provides a 'collated pack' of information, including plans/maps, detailing the location of utilities on or near to your property. This can include electricity, gas, water, sewerage, drainage, telecommunications and local government assets, depending upon what utilities are in the vicinity.

Any plans supplied are intended to assist you or your client in the prevention of damage to an underground asset. The plans do not have a guaranteed accuracy since they are supplied by each utility in question. If you or your client perform excavations, any such works are at your/your client's own risk. Prior to any such earth works being conducted on or in the vicinity of the property we recommend that you/your client contact a locator to accurately find and locate each utility to avoid any damage. In the event that a pipe/cable damage does occur from earthworks, you/your client will be responsible for any cost of repair.

Due to the age of some pipes and cables, it is impossible for all plans to have the precise location of all underground utilities. The accuracy and/or completeness of the information supplied cannot be guaranteed as property boundaries, depths and other features may change over time. Therefore, plans are indicative only. Each utility does not warrant that the plans are accurate and accepts no responsibility for any inaccuracy shown on the plans. It is your responsibility to locate underground utilities carefully via potholing prior to any excavation process, and to exercise due care during that excavation.

This report is based on information supplied by each utility – which is current at the time of request. Also please note that plans are supplied with a validity period of 30 days from date of supply.

QLD 4304

Thank you for your Before You Dig enquiry regarding the location of gas assets.

We confirm there are NO Gas Assets located in close vicinity of the above location.
Caution: Damage to gas assets may result in explosion, fire and personal injury.

Please ensure you read and comply with all the relevant information contained in this response to your BYDA enquiry.

Before You Dig Checklist

1. Plan

- Review maps provided with this BYDA response and confirm the location of your work site is correct.

2. Prepare

- Electronically locate gas assets and mark locations.
- Note: Look for visible evidence of gas assets at the worksite which may not be shown on plans.

3. Pothole

- Not applicable where no gas assets present.

4. Protect

- Not applicable where no gas assets present.

5. Proceed

- Only proceed with your work once you are confident no gas assets are located in vicinity to your work location.
 - APA BYDA response (including maps) are on site for reference at all times, and less than 30 days old.

Legend

Pipe	Pipe code and material	Object
Low pressure	C* (for example, C2) Cast iron	Valve
Medium pressure	CU Copper	Buried valve
High pressure	N2 Nylon	Regulator
Transmission pressure	P* Polyethylene (PE)	Gas supplied = yes
Critical main (behind pipe)	P3 Polyvinyl chloride (PVC)	CP rectifier terminal
Proposed (pressure by colour)	P6, P7, P9–P12 Medium density PE	CP test station
LPG (pressure by colour)	P2, P4, P8 High density PE	CP anode
Hydrogen blended (pressure by colour)	S* Steel	CP bond wire
Abandoned	W2 Wrought galv iron	Syphon
Idle/inactive	W3 PE coat wrought galv iron	Trace wire point
Sleeve		
Casing (behind pipe)		
Area	Abbreviation	
BYDA area of interest	BoK Back of kerb	FoK Front of kerb
	C Depth of cover	Galv Galvanized
	CP Cathodic protection	NTI Not tied in
Example		
Pipe 40P6 in 80C2  40 mm high pressure medium density poly in an 80 mm cast iron casing	Pipe code Pipe diameter in millimetres is shown before pipe code. 40P6 = 40 mm nominal diameter	This map was created in colour and should be printed in colour
63S8  63 mm medium pressure steel		

Important information

- Refer to requirements relating to construction, excavation and other work activities in the **APA Guidelines for Works Near Existing Gas Assets** document with this BYDA response.
- BYDA enquiries are valid for 30 days. If your works commence after 30 days from the date of this response a new enquiry is required to validate location information.
- **For some BYDA enquiries, you may receive two (2) responses from APA. Please read both responses carefully as they relate to different assets.**
- Gas (inlet) services connecting Gas Assets in the street to the gas meter on the property are not marked on the map. South Australia Only – if a meter box is installed on the property, a sketch of the gas service location may be found inside the gas meter box. APA does not guarantee the accuracy or completeness of these sketches.

Free Gas Pipeline Awareness Training and Information

PROFESSIONALS

APA offers online and in-person toolbox forums to support safe work near underground gas assets. Topics include distribution and transmission pipelines, the permit process, and gas emergencies, with content suited for companies of all sizes. A Continuing Professional Development certificate is available upon completion.

Scan the QR code to register for an online toolbox, or email damageprevention@apa.com.au to request an in-person presentation.

HOMEOWNERS

If you're working near your home's gas pipes stay safe and view APA's video guide '**Working Safely Near Gas Lines: A DIY Homeowner's Guide**' which offers simple tips to avoid damaging gas pipes.

Scan the QR code to view the video, or for more information email damageprevention@apa.com.au

Disclaimer and legal details

- This information is valid for 30 days from the date of this response.
- This information has been generated by an automated system based on the area highlighted in your BYDA request and has not been independently verified.
- Map location information is provided as AS5488-2022 Quality Level D, as such supplied location information is indicative only.
- Whilst APA has taken reasonable steps to ensure that the information supplied is accurate, the information is provided strictly on the condition that no assurance, representation, warranty or guarantee (express or implied) is given by APA in relation to the information (including without limitation quality, accuracy, reliability, completeness, currency, sustainability, or suitability for any particular purpose) except that the information has been disclosed in good faith.
- Any party who undertakes activities in the vicinity of APA operated assets has a legal duty of care that must be observed. This legal obligation requires all parties to adhere to a standard of reasonable care while performing any acts that could foreseeably harm these assets

APPENDIX A GENERAL BYDA RESPONSE PROCESS 41

TERMS OF USE

The “Guidelines for Works Near Existing Gas Assets Standard” is used for APA Networks excavations or third party excavations near APA Network operated assets. This guideline must only be used by the person or entity who received it directly from APA (“You”) to ensure the latest version is used.

APA Networks has provided this document to You subject to the terms of use set out below. By retaining possession of this document, You acknowledge and agree to the following conditions;

1. The information contained in this document relates only to APA Networks operated assets (as defined in this document) and does not relate to any other utility assets owned or operated by APA, such as APA Gas Transmission Pipelines.
2. This Guidelines document is provided to You to assist in the development of design plans, construction and land use activities.
3. This Guidelines document does not override or supersede APA's Permit to Work (**PTW**) or Excavation policies and procedures.
4. Any proposed works in the vicinity of APA Networks operated assets may also require approval from other utility providers or government agencies. APA Networks has no responsibility for, and makes no representation in relation to, any requirements that may be necessary to obtain such approvals.
5. This document does not relieve any person from the requirement to make appropriate Before You Dig Australia (**BYDA**) enquiries, and otherwise discuss any proposed works with APA Networks, either for initial or subsequent works.
6. You must not reproduce this document without APA Networks permission and must not alter or amend this document.
7. To ensure the latest version of this document is used only APA Networks can provide a valid copy of this document.
8. APA Networks reserves its right to modify, amend, supplement, delete or withdraw any part of this document or any reference contained in this document, at any time without notice.
9. You must make your own independent enquiries in relation to any works that are proposed to be undertaken in the vicinity of any APA Networks operated assets (including obtaining all necessary express written consents and approvals from APA Networks). The information contained within is intended as a guide only.
10. Except as required by law and only to the extent so required, APA Networks and its related bodies corporate, officers, employees, agents and Contractors;
 - a) do not make any representation, warranty or undertaking, express or implied, as to, or accept any responsibility or liability for; and
 - b) are not in any way liable, directly or indirectly, to You or any other person for any loss, damages, costs, expenses or reliance arising out of or in connection with the validity, accuracy, completeness, relevance, or any errors in or omissions from, any information or statement contained in this document.
11. APA Networks reserves all its rights in the information contained in this document. No rights or obligations are granted or to be implied from the contents of this document. You acknowledge that all intellectual property and other tangible and intangible rights in the information contained in this document are and remain the exclusive property of APA Networks.
12. You agree to release and indemnify APA Networks and its related bodies corporate, officers, employees, agents and Contractors against all reasonably foreseeable claims, costs, expenses, losses and liabilities (including legal costs on a full indemnity basis) suffered or incurred by them as a result or in connection with the use of this document by You.

The purpose of this document is to provide guidelines for third parties planning to install new infrastructure or conduct works near existing APA Networks (**APA**) operated assets.

It is intended that this document will be provided to third parties proposing works around existing gas assets for their use during the design and planning phase following initial planning BYDA enquiries. This document does not provide authorisation to undertake the works but provides APA requirements to ensure that any review and acceptance of proposed works is completed as quickly as possible.

1 INTRODUCTION

1.1 Scope of this Document

This document addresses APA's requirements for considering how a third party's proposed works and APA managed works may impact APA Networks operated assets under the following parts:

Part 1 – APA Notification and Authorisation Requirements

Part 2 – Design and Asset Protection Requirements

Part 3 – Construction and Land Use Requirements

Part 4 – Alteration of Existing Gas Assets

APA Networks acts as the asset operator on behalf of entities Australian Gas Networks (**AGN**), Allgas, APA, Origin and Queensland Nitrates (**QNP**) and operates in New South Wales, Northern Territory, Queensland, South Australia and Victoria. The criteria provided in this document only applies to the assets managed by APA Networks on behalf of these companies.

APA also owns and operates natural gas transmission infrastructure on all mainland states and territories of Australia. These assets are operated by a separate APA entity and are out of scope for this document.

A glossary of all terms and abbreviations used in this document is contained in **Section 7**.

A list of all relevant external standards and APA reference documents is contained in **Section 8**.

1.2 Asset Types

APA Networks' operated gas assets include buried pipe, above and below ground stations (e.g. pressure regulation, valves, meters), electrical cables, cathodic protection systems (e.g. test points, anode beds), pits and electrical cabinets. Depending on the gas type and the operating pressure, gas assets are classified as natural gas transmission, natural gas distribution and Liquefied Petroleum Gas (**LPG**) distribution as shown in **Figure 1**.

Figure 1 Asset Types and Standards Operated by APA Networks

1.2.1 Natural Gas Transmission

Natural gas transmission pressure assets operate at pressures above 1,050 kPag, and are generally used for transporting large quantities of gas across country. Design, construction and operation of these assets is governed by the AS 2885 suite of Australian Standards (**AS**).

Due to the higher pressure and energy density, there are severe safety, supply and environmental consequences which can result from third party interference. Hence, more stringent requirements and controls are applied to third party works in the vicinity of these assets.

Buried transmission pipelines are constructed from coated steel pipe where the appearance can vary depending on the year of construction, but will generally appear as yellow, black or grey when physically exposed.

1.2.2 Natural Gas Distribution

Natural gas distribution pressure assets operate at pressures below or equal to 1,050 kPag from offtakes of transmission pressure assets, and are generally used to supply consumers such as businesses and homes. Design, construction and operation of these assets is governed by the AS/NZS 4645 suite of Australian Standards.

Due to the lower energy density compared to transmission assets, less stringent requirements and controls are applied to distribution assets. Some distribution assets are deemed critical by APA Networks due to the safety and supply implications that may arise due to a third party strike. These critical distribution assets will be defined on BYDA responses, and some of the controls which are applied to transmission pressure assets (e.g. permit and site watch) will be required.

Buried distribution pressure pipes may be constructed from the following materials and physical appearances when exposed:

- Cast Iron (black);
- Polyethylene (PE) (yellow or black with yellow stripes);
- Steel coated or uncoated (generally yellow, black or grey); and
- Other plastic such as Polyvinyl Chloride (PVC) or nylon (yellow).

Some legacy materials such as cast iron and nylon may require additional protection during construction works due to the unpredictable nature of the materials.

1.2.3 LPG Distribution

LPG distribution pressure assets operate at pressures below 140 kPag from storage compounds and are generally used to supply consumers such as businesses and homes in parts of Queensland, South Australia and Northern Territory. Design, construction and operation of these assets is governed by the AS/NZS 4645 suite of Australian Standards.

Additional safety considerations are required in addition to the requirements for natural gas, as LPG is heavier than air and will pool at the leak point and can accumulate in a trench or excavation.

The same materials used for buried distribution pressure pipes (**Section 1.2.2**) may be used on LPG distribution networks.

1.3 Damage and Emergencies

If you smell gas or damage has occurred, or is suspected, on any gas asset call APA emergency number **1800 GAS LEAK (1800 427 532) or 1800 808 526 for LPG assets.**

Any unreported damage has the potential to escalate and endanger public safety.

Where damage has resulted in a release of gas, you are advised to take the following immediate action:

- Clear the area of all people. Do not under any circumstance re-enter the damage area;
- Where safe to do so, shut off or remove all ignition sources and devices in the area e.g. naked flames, vehicle engines, power tools, mobile phones;
- Do not attempt to stop the flow or repair the damage;
- Allow the gas to vent to air; and
- Once clear of the area, contact the emergency number **1800 427 532 or 1800 808 526 for LPG assets.**

The conditions in this document or as provided by APA Networks are intended to protect the gas assets as well as keep safe any construction crews or general public in the vicinity. Depending on the circumstances, some variation to the conditions in this document may be required or may be provided by an approved APA Networks site watch representative. It is legislated in all jurisdictions that the direction provided by APA is followed.

1.4 General Duty of Care and Responsibility to Obtain Information

Anybody working near a gas asset, or responsible for such work, has a duty of care to exercise caution, to maintain a safe working environment and to meet requirements of all relevant laws and Occupational Health and Safety legislation.

For general enquiries about results from BYDA please contact:

- DBYDNetworksAPA@apa.com.au for Northern Territory, South Australia, Southern New South Wales and Victoria, and;
- PermitsQLD@apa.com.au for Queensland and Northern NSW (incl. Tamworth).

The third party shall make contact with APA through the BYDA process if any clarification is required to determine the approval processes for any proposed land use changes (within the Measurement Length), design works and construction activities within 3 m of a gas asset or within a pipeline easement.

Any works proposed by the third party will only be authorised if APA is satisfied that the works will not affect the integrity of the APA Networks operated assets.

Any person undertaking work near an APA Networks operated asset, or responsible for such work, must ensure that they familiarise themselves with APA requirements.

Working around any gas asset, especially transmission pressure pipelines, without appropriate planning and controls as specified by APA Networks can be extremely dangerous. Damage to a gas asset could result in:

- Possible explosion and fire with the risk of loss of equipment, property, personal injury, and death;
- Loss of gas supply to thousands of customers;
- Substantial repair and gas restoration liability costs to the authority or principal responsible; and,
- Prosecution under the relevant laws governing pipeline and gas safety.

Prior to the commencement of any works within the Protected Zone of transmission pressure or critical gas assets, the Contractor performing the work must receive an Authority to Work Permit (ATWP).

Any works within the Protected Zone of critical assets must comply with any conditions attached to an ATWP and depending upon the nature of the asset and works supported by an approved construction methodology.

Written authorisation in the form of the ATWP must be kept on site at all times, and the holder of the authorisation must comply with all the conditions of the ATWP. The performance of any works near critical APA Networks operated assets without a valid ATWP and full compliance with its conditions will constitute a safety incident and may also result in an infringement notice and associated penalties issued by the regulator of the APA Networks asset.

1.4.1 Additional Transmission Pressure Pipeline Requirements

Where the works proposed by the third party may result in a change in land use within the Measurement Length for a transmission pressure pipeline (as defined in AS/NZS 2885.6 for Pipelines – Gas and Liquid Petroleum), such works may also be subject to formal approval requirements through APA Networks and applicable local and state government planning processes. This may also require a Safety Management Study (**SMS**) Report to be completed and approved by APA Networks. The SMS Report is generated from an SMS workshop involving an SMS facilitator, the third party and APA Networks. APA Networks is the owner of the SMS Report and any resulting recommendations/ actions must be implemented to the satisfaction of APA prior to the commencement of any physical works.

Certain categories of development/ land use change are not appropriate to be located within the Measurement Length of transmission pressure pipelines. In certain circumstances, the otherwise unacceptable risks associated with such developments may be alleviated with the aid of installing protective slabbing over the asset or undertaking other protection and mitigation measures.

2 PROTECTION PROCESS

APA is committed to working cooperatively with third parties to ensure that existing gas assets will be appropriately protected from any proposed works.

The process to be followed for any proposed works is outlined in **Table 1**. This table cross references the relevant section of this document which provides any specific requirements for each gas asset classification. The steps in this table are to be followed in conjunction with the process outlined by BYDA¹, a flow chart is also provided in **APPENDIX A**.

Table 1 Protection Process Summary

Section	Step	Purpose
3	Notification and Authorisation	Identify and locate existing gas assets in the vicinity of any proposed works. Submit BYDA requests to obtain indicative plans of gas assets. Notify APA Networks and obtain approval to verify the exact position by physically proving the position of gas assets at the cost of the third party.
4	Design and Protection Requirements	Review APA Networks design and protection requirements for any proposed infrastructure near gas assets. If acceptable clearance is available in accordance with this section review impact of construction methodology on existing gas assets. If acceptable clearance is not available in accordance with this section and the proposed infrastructure cannot be modified, alteration or protection of the existing gas assets will be required at the cost of the third party.
5	Construction and Land Use Requirements	Review construction methodology for adverse impact to existing gas assets. Some additional protection measures may be required depending on the existing gas assets, the construction methodology and whether land use changes are required. If works meet the requirements of this document, submit work package to APA Networks for review and approval. If approval is given, then undertake works in accordance with APA Networks conditions/ permits. If approval is not given modify work package accordingly. If works do not meet the requirements of this document or APA Networks approval cannot be reached, alteration or protection of the existing gas assets will be required.
6	Alteration	Request alteration of existing gas infrastructure if there is insufficient clearance or construction methods will adversely impact existing gas assets. Alteration of existing gas assets are fully recoverable and may result in delays if not identified early.

2.1 Assessment Information

Throughout the protection process, APA Networks assessment may be required to determine if the proposed works/ installation has sufficient separation or if work can be undertaken with a suitable construction methodology. If APA Networks assessment is required, the following information must be provided to enable an efficient and comprehensive review.

- Due dates or a work program;
- The location / address and extent of proposed works;

¹ BYDA process is available at <https://www.1100.com.au/safety-information/digging-safely/>

Guidelines for Works Near Existing Gas Assets
400-STD-AM-0001 Revision 2

- Scope / description of the work impacting APA assets;
- A work package containing detailed design or construction issue drawings with the location of APA assets and the extent of works marked and / or georeferenced. Sufficient details must be provided on the plans to verify locations against APA information, which is typically measured from property boundaries. Plan and cross sectional drawings are typically required, including any proving locations;
- The proposed construction methodology (if available); and
- For critical assets only, a completed permit request form. This form is automatically provided in response to a BYDA enquiry when it is required, with direction for this form included in the BYDA response (refer to **Section 5.2**).

If the information provided is incomplete, or irrelevant information is provided, it may result in a delay of the assessment process and provision of a response. Due to the varying nature of potential works, it is not possible to develop a comprehensive listing of information that will be required for each work type, but the above is provided as a general guideline for what will normally be required.

3 PART 1 - APA NOTIFICATION AND AUTHORISATION REQUIREMENTS

3.1 BYDA Request

The fastest method for obtaining APA Network gas asset locations is to lodge a BYDA request. A response can be expected from APA within two business days, and may include one of three responses as outlined in **APPENDIX A**, depending on the location of the works in relation to existing APA operated gas assets in the vicinity.

For some BYDA requests, APA Networks may provide different responses to different assets affected by the proposed works. In all instances it is the responsibility of the third party to review and follow the direction of all BYDA responses.

The information provided by APA Networks in response to a BYDA request, along with any other plans or subsequent information provided by APA, show only the indicative location of the asset at the time and are a guide only. In most instances it will be necessary to prove the location of all buried assets within the proposed work area.

The following items must be considered when using asset information provided by APA Networks:

- Gas service lines from buried distribution pressure supply mains to consumers may not be shown on plans. Service lines are usually laid at right angles from main to a meter position, except where road conduits are provided; and
- Plans become rapidly outdated and so should be used within 30 days and then destroyed. It is the responsibility of the third party to contact APA Networks to seek the updated or renewal of any information after this time.

APA shall not be liable or responsible for the accuracy of any information supplied.

3.2 Provings and Site Identification

Electronic location (e.g. ground penetrating radar, pipe locators) of gas assets is required to verify the onsite locations and any plans that have been provided.

Physical proving of existing gas assets is required at key locations to verify that the separation and protection criteria provided in this document have been achieved. The location and quantity of provings will depend on the scope of proposed work, but provings will at least be required at infrastructure crossing points or where changes to surface level condition are planned.

Additional verifications are required for works parallel and in close vicinity to existing gas assets. Physical provings at maximum 10 m intervals along straight sections of pipe, along with all bends, branch lines and customer service offtakes to verify asset locations.

Note: Live service offtakes which no longer supply consumers may protrude from the gas asset and are not traceable or identifiable from records.

Note: The maximum physical proving intervals for straight sections of pipe may be adjusted based upon the discretion of APA personnel for extenuating circumstances.

The following items must be considered when proving the location of an existing gas asset:

- Provings must be conducted safely and in accordance with the requirements of **Section 5.5.2**. If damage to a gas asset does occur it should be reported immediately to APA as described in **Section 1.3**.
- Permit and site watch by an APA Networks representative may be required for some proving activities in accordance with **Section 5.2**.

3.3 APA Notification and Authorisation Process

Prior to the third party undertaking any works/ activities or as part of the planning and design phase, the third party shall ensure a BYDA request is submitted. The automated response received from the BYDA system will be tailored based on the criticality of the assets.

For assets operated at distribution pressures and not considered critical mains, a Duty of Care Notice is provided with the BYDA response for the third party to consider. Site watch may be necessary under a duty of care notice where additional protection or other integrity concerns require it.

In the event that works are conducted within the Protected Zone of a transmission pipeline and/ or critical distribution main, these works will require a review approval received from APA prior to commencement of works. Works subject to this requirement are deemed to include, but not limited to, the following activities that fall under **Table 3**;

- Non Destructive Digging (**NDD**);
- Mechanical excavation including trenchless excavation i.e. drilling (boring, horizontal direction drilling (**HDD**), pipeline bursting and tunnelling) for installing infrastructure such as the following;
 - o Roadways, driveways, railways, pavements;
 - o Electrical equipment (cables, overhead transmission lines, telecommunication cable or power poles);
 - o Installation of culverts/ pipes (water, drainage, sewer or reticulation);
 - o Landscaping.

APA will not approve certain activities and structures in the transmission pipeline easement (if applicable), including the following;

- Permanent storage;
- Installation of billboard structures;
- Use and storage for explosives, flammables or corrosives;
- Blasting;
- Structures forming part of any house, house extensions, carports or entertainment areas;
- Dams and other manmade water features. Locations of dams off the pipeline easement/ protected zone must not create run off or drainage towards the pipeline easement;
- Chemically treated effluent coming in contact with the pipeline easement/ protected zone;
- Garbage, sand fill, refuse disposal;
- Airstrips.

The Third Party must submit an enquiry to APA at the earliest possible stage to allow sufficient time for assessment. Submissions should include the following information;

- Land description and map identifying location of the proposed works;
- Types of works to be carried out;
- Intended future use of the land (where relating to change in land use)
- Type and weight of machinery that will be used;
- Any plans or diagrams of the works;
- Timeframe for the works.

The sequence of obtaining APA approval is as follows;

- a) Submit enquiry for Initial Review – The Third Party submits the request prior to works commencing and APA Networks will complete an 'Initial Review'. The third party must not progress any works on site until they receive a response from APA Networks. The two possible outcomes of this stage are a 'No Impact' response or;
- b) Enquiry Escalated for Standard Assessment – The request will be forwarded to APA Networks Field or System Operations personnel for a more detailed appraisal, which may involve contacting the third party, site visits, locating of assets of site, and/or request for additional information. The third party must not progress any work on site until they receive a response from APA Networks. The two possible outcomes of this stage are a 'No Objection under standard conditions' response or;
- c) Enquiry Escalated for Engineering Assessment – The request has been forwarded to the Integrity Third Party Engagement team for additional appraisal and determination of specific conditions. The third party must not progress any works on site until they receive a response from APA Networks. The two possible outcomes of this stage are a 'No Objection under special conditions response' or;

- d) Enquiry Escalated for Alteration – The Integrity Third Party Engagement team triggers the alteration process for this enquiry. The third party will be contacted for additional information and must not progress any work on site until they receive a response from APA Networks.
- e) No Impact – The third party receives a ‘No Impact’ response and can proceed with the works under appropriate APA Networks requirements e.g. Duty of Care, Authority to Work Permit and/or Site Watch.
- f) No Objection Under Conditions – The third party will receive a No Objection under standard or special conditions response and can progress with the planning of the works under the conditions specified in the response and appropriate APA Networks requirements e.g. Duty of Care, Authority to Work Permit and/or Site Watch.

Figure 2 Stages for Third Party Works Authorisation Request

For works around APA Networks transmission pipelines or critical mains the documents take precedence in the following order;

- APA Authority to Work Permit (**ATWP**)
- APA accepted Third Party Construction Drawings
- APA accepted Third Party Construction Methodology
- APA Networks Guidelines for Works Near Existing Gas Assets (this document)
- APA accepted Third Party Safe Work Method Statement (**SWMS**) (if applicable)

3.4 Commercial Agreement and Service Delivery

APA will undertake a review of Third Party Works, as required. At APA's discretion cost recovery for these works may be required. Where APA Networks requires cost recovery a commercial service agreement in the form of a Works Agreement will be required.

Note: Any third party works requiring blasting, seismic and/or tunnelling work near APA Networks operated assets will not be considered “low risk” and cost recovery for detailed review maybe required.

3.5 Decommissioned Gas Assets

Decommissioned gas assets that remain in the ground are not always shown on BYDA plans.

Where unknown assets are identified or suspected on site but are not on APA plans, they must be treated as being live. In this instance, the third party must contact all utility owners and operators in the area of the BYDA and notify them of the findings.

Following review, if APA accepts that it is a decommissioned gas asset, the asset must be treated as per the requirements of this document. APA will take no further action where it is not considered to be a decommissioned gas asset.

Guidelines for Works Near Existing Gas Assets
400-STD-AM-0001 Revision 2

In some cases, decommissioned gas assets are required for future use by APA (sometimes noted as “Idle” on APA plans). These assets must be treated as live using the same criteria outlined in this document, and must not be removed or altered without APA’s express written approval.

Where APA confirms there is no future use of a decommissioned gas asset (sometimes noted as “Abandoned” on APA plans), removal of the asset can be undertaken by the third party under the following conditions:

- For assets considered by APA to be decommissioned gas assets, APA must be engaged to verify that the asset is gas free;
- End caps must be permanently sealed, using an APA approved methodology, on any decommissioned sections that are to be left in place to prevent future water ingress into the remaining sections of the decommissioned gas asset;
- An as-built drawing must be submitted by the third party for any section(s) of a decommissioned gas asset removed by the third party or its sub-contractors to ensure BYDA can be updated accordingly; and
- Payment for costs associated with any verification or alteration activities must be provided prior to APA undertaking works.

4 PART 2 - DESIGN AND ASSET PROTECTION REQUIREMENTS

4.1 Standard Clearances

Minimum clearance dimensions outlined in this section must be met to allow for safe future maintainability and protection of existing gas assets. If separation clearances cannot be achieved, APA will review the proposed infrastructure on a case-by-case basis to determine whether a resolution can be achieved before alteration of any existing gas assets is considered. Authorisation of works by APA is still required, regardless of being able to achieve the required separation distances.

Clearances specified in **Table 2** are measured from the closest edges of the existing gas asset to the proposed infrastructure. Depending on the exact nature of proposed infrastructure, additional clearance may be required.

Note: Clearances specified herein are from gas assets, third party utilities may have their own standard separations that exceed APA's minimums specified in **Table 2**.

The future access zone required around a gas asset depends upon a number of factors such as size, operating pressure, depth and soil conditions, but typically this access zone is at least 1000 mm either side and 700 mm below the gas asset. As an aid for design and / or installation, the minimum clearances presented in **Table 2** are provided to allow for safe future access to gas assets. These minimum clearances assume that the asset have been proven and the location verified. There may be circumstances where additional clearances are required.

Table 2 Minimum Clearances

Clearance Type (Note 2, 9)	Minimum Transmission Pressure Asset Clearance	Minimum Distribution Pressure Asset Clearance
Any installation up to 0.6 metres wide which is crossing the gas asset	500 mm Vertical (Note 2)	300 mm Vertical (Note 2)
Any installation over 0.6 metres wide which is crossing the gas asset	500 mm Vertical	300 mm Vertical (Note 2)
Any installation laid by trenchless excavation e.g. HDD, boring, etc.	3000 mm Vertical	600 mm Vertical
	Refer to Section 5.6 for minimum horizontal separation distances	
Any installation laid parallel to a steel gas asset	600 mm Horizontal (Note 2, 3)	
Any installation laid parallel to any gas asset other than steel	N/A	300 mm Horizontal (Note 2, 3)
Trenching separation from edge of gas asset to edge of trench (Note 4)	500 mm Horizontal	300 mm Horizontal
Underground electrical cables laid parallel to any gas asset other than steel	N/A	300 mm Horizontal
Electrical conduits and cables (<11 kV) laid parallel to a steel gas asset	Engineering assessment required (Note 2, 3)	
Electrical conduits and cables (≥ 11 kV) laid parallel to a steel gas asset	(Note 2, 3) Engineering assessment required (Note 7)	

Guidelines for Works Near Existing Gas Assets
400-STD-AM-0001 Revision 2

Electrical earthing systems near a steel gas asset	High Voltage: Engineering Assessment Required Low Voltage: 300 mm Horizontal (Note 7)	
Electrical earthing system near any gas asset other than steel	N/A	300 mm Horizontal
Clearance Type (Note 2, 9)	Minimum Transmission Pressure Asset Clearance	Minimum Distribution Pressure Asset Clearance
Undisturbed cover from the top of the gas asset to the underside of trenching or road pavement boxing	500 mm Vertical	300 mm Vertical (Note 1)
Distance from predominant building line	3000 mm Horizontal Where applicable outside pipeline easement	Refer to Section 4.2
Distance from Sensitive Use Locations (Refer Section 7 for Glossary of Terms and Abbreviations)	APA Engineering Assessment Required (Note 8)	N/A
Canopies longer than 15 m parallel to the edge of the gas asset	3000 mm Horizontal (Note 10)	Refer to Table 4 (Note 10)
Any installation that could add excessive loads to the gas asset or restrict access to the gas asset	3000 mm Horizontal (Note 2)	
Any installations that may need require underpinning were APA to expose the gas asset	3000 mm Horizontal	
Any temporary stake, e.g. star picket	300 mm Horizontal	
Electrical poles including street lighting and traffic signals	3000 mm Horizontal Where applicable outside pipeline easement	1000 mm (Note 3, 5, 6, 7)
Fence post, including road safety barriers	3000 mm Horizontal when installed per APA requirements	500 mm Horizontal when installed per APA requirements
Pile or pier	3000 mm Horizontal when installed per APA requirements	500 mm Horizontal when installed per APA requirements
Permanent Heavy Vehicle Loads (Greater than 4.5T)	Refer to Section 4.7 Temporary and Permanent Vehicle Loads	
Tree Root Barrier	3000 mm Horizontal	1000 mm Horizontal Refer to Section 4.3 Landscaping Plans
Separation distances for vegetation	Refer to Section 4.3 Landscaping Plans	

Note 1: For distribution main crossings, where the vertical separation distance is less than 300 mm physical protective slabbing, e.g. HDPE or concrete, shall be installed where the other utility is crossing beneath the APA pipeline/distribution main.

HDPE or concrete, shall be installed where the other utility is crossing above the APA pipeline/distribution main.

No protective slabbing is required for utility crossings greater than 500 mm separation.

Note 2: Structures and large utilities crossing APA Networks operated assets need to be self-supporting so that future repairs or maintenance of the asset can occur as per **Section 4.2 Third Party Assets and Structures**.

Note 3: Horizontal separation includes utility surface access pits, thrust blocks and/ or footings.

Note 4: Additional horizontal separation may be required depending on the extent of the planned works, local soil conditions and trench stability of the existing gas asset. This is particularly relevant where works occur within the angle of repose of the existing gas asset (e.g. parallel trenching that is deeper than the existing gas asset) and may result in undermining.

Note 5: In accordance with 'AS/NZS 4853 – Electrical hazards on metallic pipelines' without further information and APA engineering assessment, no electrical power poles for 66kV or above are permitted within the following separation distances of steel gas assets;

- If the power line has an Overhead Earth Wire (**OHEW**) – 15 m;
- If power line does not have an OHEW – 100 m;

Note 6: Where electrical poles (including street lighting and traffic signals) are proposed which place the gas asset within the no dig zone specified by the electrical authority either of the following shall occur;

- a) The poles shall be designed with deeper foundations to be self-supporting if the gas asset needs to be excavated. Or;
- b) For non-metallic assets relocated into a conduit that extends past the no dig zone.

Note 7: Clearance for electrical cables and earthing systems from steel gas assets must be reviewed in accordance with **Section 4.6 Earthing and Electrical Effects**. Electrical cables, substations and/or earthing systems installed in the vicinity of steel gas assets require an Earth Potential Risk (**EPR**) and Low Frequency Induction (**LFI**) assessment to AS/NZS 4853.

Note 8: Requires a setback distance to stay away from the Measurement Length (refer to **Table 14 Glossary of Terms and Abbreviations**). Alternatively, the setback distance may be reduced if protection slabbing is installed along the Sensitive Use Location where interaction with the Measurement Length occurs. This may also be limited to the development area subject to APA engineering assessment.

Note 9: Pipeline protection needs to be assessed and shown on the design plans with design clearances. This includes recoating, bridge slab or asset strike protection slab.

Note 10: Clearance may be dependent on demonstrating that there is sufficient continuous ventilation.

For construction and land use activities around gas assets the minimum horizontal clearances referenced in **Table 3** must be followed.

Table 3 Minimum Clearances for Construction Works and Land Use Activities

Construction and Land Use Activities	Minimum Horizontal Clearance	
	Transmission Pressure & Critical Distribution Mains	Non-Critical Distribution Pressure Mains
Excavation without APA representative present (Note 1)	3000 mm	N/A
Trenchless Excavation (Note 1)	3000 mm Refer to Section 5.6	1000 mm Refer to Section 5.6
Temporary Heavy Vehicle Traffic (greater than 4.5T)	If the load has not been assessed, maintain a Horizontal separation of 3000 mm. APA engineering assessment must be completed if crossing asset. Refer to Section 4.7 Temporary and Permanent Vehicle Crossings	Refer to Section 4.7 Temporary and Permanent Vehicle Crossings
Installation of Piles, Piers or Poles	Refer to Table 2 and Section 5.7	
Hot Works from Construction Activities	Any hot works within 5000 mm of an open trench containing gas asset or where cover is less than 300 mm. Refer to Section 5.8. (Note 2)	
Compaction	Section 5.10 for Compaction Limits Maximum Compaction Limits	
Vibration Limits	No vibration within 3000 mm of the pipeline and greater distance to comply with Section 5.9	
Blasting, Seismic Survey or the use of Explosives	Approval required for works within 100m. Refer to Section 5.11.	
Lifting over exposed gas asset	Not permitted over the gas asset. Refer to Section 5.12 for Suspended Materials above Gas Assets and No Go Zones for Cranes.	
Clearance of crane outriggers to gas assets	Not permitted within 3000 mm of gas asset. Refer to Section 5.12 for Suspended Materials above Gas Assets and No Go Zones for Cranes.	
Clearance of temporary material from pipeline	Not permitted within 3000 mm of gas assets. Refer to Section 5.13 for Temporary Materials.	

Note 1: Excavation covers NDD, mechanical excavation and trenchless excavation (boring, HDD, pipeline bursting and tunnelling).

Note 2: Horizontal separation distance also applies to any pits or valve covers.

4.2 Third Party Assets and Structures

Structures, including but not limited to buildings, walls, canopies, footings, pile caps or retaining walls, must not transfer any load to or be installed over any gas asset.

The design of any third party asset or structure must take into account future safe access of any gas assets in the vicinity. The proposed third party asset or structure must be installed in a way that prevents the angle of repose from encroaching into the future access zone as specified in **Section 4.1** around the existing gas asset.

Any third party asset or structure installed within proximity to a transmission pipeline or critical distribution pressure main must be designed to be self-supporting and allow for a minimum excavation window 1m on either side of the asset and 700 mm below the edge of the asset, for maintenance of the asset. This self-supporting design information is required to be shown on the construction drawings supported by geotechnical data and calculations. Construction of structures on pipeline easements are not permitted without explicit consent from APA.

Distribution pressure gas mains must be offset from the expected predominant building line at a distance in accordance with **Table 4**. Transmission pressure gas assets shall be per **Table 2**.

Table 4 Minimum Building Offset Distances for Distribution Pressure Gas Mains

Diameter (DN)	MAOP (kPag)			
	≤210	>210 ≤ 420	>420 ≤ 600	>600
≤110	0.5 m	0.5 m	1.0m	3 m
>110 ≤ 160	0.5 m	0.5 m	3 m	5 m
>160	0.5 m	3 m	3 m	8 m

Gas assets may be located underneath curbing or strip footings for road safety barriers for short sections up to 10 m to allow for tapers. The integrity of the gas asset to be located underneath the curbing or strip footing may require inspection, repair, recoating and / or slabbing depending on the existing condition and extent of proposed works.

Posts or poles which are located in road reserve, or otherwise exposed to vehicle impact, must be designed such that there will be no damage to the gas asset in the event of a vehicle impact.

For works in Victoria, consent from the relevant State Minister is required under Section 120 of the *Pipelines Act 2005* (VIC) for the erection of structures or buildings within 3,000 mm of a transmission pressure asset. Ministerial consent must be arranged through Energy Safe Victoria (**ESV**) following review and acceptance of the proposed designs by APA Networks.

4.3 Landscaping Plans

Vegetation may limit line of site, access and passage along an existing gas asset alignment, while the associated roots may damage existing buried pipe, coating or other ancillary equipment (e.g. cables). Above ground gas infrastructure may also be exposed to hazards from falling vegetation and increased fire risk. Additionally, trees and tree roots may limit access to the gas asset in an emergency, during normal operations and when make new connections or modifications.

Landscaping plans which include vegetation should select tree species which do not have vigorous root activity and do not exceed above 5m in height when fully mature when planted within 3m of gas assets. The pre-selection of trees considered suitable for planting within road reserves and near gas assets should also consider interference with, or damage to, other underground and overhead services.

For all landscaping works within 3 m of transmission pressure or critical distribution pressure gas assets the following details must submitted to APA for review and approval prior to planting.

- Tree species – botanical and common name
- Mature tree buttress and canopy diameter
- Mature tree height

Guidelines for Works Near Existing Gas Assets
400-STD-AM-0001 Revision 2

- Maximum root ball diameter
- Offset from gas asset
- Method of protection to gas asset

Trees to be planted within 3 m of transmission pressure or critical distribution pressure gas assets, should also adhere to **Table 5** below.

Note: Horizontal separation is measured from pipe edge to edge of mature trunk or mature drip line, whichever is the greater.

Strata cells are not considered an appropriate protection from tree roots. If strata cells are to be installed in the vicinity of existing buried gas assets, the controls identified in **Table 5** must be used for protection.

Table 5 Protection of Distribution Gas Assets from Vegetation

Vegetation Types	Requirements	Horizontal Separation from Pipe Edge to Vegetation			
		Greater than 3 m	1.5 to 3m	1.5 to 0.5 m	<0.5 m
Trees or Large Shrubs	Min. separation of 3 m is required between trees and pipe if no protection methods are utilised.				
Medium and Small Shrubs	Within 1.5 m – 0.5 m protection methods must be utilised.				
Ground cover and grasses	No protection methods required.				
Gas Protection Methods					
	No protection methods required, provided separation limits are followed.				
	Within 3 m, tree species which have mature buttress diameters less than 0.15 m and do not have invasive or deep roots may be accommodated without protection methods after consultation with APA Networks (Note 1). For trees with mature buttress diameters greater than 0.15 m one of the following gas protection methods must be implemented; 1. Lowering or relocation of the gas asset to a minimum of 1.2 m cover. 2. Installation of new gas conduit beyond the structural root zone (SRZ) of the mature tree species for future use. (Note 2) 3. Installation of a root barrier system. System to be 1 m deep or extend 250mm below the gas asset, whichever is the greater.				
	Within 1.5 m installation of a root barriers system is mandatory and gas protection methods are as follows; 1. Installation of a robust root barrier system. System to be 1 m deep or extend 250 mm below the gas asset, whichever is the greater. AND 2. Lowering or relocation of the gas asset to a minimum of 1.2 m cover. OR 3. Installation of new gas conduit beyond the SRZ of the mature tree species for future use. (Note 2)				
	Planting directly over gas assets is not permitted in any location, as it prevents emergency and maintenance access. Tree roots can damage gas asset resulting in gas leaks.				

Note 1: Refers to the minimum 1.5 m structural root zone for a mature buttress diameter less than 0.15 m mandated under AS 4970 – Protection of trees on development sites.

Note 2: Suitable protection method for PE mains only. Conduits to be recorded in Geographic Information System (GIS) for future referencing.

Note 3: On transmission pressure assets vegetation must not limit line of site along the buried gas assets alignment, all signage must remain each in sight of the other.

4.4 Surface Levels and Conditions

Decreases or increases to surface levels must consider depth of cover requirements for gas assets specified in **Table 6**. This is in addition to maintaining a minimum working cover from the top of the gas asset to the underside of trenching or road box out works during construction as specified in **Table 2**. Vehicles must not cross gas assets at covers less than those specified in **Table 6** unless in accordance with **Section 5.10** for Compaction Limits or **Section 4.7** for Temporary and Permanent Vehicle Crossings.

Where existing surfaces are to be modified, finished cover levels are not to be reduced to less than existing levels, unless meeting the minimum requirements of **Table 6**. The requirement for, and the extent of, protective slabbing over any APA Networks operated asset will be determined by APA at its sole discretion with adherence to minimum depth of cover without physical protection as the preference. Depending on the location, local councils and relevant road/ rail authorities may have minimum depth of cover requirements that APA are required to meet which are more stringent than those listed in **Table 6**. Depth of cover requirements for individual consumer offtakes (service connections) are also provided in **Table 7**.

Details of any additional fill proposed to be placed on or within 3 metres of a gas asset, or within any applicable easement, must be clearly shown on plans and must be approved by APA Networks in writing. A maximum depth of cover of 2,500 mm for transmission pressure assets and 2000 mm for distribution assets apply in all locations; however, it is preferred not to exceed 1500 mm for both types of assets.

Table 6 Minimum Depth of Cover Requirements for Pipelines and Mains

Asset Location	Minimum Depth of Cover (Note 3)	
	Transmission Pressure Asset	Distribution Pressure Asset
Under Minor Road Pavement (Note 1)	1,200 mm 1,200 mm to 1,000 mm with physical protection slabbing and APA engineering load assessment	750 mm 750 mm to 600 mm with physical protection slabbing and APA engineering load assessment
Under Major Road Pavement (Note 2)	1,200 mm 1200 mm to 1,000 mm with bridging slabs (Note 4)	1,200 mm 1200 mm to 750 mm with bridging slabs (Note 4)
In Road Reserve but not Under Road Pavement	900 mm 900 mm to 750 mm with protective slabbing contingent upon pipeline location class	750 mm 750 mm to 600 mm with protective slabbing
Not in Road Reserve	900 mm 750 mm with protective slabbing contingent upon pipeline location class	750 mm for > 210 kPa 600 mm for ≤ 210 kPa
Railway Reserve	2000 mm (Note 5)	
Large Open Drain or Major Water Crossing	2000 mm (Note 6)	

Note 1: Minor road pavements typically are owned by local councils.

Note 2: All roads owned by state and federal authorities are major roads. Roads owned by council may be major or minor roads. Covers less than 1200 mm may require dispensation from the relevant road authority.

Note 3: Protective slabbing must be installed where minimum depth of cover requirements cannot be met or are required to meet specific safety requirements. Bridging slabbing for transmission pressure assets may be replaced with protection slabbing following APA engineering assessment.

Note 4: The requirement for bridging slabs can be downgrade to physical protection slabbing where APA engineering assessment is completed and approved.

Note 5: Installation within railway reserve shall be in accordance with both AS 4799 and the respective operating standard for the gas assets i.e. AS 2885 and AS 4645.

Note 6: The minimum depth of cover of 2,000 mm shall consider future scour of the drain or waterway crossing. For man-made drains the depth of cover can be reduced to 1200 mm if sealed (i.e. concreted) and appropriately designed. For transmission pressure assets, waterway crossings shall be designed in accordance with AS 2885.1 – 2018 Clause 5.8.6.2. For all assets, as a minimum the following shall be considered;

- a) A hydrological investigation to determine the stream power under peak stream, watercourse or waterway flows. The investigation shall determine the 1 in 100 year flood and the probable maximum flood and intermediate (optional) flood conditions.
- b) A geotechnical investigation to determine the physical parameters of the crossings, and using the information from the hydrological investigation, the erosion potential. This assessment should also consider the meander potential of the watercourse so that the limits of special construction can be defined.

Table 7 Minimum Depth of Cover Requirements for Customer Offtakes (Services)

Asset Location	Customer Offtake size	
	≤ DN50	> DN50 and ≤ DN110 (Note 1)
Roadway	450 mm	600 mm
Private Property	300 mm	450 mm

Note 1: Customer offtakes (services) with diameters greater than DN110 shall have depth of cover in accordance with **Table 6**.

Changes to surface conditions (e.g. changing from nature strip to road pavement) or which place the gas asset in an inaccessible position (e.g. with excessive cover) may require slabbing, recoating and / or relocation. Changes to surrounding surface levels or conditions must also consider drainage and the potential to result in erosion of cover for gas assets. Additionally, gas fittings such as valves, stopple fittings or flanges must not be located underneath road pavement. An APA Engineering assessment will be required if this is not feasible, refer to **Section 6**.

Where a new hardstand surface is installed on non-metallic distribution pressure mains (e.g. a painted concrete driveway), consideration should be given to including a casing or enveloper pipe to APA requirements for insertion of future gas assets. This will ensure that the new hardstand surface is not modified as part of the future gas installation. Where a casing or enveloper pipe is installed for future insertion works surveyed as-constructed records are to be provided to APA Networks for incorporation into the GIS records.

For transmission pressure gas assets, any landscaping material should be level within the easement or a minimum of 3 m (but preferably 6 m) to each side of the pipeline, to permit excavating equipment to operate without having to destroy the adjacent landscaping.

4.5 Casings Vent Stacks

Casings provide mechanical protection and protection to gas assets from external loadings. Some cased crossings are sealed and fitted with a casing vent stack, which gas leaks are identified via.

The following APA requirements are to be applied for works near casing vent stacks:

- Casing vent stacks cannot be removed unless an alternative arrangement has been approved by APA Networks or they have been assessed as being redundant;
- Unfettered access is to be maintained to casing vent stacks; and
- Minimum distance from casing vent stack discharge point to any electrical installation or overhead structure must be 1000 mm.

4.6 Earthing and Electrical Effects

Steel gas assets are susceptible to adverse effects from electrical sources such as above and below ground cables, substations, transformers, earth rods, cathodic protection systems or electrified tram / train lines.

Without any further information or engineering assessment, earthing systems for distribution ($\geq 11\text{kV}$) and transmission ($\geq 66\text{kV}$) power lines must satisfy the Earth Potential Rise (EPR) Level 1 (Conservative) compliance of AS/NZS 4853 – 2012 Table 4.3 & 4.5 which specifies separation distances from pipe appurtenances (e.g. valves, regulators, isolation joints), access points or earth points (including cathodic protection test points). For the potential hazards to be accepted as low risk on the basis of a Level 1 assessment the separation between a conductive structure or substation and pipeline subject to EPR shall be greater than the values given in **Table 8** below.

Table 8 Separation Distances for Pipeline Subject to EPR from Power Lines (Level 1 Assessment)

Fault Current or Actual Current (A) (Note 2, 3)	Separation Required (m) - Note 1			
	Distribution ($\geq 11\text{kV}$)	Power Line	Transmission ($\geq 66\text{kV}$)	Power Line
	100 $\Omega\cdot\text{m}$	500 $\Omega\cdot\text{m}$	100 $\Omega\cdot\text{m}$	500 $\Omega\cdot\text{m}$
150	40	190	N/A	N/A
300	80	390	N/A	N/A
500	130	660	N/A	N/A
750	200	1,000	N/A	N/A
1,000	270	1,300	60	310
3,000	N/A	N/A	190	940
6,000	N/A	N/A	380	1,900
10,000	N/A	N/A	635	>3,500

Note 1: Earth resistivity of 500 $\Omega\cdot\text{m}$ shall be used for dry sand or rock and 100 $\Omega\cdot\text{m}$ for all other cases.

Note 2: If the fault current is unknown for a distribution power line ($\geq 11\text{kV}$), a fault current of 1000 A shall be used for the first pass assessment.

Note 3: If the transmission power line ($\geq 66\text{kV}$) uses an OHEW, uses values up to 3,000 A (this assumes a current split of 30% of 10 kA). For lines without an OHEW, use values up to 10,000 A for current going down the structure.

Without any further information or engineering assessment, distribution (≥ 11 kV) and transmission (≥ 66 kV) power lines parallel to steel gas assets must satisfy the Low Frequency Induction (LFI) Level 1 (Conservative) compliance of AS/NZS 4853 – 2012 Table 4.2 & 4.4 which specifies maximum acceptable power line to pipeline exposure length.

Per AS/NZS 4853 – 2012 the pipeline exposure length (average separation for the parallel section) under LFI conditions shall be less than the values given in **Table 9** below.

Table 9 Exposure Length for Pipeline Subject to LFI from Power Lines (Level 1 Assessment)

Power line to pipeline separation (m)	Exposure Length (m) – Note 1		
	Distribution Power Line (≥ 11 kV) – 100 Ω .m	Transmission Power Line (≥ 66 kV) – 100 Ω .m	
5	180	95	
10	210	110	
20	240	127	
50	310	165	
100	400	210	
200	550	290	
500	950	500	

Note 1: Without soil resistivity data, assessments are to be completed assuming 100 Ω .m. If soil resistivity data is available refer to AS/NZS 4853 – 2012.

Where AS/NZS 4853 Level 1 EPR or LFI requirements cannot be achieved a Level 2 and/or 3 assessment will be required.

The third party must provide to APA detailed plans of any source(s) of earthing and/ or electrical effects proposed to be located in the vicinity of steel gas assets, with an assessment report compliant with AS/NZS 4853 Electrical Hazards on Metallic Pipelines. This assessment report is to determine any effects to existing cathodic protection or induced voltage mitigation systems from these types of installations. The third party must address any relevant requirements and any recommendations and/or actions must be implemented to the satisfaction of APA Networks. All cost association with the study, and implementing its recommendations and/ or actions are to be borne by the third party. The third party must also complete validation testing upon completion of construction and provide all findings/ reports to APA Networks.

Hazards which may arise due to electrical systems located in the vicinity of steel gas assets include the following:

- Accidental contact between gas assets and electrical systems;
- Capacitive coupling;
- Conductive coupling;
- Electromagnetic induction;
- Low Frequency Induction (LFI);
- Earth Potential Rise (EPR), including due to fault current or lightning discharge; and,
- Adverse cathodic protection interference in excess of those allowed under AS 2832.1 or relevant state regulations

4.7 Temporary and Permanent Vehicle Crossings

Vehicle crossings over existing gas assets are limited to light vehicles (Gross Vehicle Mass not greater than 4.5 tonnes unless advised otherwise by APA Networks in writing) on unsealed surfaces or Heavy Vehicles (compliant General Access Vehicles) on established road pavements.

Any proposed new crossings must be assessed and authorised in writing by APA Networks.

A maximum surface pressure of 400 kPa is allowable directly above buried gas assets. However, any surface pressure exceeding this limit or where cover over the gas asset has been reduced from **Table 6** will require an APA Engineering Assessment and approval.

Where soil conditions exhibit poor compaction and load bearing characteristics, such as wet soil conditions, equipment is not permitted to cross the gas asset irrespective of weight without establishing a stable sealed surface or road plates.

Crane footings or bog mats must not be placed where the angle of repose can influence an existing gas asset without express written approval by APA. Where the existing gas asset is within the angle of response, the maximum surface pressure due to the crane must be provided.

5 PART 3 - CONSTRUCTION AND LAND USE REQUIREMENTS

Extreme care should be exercised at all times when working around existing gas assets, as repair works will be fully chargeable and may result in delays to any works. Refer to the duty of care outlined in **Section 1.4** and the requirements of this section when selecting construction methods.

5.1 Land Use Change

Where works proposed by a third party may result in a change in land use within the Measurement Length (as defined in AS/NZS 2885.6 for Pipelines – Gas and Liquid Petroleum) of transmission assets, such works may also be subject to formal approval requirements through APA Networks and applicable local and state government planning processes.

This may also require a Safety Management Study (SMS) report be completed and approved by APA Networks. This SMS report is generated from an SMS workshop involving an independent SMS facilitator, third party and APA Networks. APA Networks is the owner of the SMS report and any resulting recommendation/ actions must be implemented to the satisfaction of APA Networks prior to the commencement of any physical works.

Certain categories of development, such as Sensitive Use Locations (refer to **Table 14 Glossary of Terms and Abbreviations**), are not appropriate to be located with the Measurement Length. In certain circumstances, the otherwise unacceptable risks associated with such developments may be alleviated with the aid of installing protective slabbing over the transmission pipeline or undertaking other protection and mitigation measures.

Sensitive Use Locations near transmission pipelines are designated under AS/NZS 2885.6 and identify land where the consequences of a Failure Event may be increased because it is developed for use by sectors of the community who may be unable to protect themselves from the consequences of a pipeline Failure Event.

Sensitive uses are defined as follows;

- Schools, which includes colleges
- Hospitals and aged care facilities such as nursing homes, elderly people's homes
- Prisons and jails
- Sheltered housing
- Buildings with five or more stories
- Large community and leisure facilities, large open air gatherings
- Day care facilities
- Other potentially difficult to evacuate facilities
- Other structures as defined by relevant local councils.

For further information regarding the SMS process, refer to APA Networks Encroachment and Land Use Change SMS Trigger Procedure, **400-PR-L-0003**.

5.2 Permits and Site Watch

Transmission pressure assets and critical distribution pressure assets, must have a permit issued prior to proposed works in the vicinity of the existing assets, including any proving activities. Following the issue of a permit, a site watch inspector may be required to verify that the activities are carried out appropriately.

Other distribution pressure assets not considered critical will only require site watch as determined by APA Networks.

Where a permit is required, the response provided to the BYDA enquiry will include the relevant forms and process to be followed for submitting a permit request.

While BYDA recommends completing the request two business days prior to undertaking works, this is to ensure that the location information is obtained. This may not allow sufficient time for APA Networks to supply site watch. Further delays may be experienced if the proposed works are significantly complicated, do not meet the requirements of this document or if insufficient information is provided.

It is an offence in all jurisdictions to undertake activities in the vicinity of transmission pipelines without prior authorisation by the operator.

5.3 Coating Surveys and Leakage Surveys

Where proposed works have potential to indirectly damage pipe coating (i.e. due to compaction) or result in a leak of the gas asset (e.g. vibration of cast iron pipes), additional monitoring activities such as Direct Current Voltage Gradient (DCVG) or leakage surveys may be required.

If required, chargeable DCVG surveys will be conducted prior to works to establish any existing coating faults which exist on the gas asset. A subsequent DCVG survey will be conducted at the conclusion of works, and where new faults have developed on the gas asset, repairs shall be made with costs charged to the works owner. Surveys can be conducted prior to finalising road surfaces to avoid costly repairs.

A similar chargeable survey program can be applied where leakage surveys are required. However, additional surveys may be necessary throughout works to ensure work crews do not operate in a gaseous environment once leaks are caused.

5.4 Pipeline Repairs, Recoating and Slabbing

Buried steel assets operated by APA Networks are coated to provide protection from corrosion.

Where the surface conditions above a buried steel pipe are changed which may limit future access to the existing gas asset an assessment of the coating condition will likely be triggered.

The requirement for pipeline recoating is assessed by APA Networks on a case by case basis, based on the proposed works, but will generally be dependent on the following:

- The asset class;
- The existing coating type, age and condition;
- Increase in loading that can bring forward any pipeline anomalies; and,
- Changes limiting access to the existing asset(s), such as the installation of slabbing, road pavement, culverts, embankment ramps or any other feature.

A chargeable coating survey carried out in accordance with **Section 5.3** may be required to assess the condition of the existing gas asset coating.

Recoating and/ or associated slabbing works over any gas asset will be determined by APA Networks Engineering Assessments and any applicable risk assessments (Safety Management Study or Formal Safety Assessment).

Pipeline repairs, recoating and slabbing that form part of any third party commercial agreement will be charged to the third party.

The requirement for, and the extent of, slabbing over any APA Networks operated asset will be determined by APA at its sole discretion and may depend on factors other than only changes in depth of cover discussed in **Section 4.4**. Slabbing may be required for the following reasons:

- Removable protective slab to provide protection from third party mechanical excavation;
- Bridging slab to provide protection from external loadings e.g. insufficient depth of cover combined with vehicle traffic.

Slabbing must be installed with adequate separation from the pipe, which may impact the undisturbed cover requirement, and cannot be installed directly underneath road pavement or at surface level.

Any bridging slab designs prepared by a third party must be accompanied by certification from the registered practising structural engineer (Registered Professional Engineer Queensland (**RPEQ**) required for works in Queensland, and so on as required for other States and Territories) confirming that the design is adequate to prevent pipeline loading.

5.5 Exposure of Buried Gas Assets

5.5.1 General

Excavation works covers Non-Destructive Digging (**NDD**) and mechanical excavation. All such excavations must be completed in accordance with APA's direction.

The Third Party or its Contractor can perform exposure works on APA Networks operated assets via NDD using vacuum excavation and subsequent mechanical excavation works under the following conditions:

- **A current BYDA request is available for the works.**
- An approved Authority to Work Permit (**ATWP**) is issued for works near transmission pipelines or critical mains.
- APA Site Watch Officer is present for works near transmission pipelines or critical mains as outlined on the ATWP.
- The Third Party (or its Contractor) shall ensure they have their own SWMS, Risk Assessment, Environmental Management Plan, Tool Box Talk, Traffic Management and Pre-Start in line with their own corporate policy in place prior to works commencing.
- All underground assets have been identified by surface marking where within or close to the excavation area prior to proceeding with planned proving works (i.e. hand or NDD (e.g. Hydro-Vacuum Excavation). Any non-recorded assets should be identified prior to breaking ground (e.g. excavation or cutting).
- A check for gas leaks has been conducted prior to the commencement of work.
- If the mechanical excavation operator cannot see the spotter (where applicable, APA Site Watch Officer), he or she must stop moving immediately and not resume movement until contact has been established. Spotters must be aware of their surroundings and should never walk into the path of a vehicle, moving equipment or a swinging load. They need to scan the ground to become aware of any trip or fall hazards.
- If excavations are greater than 1.5 m or ground conditions are considered unstable benching/ battering/ shoring must be utilised. Additionally, appropriate ladders/ ramps or steps must be utilised to ensure safe access and egress.
- **Under no circumstances is mechanical equipment to be used within 300 mm of any gas asset.**

5.5.2 Physically Proving Gas Assets

Prior to mechanical excavation of the gas assets, the asset shall be physically proven by NDD or through the use of hand excavation. The method used will vary based on the criticality of the asset. The requirements in **Section 5.5.1** shall be implemented prior to physically proving the gas asset.

Technique 1 – Vacuum Excavation (Critical and Non-Critical Gas Assets)

A vacuum truck can be used to prove and expose the gas asset. Please ensure the requirements detailed in **Section 5.5.3** are adhered to.

Technique 2 – Hand Excavation (Critical and Non-Critical Gas Assets)

If the anticipated depth of cover of the gas asset is less than 1m (measured from the top of pipe) then hand excavation shall be used to expose the gas asset. The use of round edge shovels should be used to avoid damage to the pipe or coating. In the event that the anticipated depth of cover of the gas asset is greater than 1m then mechanical excavation can be undertaken in accordance with the requirements of **Section 5.5.4** but must stop when within 1m of the gas asset (i.e. 1.3m anticipated depth means that 300 mm of cover can be removed by mechanical excavation and the

remainder by hand excavation as described above. The anticipated depth shall be based on the shallowest result from BYDA or pipe locator.

Technique 3 – Hand + Excavation (Non-Critical Gas Assets ONLY)

If the gas asset is deemed non-critical then a combination of hand digging and excavation can be used. This technique requires the third party to hand excavate 300 mm then mechanically excavate the first 150 mm. In this technique the hand excavation shall always lead the mechanical excavation by 150 mm. Once within 300 mm of the gas asset then only hand excavation is allowed.

5.5.3 Hydro-Vacuum Excavation

Where hydro-vacuum excavation is used in the vicinity or to expose existing gas assets, the following conditions must be applied:

- Ensure the general requirements in **Section 5.5.1** are adhered to prior to the works commencing.
- Root cutting heads shall not be used at any time.
- When locating pipelines and mains, a maximum water pressure of 2500 PSI (17200 kPa) may be used to a depth no greater than 450 mm. Below this depth, the maximum water pressure shall be set in accordance with **Table 10** for the asset type in the vicinity.
- When locating customer offtakes (services), a maximum water pressure of 2500 PSI (17200 kPa) may be used to a depth no greater than 300 mm. Below this depth, the maximum water pressure shall be set in accordance with **Table 10** for the asset type in the vicinity.
- Where air is used in place of water the air pressure shall not exceed 175 PSI (1200 kPa).
- A minimum distance of 200 mm shall be maintained between the nozzle tip and subsoil and vertical movements avoided (i.e. nozzle shall not touch or be inserted into soil).
- The wand shall never remain motionless during excavation. Aiming directly at the gas asset shall be avoided at all times.
- NDD vacuum equipment must not come into contact (impact) with the pipe or coating.
- Once a gas asset has been exposed via hydro-vacuum methods, a visual check must be undertaken to ensure no damage has occurred to the pipe or its coating. Damage caused to the pipe coating by the third party will be chargeable.
- A dead man trigger or similar, shall be installed and used on the wand.
- If conduits are to be installed for identification of the gas assets location the conduit shall be offset to one side and recorded or a flexible conduit installed over the gas asset. The placement of PVC pipes directly on the gas asset may cause damage to the pipe coating and require repair at the contractor's expense.
- Vacuum excavated holes shall be cleaned of any rocks and debris and backfilled with a minimum 300 mm of sand.

Personnel operating NDD equipment shall monitor ground conditions to determine and adjust for the lowest water pressure setting and vacuum used to adequately expose the gas asset. The objective shall be to use the lowest possible pressure and vacuum required to adequately excavate in order to minimise risk of coating and/or pipe damage. **Table 10** provides the maximum water pressure to be used for various pipe and coating types.

Table 10 Maximum Water Pressure for Hydro-Vacuum Excavation

Pipe / Coating Type		Max. Water Pressure (PSI)	Pipe / Coating Type	Max. Water Pressure (PSI)
Steel	Coal Tar Enamel Coated	1,000	Steel – Mummified fittings (e.g. valves, flanges)	Not Permitted
	Polyethylene Tape Coated	1,000	Cast Iron	1,000
	Polyethylene Coated	2,000	Polyethylene	2,000
	Trilaminate Coated	2,000	Nylon or PVC	1,500
	FBE or HBE Coated	2,000	Unknown Material or Steel Pipe Coating	1,000
	Uncoated	2,500		

5.5.4 Mechanical Excavation

Prior to commencing any excavation works the general requirements in **Section 5.5.1** must be adhered to.

Where works are to be carried out within 3 m of the gas alignment and to 1 m of the known gas main depth, the contractor is required to pothole and expose the gas asset as outlined in **Section 5.5.5**.

Prior to the mechanical excavation commencing ensure the excavator is in working order and all pre-start equipment checks are completed.

Excavators with general purpose buckets (e.g. mud bucket, general purpose teeth) up to 30 tonnes are permitted to conduct mechanical excavations in the vicinity of existing APA gas assets in accordance with APA requirements. Any variation of excavator size or bucket type will require assessment and approval by APA Networks. Buckets with any type of tiger or penetration teeth are not permitted unless explicitly approved by APA Networks.

Critical Gas Assets

No mechanical equipment shall be used within 1 m of the potholed depth of the critical gas asset, except under explicit on site direction from an APA representative (i.e. APA Site Watch).

Under no circumstances is mechanical equipment to be used within 300 mm of any gas asset.

Once the gas asset has been positively proven, as outlined in **Section 5.5.2**, mechanical excavations can commence at a minimum of 300 mm offset from the outer edge of the pipe. The third party shall not mechanically excavate directly over a critical gas asset, with hand excavation only directly over the alignment or to expose the asset.

Figure 3 Gas Asset Side Excavation Method

Non-Critical Gas Assets

Mechanical excavation is permitted directly over the top of non-critical gas assets however **under no circumstances is mechanical excavation equipment to be used within 300 mm of any gas asset**. If the third party is in doubt with regards to the criticality of the gas asset, then the excavation method outlined for critical gas assets shall be used.

Prior to the mechanical excavation commencing, the asset shall be physically proved as outlined in **Section 5.5.2**. Once the depth has been physically proven the third party can proceed with excavating around the gas asset until within 300 mm. From this point hand excavation or NDD is required.

5.5.6 Protection During Exposure

Additional protection measures are required where an exposed gas asset may be subject to impact from construction activities, sagging of exposed pipe and trench instability. Any works requiring exposure and protection of the gas asset should have an accompanying methodology and approval by APA Networks.

Physical protection (e.g. structural steel protection, sandbags, wrapped with split PVC pipe) should be installed around the exposed gas asset when exposed, particularly when new infrastructure is planned to be installed crossing below the gas asset. If the gas asset is to be exposed for longer than one day or otherwise left unattended, suitable barricades, security fencing and/ or steel plates will be required to provide protection from vehicles, dropped objects (such as construction materials) or vandalism.

Unsupported exposed pipe lengths require protection from sagging by using suitable supports such as sandbags or slings. Where slings or other support types come into contact with the gas asset, protection methods must be employed (e.g. wrapped with split PVC pipe) to prevent damage to the existing pipe or coating. Exposed unsupported joints must also be identified and supported during works. The maximum allowable length of exposed pipe without support is provided in **Table 11**.

Table 11 Maximum Unsupported Lengths of Exposed Pipe

Table 12 Maximum Unsupported Lengths of Pipe by Type			
Gas Asset Diameter (mm)	Steel Maximum Unsupported Length (mm)	Polyethylene Maximum Unsupported Length (mm)	Other Material Maximum Unsupported Length (mm)
≤20	2,000	1,500	1,500 (Note 1)
>20 & ≤63	2,800	2,000	
>63 & ≤100	3,600	3,000	
>100 & ≤150	4,200		
>150 & ≤250	5,000		
>250	5,700		

Note 1: Particular care should be taken for other materials include cast iron, PVC or nylon due to the unpredictable nature of the joints.

Additional protection and support during trench or bell-hole excavation works to minimise ground instability may also be necessary to protect the integrity of existing gas assets during exposure works. Trenches are to be inspected prior to commencing works each day and monitored by the onsite party responsible for the excavation. APA shall be notified of any condition likely to affect the stability of trench.

Any deep excavations, within 3 m of a gas asset, shall be designed and constructed such that the effects of subsidence, collapse or extreme weather will not affect the gas asset. Any such excavations prepared by a third party must be accompanied by certification from a registered practising engineer (RPEQ required for works in Queensland, and so on as required for other States and Territories) confirming that the design is adequate to protect the gas asset.

5.5.7 Backfill and Reinstatement

Prior to backfilling, a minimum of 150 mm of bedding sand must be placed around all gas assets. Bedding sand shall be in accordance with APA specification **400-SP-L-0002**, which can be provided to third parties upon request. The bedding must be compacted in accordance with **Section 5.10**, including suitable compaction and backfill of the underside of the gas asset to prevent any further vertical movement during subsequent layers above the asset. APA may require geo-fabric installation between different trench reinstatement products to prevent sand migration in which nonwoven fabric is required and needs to extend 1000 mm past either side of the utility crossing.

The bedding material shall be clean, free from all sharp objects, sandbags, clay material, vegetable matter, building debris and disused road paving material to the specification provided by APA. Recycled bedding material and stabilised sand must not be used unless explicitly approved by APA.

The remainder of the excavation shall be backfilled and compacted in accordance with **Section 5.10**, at maximum increments of 300 mm to a density which is similar to the surrounding sub-grade material. Only clean fill material shall be used, preferably the same as the natural soil in the area, and free from ash, weeds and pest plants, salt or any chemicals which could harm the gas assets. Where required, concrete slabbing shall be installed in accordance with **Section 5.4**.

In all circumstances gas warning tape / marker board shall be installed in accordance with the following requirements:

- Gas warning tape installed at 300 mm below finished surface level.
- Gas marker board installed 300 mm above the top of the pipe.

Note, where gas warning tape cannot be installed 300 mm below the finished surface level due to road pavement box out, marker board is to be installed 50 mm below the box out work zone.

In situations where a physical protection slab or bridging slab has been utilised an additional layer of gas marker board must be installed 50 mm above the slabbing.

The excavated area is to be reinstated to the original condition or as approved by APA and the relevant local council, road authority or landowner as applicable. Any marker signs removed during excavation works must also be reinstated in original positions. Additional marker signs may be required at new infrastructure crossings as directed by APA.

5.6 Trenchless Excavation

Trenchless excavation covers horizontal directional drilling (**HDD**), boring, pipe bursting and tunnelling. These activities are considered high risk that require additional controls to prevent damage to existing gas assets. This includes proving the existing gas asset location and depth for all horizontal bores, as well as providing a witness trench to verify that the bore will pass the asset with sufficient separation.

A witness trench must be used in addition to live electronic tracking of the bore head. The witness trench must be prepared to the specification provided in **Table 12**. The progressive measurement of the length of the bore must also be made and plotted along its proposed direction to ensure the bore head has not missed the witness trench. The bore head must be exposed in the witness trench, when the crossing is above the existing gas asset.

For all assets installed via trenchless excavation a vertical separation aligning with the maximum borehole diameter (e.g. reamed diameter) shall be demonstrated. For transmission pressure and distribution pressure assets this vertical separation distance is 1000 mm and 600 mm, respectively.

If the works run parallel to a transmission pressure or critical gas assets a minimum separation distance of 3 m must be maintained. For non-critical gas assets, the minimum separation distance of 1 m must be maintained. For works running parallel to gas assets, proving of the actual location of the gas asset must occur every 4 m.

Note: It is expected that HDD operators working near gas assets hold the national competency RIICCM202 – Identify, location and protect underground service.

Table 12 Minimum Witness Trench Dimensions

Crossing Type	Witness Trench Depth	Witness Trench Dimensions
Crossing Above Existing Gas Asset	To bottom (invert) of gas asset	Witness trench shall be 1000 mm to 2000 mm in front of the gas asset on the approach side.
Crossing Below Existing Gas Asset	To bottom (invert) of gas asset plus 500 mm	Witness trench shall be min. 1500 mm long and 300 mm wide centred on bore centre line.

Dispensation may be considered where detailed long sections are provided for assessment by APA and where depths of existing gas assets or separation to the bore are greater than 2500 mm.

Pipe bursting is not permitted within 1000 mm of an existing gas asset.

5.7 Piles, Piers or Poles

No piling such as pile-driving, sheet-piling or hammer-piling is permitted within 15 m of an existing gas asset unless explicit consent has been provided by APA. In all instances, vertical bored (augured) piles, piers or poles are preferred.

Where installation of piles, piers or poles are proposed between 500 mm and 1000 mm clearance from a gas asset (distribution and transmission pressures, respectively), the area directly below the proposed pile, pier or post location must be excavated to a level equivalent to the bottom (invert) of the existing gas asset, and works started from that depth.

Note: Proving of the gas asset must be completed in accordance with the requirements set out in **Section 5.5.2** prior to the commencement of any works.

Temporary steel plates may also be installed between the gas asset and the proposed pile, pier or post used for vertical bore methods within this clearance to provide extra protection.

Note: Direct vibration monitoring on the gas main may be required depending upon the installation method utilised. Refer to **Section 5.9** for APA Networks vibration limits.

5.8 Hot Works for Construction Activities

Typical hot works include grinding, welding, thermal or oxygen cutting or heating, and other related heat producing or spark-producing operations. Heat sources or hot works must not impact gas assets, taking into consideration that the ground or adjacent structures may also be capable of transmitting heat.

In order to safely undertake hot works, response procedures in the event of fire or flammable gas detection must be prepared and monitoring for flammable gases must be undertaken during works.

APA must approve any hot works where there is less than 300 mm ground cover to buried gas assets, or within 5,000 mm of any exposed gas assets (including any pits or valve covers). A heat shield or barrier may be required to provide protection if it cannot be demonstrated that works can be undertaken without impacting the gas asset.

5.9 Vibration Limits

Significant vibration may arise from activities such as blasting, piling, tunnelling and HDD/boring.

To avoid damage to existing APA Networks operated pipes and coatings, the following vibration limits must not be exceeded at any point on the pipe:

- For cast iron mains: 5 mm/s maximum Peak Particle Velocity (**PPV**) measured on the pipe.
- For steel pipe with a coal tar enamel (**CTE**) coating or with poor coating health: 10 mm/s maximum PPV measured on the pipe.
- For non-coal tar enamel pipe coatings and other pipe materials (i.e. steel, PE, PVC or Nylon): 20 mm/s maximum PPV measured on the pipe.

- d) For blasting, the above vibration limits can be increased if supported by calculations in accordance with Design Guidelines for Buried Steel Pipeline – American Lifelines Alliance American Society of Civil Engineers (**ASCE**) and approved in writing by an APA Networks Integrity Engineer.

Note: Cast iron mains are particularly susceptible to damage by vibration. The PPV limit may not prevent leaks from cast iron and may require additional gas leakage survey activities during works in accordance with **Section 5.3**.

For vibration monitoring adopt an alarm at 80% of the acceptable PPV value and when the alarm is activated, the work must stop and be re-assessed. Short incursions up to 100% are acceptable, for sustained periods of vibration longer than 5 minutes, works must be stopped.

The zone of influence for vibration assessment undertaken by the third party is shown below;

- For compaction, refer to **Table 13**.
- For trenchless excavation (HDD/ boring), refer to **Section 5.6**.
- For piling refer to **Section 5.7**.
- For blasting refer to **Section 5.11**.

5.10 Compaction Limits

Compaction activities such as establishing a base course for a road pavement may result in damage to the pipes and coatings of existing gas assets. Compaction limits in the vicinity of existing gas assets are summarised in **Table 13**.

Table 13 Maximum Compaction Limits

Horizontal Separation (m)	Minimum Cover to Top of Gas Asset (mm)	Compaction Limits
≤3 (Note 1)	300	Small handheld compactor only
	500	Large handheld compactor Maximum 4 tonne tandem drum static roller
	750	Maximum 8 tonne tandem drum static roller
	1200	Maximum 10 tonne tandem drum static roller subject to APA approval
>3 & ≤10	All	Maximum 8 tonne tandem drum vibrating roller
>10 & ≤15	All	Maximum 10 tonne tandem drum vibrating roller
>15	All	Any compaction method

Note 1: Compaction within 3 m of gas assets is limited to static rollers. If vibration compaction is necessary a robust vibration assessment and construction methodology signed off by an RPEQ for works in Queensland, and so on as required for other States and Territories, will need to be produced by the third party for review and approval by an APA Networks Integrity Engineer.

5.11 Blasting / Seismic Survey / Explosives

Blasting, seismic survey or the use of explosives is not permitted within 100 m of a gas asset unless explicit approval is provided by APA Networks. The size and quantity of the explosives to be used will determine how close to the pipeline blasting will be permitted. In all cases, blasting methods must be arranged to limit ground vibrations so that the peak particle velocity does not exceed acceptable limits. At no stages will blasting be permitted within 3 m of the pipeline.

5.12 Suspended Materials above Gas Assets and No Go Zones for Cranes

Where gas assets are exposed, no cranes, excavators or backhoes are permitted to carry or suspend materials directly over or across a gas asset without an APA Networks approved lifting plan and SWMS.

Outriggers must be set up outside a 3 m radius from gas assets unless otherwise approved by APA Networks in writing.

5.13 Temporary Materials

In all instances it is preferred that temporary materials (e.g. soil, shipping containers) are not stored on top of transmission pressure and critical gas assets. Temporary material must not restrict access and should be placed at least 1,500 mm from the alignment of these assets unless otherwise approved by APA Networks.

6 PART 4 - ALTERATION OF EXISTING GAS ASSETS

Where the proposed third party works do not comply with the requirements of this document, and adequate additional controls or a specialised engineering solutions cannot be developed, alteration of the existing gas assets will be required.

Gas asset alterations will only be undertaken under a Recoverable Works Agreement (**RWA**) appropriate to the scope and extent of the works required.

An Early Works Agreement (**EWA**) may also be required where works are proposed which require proving, engineering design activities or purchase of long lead items. This will allow for completion of these items prior to execution of a RWA and avoid delaying works.

If either or both these agreements are required, then APA Networks will enter negotiations with the relevant third party and any costs will be payable by that third party.

7 GLOSSARY OF TERMS AND ABBREVIATIONS

Table 14 **Glossary of Terms and Abbreviations**

Term/ Abbreviation	Meaning
AGN	Australian Gas Networks
APA	Each entity that forms part of the APA Group
APA Engineering Assessment	Covers technical assessments which may involve field integrity assessments that may or may not include the use of specialist Consultants managed by APA.
APA Networks Operated Assets	APA Networks acts as the asset operator on behalf of entities Australian Gas Networks (AGN), Allgas, APA, Origin and Queensland Nitrates (QNP) and operates in New South Wales, Northern Territory, Queensland, South Australia and Victoria.
APA Permit Issuing Officer	The APA Permit Issuing Officer is responsible for opening the Permit To Work, validating APA Networks assets have been located and being the Site Watch for works within the gas Easement or Protected Zone.
AS	Australian Standard
ASCE	American Society of Civil Engineers
ATWP	Authority to Work Permit
CTE	Coal Tar Enamel
Damage	Physical damage to and interference with APA's assets. Damage includes reducing design life, coating damage, dents, scratches, rupture, cutting of cathodic protection cables. Damage can also include potential impacts that APA pipelines can have on third party assets.
BYDA	Before You Dig Australia (previously known as Dial Before You Dig (DBYD))
DCVG	Direct Current Voltage Gradient
Depth of Cover	Vertical distance from the existing natural ground surface to the top of the buried gas asset
EPR	Earth Potential Rise
ESV	Energy Safe Victoria
EWA	Early Works Agreement

Guidelines for Works Near Existing Gas Assets
400-STD-AM-0001 Revision 2

Excavation	Excavation refers to manual digging or mechanised digging operation with plant or equipment which involves trenching and trenchless excavation. Trenchless excavation covers boring, Horizontal Directional Drilling (HDD), pipe bursting and tunnelling.
FBE	Fusion Bonded Epoxy
GIS	Geographic Information System
HBE	High Build Epoxy
HDD	Horizontal Directional Drilling
Hot Works	Hot works are defined as grinding, welding, thermal or oxygen cutting or heating, and other related heat-producing or spark-producing operations. Heat sources or hot works must not impact pipelines, taking into consideration that the ground or adjacent structures may also be capable of transmitting heat.
LFI	Low Frequency Induction
LPG	Liquefied Petroleum Gas
MAOP	Maximum Allowable Operating Pressure
Measurement Length	The maximum length of pipeline route which presents an extended source of hazard on the basis that an event of failure could affect any part of the development or specific location relevant to the development. The maximum length corresponds to the heat radiation hazard associated with a 4.7 kW/m² heat radiation contour for an ignited full bore rupture calculated in accordance with AS/NZS 2885.6. If the pipeline is designed as a no rupture pipe, then the measurement length corresponds to a credible leak size.
NDD	Non-Destructive Digging (NDD) refers to either hand digging or Non-Destructive Pot Holing using a vacuum pipe connected to a vacuum truck with either a water lance or air lance. Hydro-Vacuum Excavation consists of a water lance and vacuum truck and is used to physically prove existing assets.
OHEW	Overhead Earth Wire
PE	Polyethylene
Pipe Bursting	Pipe bursting refers to a pipe being inserted to a larger pipe that results in the larger pipe being damaged. For an example of pipe bursting, refer to the following You-Tube video: https://www.youtube.com/watch?v=HX5beh0ubGY
Pipeline Easement	The pipeline area shown on a survey plan and referenced on the property title.
Predominate Building Line	The expected predominate building line relates to the façade of the building, not necessarily the property boundary.
Protected Zone	A Protected Zone is an area extending both horizontally and longitudinally along a gas asset. It is the area where loads and/or any hot works may potentially cause damage to the gas asset.

Guidelines for Works Near Existing Gas Assets
400-STD-AM-0001 Revision 2

	The Protected Zone refers to works near APA Networks gas assets or works within the vicinity of the gas assets that may cause an unacceptable risk to the asset in accordance with Table 2 Minimum Clearances or Table 3 Minimum Clearances for Construction Works and Land Use Activities
PTW	Permit to Work
PPV	Peak Particle Velocity
PVC	Polyvinyl Chloride
QNP	Queensland Nitrates Plant
RPEQ	Registered Profession Engineer Queensland
RWA	Recoverable Works Agreement
Sensitive Use Locations	This is designated as Class “S” as per AS/NZS 2885.6 Pipelines - Gas and liquid petroleum - Pipeline safety management and refers to the sub location class. Sensitive Use Location Class (S) identifies land where the consequences of a FAILURE EVENT may be increased because it is developed for use by sectors of the community who may be unable to protect themselves from the consequences of a pipeline FAILURE EVENT. Sensitive uses are defined as follows: • Schools which includes colleges • Hospitals • Aged care facilities such as nursing homes, elderly people’s homes • Prisons and jails • Convalescent homes • Sheltered housing • Buildings with five or more stories • Large community and leisure facilities, large open air gatherings • Day care facilities • Other potentially difficult to evacuate facilities • Other structures as defined by relevant local councils. The Sensitive Use Location Class “S” must be assigned to any section of a gas transmission pipeline where there is a sensitive development within the applicable Measurement Length.

Guidelines for Works Near Existing Gas Assets
400-STD-AM-0001 Revision 2

Site Watch	An APA Site Watch representative can be the Permit Issuing Officer for excavation work within a gas Easement or Protected Zone and is referred to as the primary spotter for excavation works. The secondary spotter is provided by the Contractor. The primary spotter has the ultimate decision regarding works within the gas Easement or Protected Zone which includes the method of excavation, starting and stopping excavation work. The APA Site Watch representative is the nominated competent person responsible for the following; • Making themselves highly visible and everyone on the job site should be aware of the Site Watch's role; • Communication to personnel operating mobile plant and equipment ensuring minimum clearance to above and below ground assets is maintained and the construction methodology is adhered to and complies with APA Networks requirements. Ensuring personnel do not encroach within the swing radius of the operating machinery.
SMS	Safety Management Study
SMWS	Safe Work Method Statement used by APA or Contractors to execute field work. The risks and associated control measures risk assessments should be transferred to SWMS.
SRZ	Structural Root Zone
Structures	Structures refer to third party structures which includes, but is not limited to; temporary or permanent buildings, walls, canopies, footings, pile caps or retaining walls
Third Party	The person or entity and their agents or Contractors that propose to undertake work near APA assets.
Third Party Assets	Third Party Assets include roads, utilities and structures.
Third Party Excavation	Third Party Excavation which is not associated with APA (e.g. road works, utility installation, private development, fencing).
Third Party Works Classification	The Third Party Work Classification as shown in Section 3.3 covers the following three work classifications: 1. No Impact to gas assets 2. No Objection Under Conditions 3. Enquiry Escalated for Alteration
Transmission Pipeline	Gas transmission pipeline which includes all associated equipment such as cathodic protection, earthing grid, instrumentation and electrical cables.
Utilities	Includes water, wastewater, drainage, telecommunications cables, power poles and cables owned by individuals or organisations other than APA Networks.
Voltage	Difference of potential normally between conductors or between conductors and earth as follows: a) Extra-low voltage – Not exceeding 50V a.c. or 120 V ripple-free d.c. b) Low voltage – Exceeding extra-low voltage, but not exceeding 1000 V a.c. or 1500 V d.c.

	c) High voltage – Exceeding low voltage.
Works	The development of any type of buildings, structures and other obstructions (including residential buildings, pools, sheds, carports, major developments, transport infrastructure, services, stockpiles, trees), and any work that causes changes to the ground (including movement of heavy vehicles, blasting, tunnelling, pile driving, ground compaction, earthworks, open and trenchless excavations)

APPENDIX A

GENERAL DBYD RESPONSE PROCESS

This content was uploaded by Ipswich City Council in response to your Before You Dig enquiry.

Uploaded

26 Aug 2025 10:17:04am

Attention: **Soft Reg**

Thank you for your Before You Dig (BYDA) enquiry.

Job Number: **51007343**

Sequence Number: **260110961**

Dig Site Location: **34 BIRD STREET BUNDAMBA QLD 4304**

According to our records, your enquiry with the following details **impacts our infrastructure**. Please ensure that you read the attached documents, it contains important information including essential steps that must be undertaken prior to commencing construction activities.

This enquiry is valid for 30 days from the enquiry date.

If you require further information or assistance with interpretation of plans, please contact Ipswich City Council on (07) 3810 6666 or at RequestsSpatial@ipswich.qld.gov.au.

This enquiry response, including any associated documentation, has been assessed and compiled from the information detailed within the BYDA enquiry outlined above. Please ensure that the BYDA enquiry details and this response accurately reflect your proposed works.

Date: 26 Aug 2025

To: Soft Reg

Please DO NOT SEND A REPLY to this email as it has been automatically generated and replies are not monitored.

Thank you for your BYDA enquiry (referenced below)—this letter is in relation to the proposed work at location detailed below. AARNet has assets in the area but not in the local vicinity of the proposed work.

SEQUENCE NO.:	260110962
JOB NO.:	51007343
LOCATION:	34 BIRD STREET BUNDAMBA QLD 4304
COMMENCEMENT DATE:	28 Aug 2025

Attached is a map indicating the location of the enquiry area and an approximate location of AARNet's underground infrastructure in the local vicinity.

There may be additional AARNet assets in this area that are contained within Telstra duct. No work is to take place until plans have been obtained from Telstra and reviewed as necessary.

Any information provided is valid for 28 days from the date of issue of this document.

WARNING: When working in the vicinity of AARNet's underground infrastructure you have a legal Duty of Care that must be observed.

Please review the map and if you have any further concerns, contact the AARNet NOC on [1300 APL NOC](#).

To best manage the risk of damage and liability, we recommend that you engage the services of a BYDA Certified Locator

Important Notice

Where AARNet plans have been attached, they are indicative of the position of AARNet Pty Ltd's (**AARNet**) installation/s **only**. Services belonging to other third parties are not included on these plans.

These plans have been prepared solely for the use of AARNet and any reliance placed on these plans by you is entirely at your own risk. The plans may show the position of our assets relative to fences, buildings, etc, as they existed at the time the fibre, etc, was installed. The plans may not have been updated to take account of any subsequent change in the location or style of those features since the time at which the plans were initially prepared.

AARNet makes no warranty as to the accuracy or completeness of the enclosed plans and

does not assume any duty of care to you nor any responsibility for the accuracy, adequacy, suitability or completeness of the plans or for any error, omission, lack of detail, transmission failure or corruption in the information provided. AARNet does not accept any responsibility for any loss that you or anyone else may suffer in connection with the provision of these plans, however that loss may arise (including whether or not arising from the negligence of AARNet, its employees, agents, officers or contractors).

The recipient of these plans must use their own care and diligence in carrying out their works and must carry out further surveys to locate services at their work site. Persons excavating or carrying out other earthworks will be held responsible for any damage caused to AARNet's installations.

Disclaimer: While reasonable measures have been taken to ensure the accuracy of the information contained in this plan response, neither AARNet nor PelicanCorp shall have any liability whatsoever in relation to any loss, damage, cost or expense arising from the use of this plan response or the information contained in it or the completeness or accuracy of such information. Use of such information is subject to and constitutes acceptance of these terms.

If you are unable to launch any of the files for viewing and printing, you may need to download and install free viewing and printing software such as [Adobe Acrobat Reader \(for PDF files\)](#).

DISCLAIMER: While reasonable measures have been taken to ensure the accuracy of the information contained in this plan response, neither AARNet nor PelicanCorp shall have any liability whatsoever in relation to any loss, damage, cost or expense arising from the use of this plan response or the information contained in it or the completeness or accuracy of such information. Use of such information is subject to and constitutes acceptance of these terms.

Tile No: 1

Guidelines for digging in the vicinity of AARNet Fibre Optic infrastructure

REQUIREMENTS FOR ALL AREAS

Under no circumstances shall construction, digging or excavating work entailing crossing AARNet plant be carried out without first exposing or locating the AARNet asset by an accredited locator and under the supervision of an accredited plant location contractor.

Manual pot-holing needs to be undertaken with extreme care, common-sense and employing techniques least likely to damage cables. For example, orientate shovel blades and trowels parallel to the cable rather than digging across the cable.

Visual location of asset must be carried out by hand digging or using non-destructive water jet method (pot holing) where construction activities may damage or interfere with AARNet assets.

The following minimum clearances must be maintained between mechanical construction activity and the located AARNet asset.

Jackhammers / Pneumatic Breakers	Not within 1.0m of actual location
Vibrating Plate or Wacker Packer Compactor	Not within 0.5m of actual location 300mm compact clearance before compactor can be used over AARNet conduits. 750mm compact clearance cover before compactor can be used Over AARNet Direct Buried cable
Boring Equipment (in-line, horizontal and vertical)	Not within 5.0m of actual location without supervision of accredited plant location contractor onsite OR AARNet asset must exposed via hand dig or nondestructive water jet method (pot holing). AND AARNet asset must not be crossed without first exposing the asset at the crossing point and not without an accredited plant location contractor representative onsite
Heavy vehicle Traffic (over 3 tonnes)	Not to be driven over AARNet conduits or assets with less than 600mm of cover. Depth to be verified via hand digging
Mechanical Excavators, Farm ploughing, Boring, Tree removal, fencing	Not within 1.0m of actual location. Constructor to hand dig or use non-destructive water jet method (pot holing) and expose asset

General Enquires **1300 APL NOC (1300 275 662)**

To resubmit or change the nominated search area contact BYDA via www.1100.com.au

REQUIREMENTS FOR URBAN AREAS

Under no circumstances shall construction, digging or excavating work be carried out: within 1.5m of AARNet assets without first locating and identifying the AARNet asset by an accredited locator and under the supervision of an accredited plant location contractor.

REQUIREMENTS FOR RURAL AREAS

Under no circumstances shall construction, digging or excavating work be carried out within 10m of AARNet plant be carried out without first locating and identifying the AARNet asset by an accredited locator and under the supervision of an accredited plant location contractor.

ASSET RELOCATIONS

You are not permitted to relocate, modify or alter any AARNet assets under any circumstances. Please contact AARNet Infrastructure Development Group via email apl-dig@aarnet.edu.au for all enquiries relating to the relocation of AARNet assets.

DAMAGE

AARNet will seek Compensation for any loss caused by damage to its assets. Damage to any AARNet asset must be immediately reported to AARNet NOC on 1300 APL NOC (1300 275 662).

FURTHER ASSISTANCE

Assistance can be obtained by contacting AARNet NOC on 1300 APL NOC (1300 275 662) Where an on-site location is provided by an accredited locator, the owner is responsible for all costs associated with hand digging or use of non-destructive water jet method (pot holing) to visually locate AARNet assets. If plant location drawings or visual location of AARNet assets by digging reveals that the location of AARNet plant is situated wholly or partly within the owner work area, then AARNet Infrastructure Development Group

apl-dig@aarnet.edu.au must be contacted to discuss possible engineering solutions.

Before You Dig Australia Response

Please DO NOT SEND A REPLY to this email as it has been automatically generated and replies are not monitored.

Dear Soft Reg

We appreciate your diligence in contacting the Before You Dig Australia service (BYDA) prior to engaging in work or activities which may affect the water and sewerage infrastructure of Urban Utilities.

Job Number:	51007343
Sequence Number:	260110964
Enquiry Date:	26/08/2025 10:16:00 AM
Enquiry Location:	34 BIRD STREET BUNDAMBA QLD 4304

WARNING: When working in the vicinity of Urban Utilities' assets you have a legal *Duty of Care* that must be observed.

Our records indicate the presence of infrastructure owned by Urban Utilities within your nominated search area, as shown on the attached plan.

Please note that you may be liable for any loss or damage to our infrastructure which is caused by any works or activities which you undertake over or near such infrastructure. Additionally, your works or activities may conflict with other works scheduled in your nominated search area. To avoid any unnecessary impacts, before any undertaking you must obtain the following approvals:

- And/or a Urban Utilities Network Access Permit for self assessable works or activities that are within two metres of our infrastructure (refer to [Urban Utilities Network Access Permit Webpage](#))
- Either a Build Over Asset (BOA) Approval for assessable building works undertaken within specified distances of our infrastructure (refer to [DHPW BOA Factsheet](#))

We have provided additional information about your responsibilities in relation to our infrastructure in the Important Information sheet attached to this letter. By accessing BYDA to obtain our records about our infrastructure, you warrant that you have read

the sheet and agree to the terms and conditions set out therein.

For further enquiries or assistance with interpretation of plans and search content please contact our BYDA Support Team by email networkaccess@urbanutilities.com.au. Alternatively, you can write to us at Urban Utilities, PO Box 2765, Brisbane QLD 4001.

Thank you for taking the time to consult the BYDA service.

Yours sincerely

Before You Dig Australia Support Team

AU.Urban Utilities - Response Plan.docx (2020)

Important Information

Disclaimer

All Urban Utilities' records, data and information supplied via BYDA ("**Data**") is **indicative** only. You agree that any Data supplied to you has been or will be provided only for your convenience and has not been and will not be relied upon by you for any purpose.

You also agree that Urban Utilities does not assume any responsibility or duty of care in respect of, or warrant, guarantee or make any representation as to the Data (including its accuracy, reliability, currency or suitability).

Because the location of Urban Utilities' infrastructure shown on the Data is approximate only, you must first physically locate the infrastructure by utilising relevant site detection methodologies prior to performing any works or undertaking any activities near or adjacent to infrastructure. Possible site detection methodologies include hand digging, potholing, trenching and/or probing. You are solely responsible for the selection of appropriate site detection methodologies at all times.

To the fullest extent permitted by law, Urban Utilities will not be liable to you in contract, tort, equity, under statute or otherwise arising from or in connection with the provision of any Data to you via BYDA.

Compliance with laws

There may be both indicated and unmarked hazards, dangers or encumbrances, including underground asbestos pipes and abandoned mains within your nominated search area. You are solely responsible for ensuring that appropriate care is taken at all times and that you comply with all mandatory requirements relating to such matters, including in relation to workplace health and safety.

Damaged Infrastructure

Please note that it is an offence under Section 192 of the *Water Supply (Safety and Reliability) Act 2008* to interfere with our infrastructure without Urban Utilities' written consent.

You may be liable to Urban Utilities for any loss of or damage to our infrastructure, together with any consequential or indirect loss or damage (including without limitation, loss of use, loss of profits or loss of revenue) arising from or in connection with any interference with Urban Utilities' infrastructure by you or any other person for which you are legally responsible.

Any damage to Urban Utilities' Infrastructure must be reported immediately to the (24 Hours) Faults and Emergencies Team on 13 23 64.
